[57] CLAIM

The ornamental design for a multiple label dispenser, as shown and described.

DESCRIPTION

FIG. 1 is a top, front, and left side perspective view of a multiple label dispenser showing my new design; FIG. 2 is a front elevational view thereof; FIG. 3 is a rear elevational view thereof; FIG. 4 is a top plan view thereof; FIG. 5 is a bottom plan view thereof; FIG. 6 is a right side elevational view thereof, the left side being a mirror image of that shown; FIG. 7 is a reduced top, front, and left side perspective view of a second embodiment thereof, the only difference residing in the presence of a third spindle; and, FIG. 8 is a reduced top, front, and left side perspective view of a third embodiment thereof, the only difference residing in the presence of only one spindle. The broken-line disclosure of a roll of labels in the views is for illustrative purposes only and forms no part of the claimed design.
