US00D342234S

United States Patent [19]

Graybill, Jr. et al.

[11] **Patent Number: Des. 342,234**

[45] **Date of Patent: ** Dec. 14, 1993**

[54] **COMBINED BEZEL AND SWITCH ACTUATORS FOR CONTROLLING ELECTRICAL POWER**

[75] Inventors: **James R. Graybill, Jr.**, Emmaus; **Elliot G. Jacoby, Jr.**, Glenside; **Noel Mayo**, Philadelphia; **Joel S. Spira**, Coopersburg, all of Pa.

[73] Assignee: **Lutron Electronics Co. Inc.**, Coopersburg, Pa.

[**] Term: **14 Years**

[21] Appl. No.: **718,878**

[22] Filed: **Jun. 21, 1991**

[52] **U.S. Cl.** **D13/169**

[57] **CLAIM**

The ornamental design for a combined bezel and switch actuators for controlling electrical power, as shown and described.

DESCRIPTION

FIG. **1** is a front and upper right isometric view of a combined bezel and switch actuators for controlling electrical power showing our new design. The broken line showing is included for the purpose of illustrating environmental elements only and forms no part of the claimed design;

FIG. **2** is a front elevational view thereof;

FIG. **3** is a top plan view thereof;

FIG. **4** is a left side elevational view thereof;

FIG. **5** is a bottom plan view thereof;

FIG. **6** is a front and upper right isometric view of a combined bezel and switch actuators for controlling electrical power showing a second embodiment of our new design. The broken line showing is included for the purpose of illustrating environmental elements only and forms no part of the claimed design;

FIG. **7** is a front elevational view thereof;

FIG. **8** is a top plan view thereof;

FIG. **9** is a left side elevational view thereof;

FIG. **10** is a bottom plan view thereof;

FIG. **11** is a front and upper right isometric view of a combined bezel and switch actuators for controlling electrical power showing a third embodiment of our new design. The broken line showing is included for the purpose of illustrating environmental elements only and forms no part of the claimed design;

FIG. **12** is a front elevational view thereof;

FIG. **13** is a top plan view thereof;

FIG. **14** is a left side elevational view thereof; and,

FIG. **15** is a bottom plan view thereof.
