[57] CLAIM

The ornamental design for an electrical converter for an automotive trailer signal, as shown and described.

DESCRIPTION

FIG. 1 is a front and upper left perspective view of a electrical converter for an automotive trailer signal showing my new design. The broken line showing of the electrical cable is included for the purpose of illustrating environmental elements only and forms no part of the claimed design;

FIG. 2 is a left side elevational view thereof;

FIG. 3 is a front elevational view thereof;

FIG. 4 is a right side elevational view thereof;

FIG. 5 is a rear elevational view thereof;

FIG. 6 is a top plan view thereof;

FIG. 7 is a bottom plan view thereof;

FIG. 8 is a front and upper left perspective view of a electrical converter for an automotive trailer signal showing my new design. The broken line showing of the electrical cable is included for the purpose of illustrating environmental elements only and forms no part of the claimed design;

FIG. 9 is a left side elevational view thereof;

FIG. 10 is a front elevational view thereof;

FIG. 11 is a right side elevational view thereof;

FIG. 12 is a rear elevational view thereof;

FIG. 13 is a top plan view thereof; and,

FIG. 14 is a bottom plan view thereof.
