[57] **CLAIM**

The ornamental design for temples with fragmentary parts of eyeglass frame, as shown and described.

DESCRIPTION

FIG. 1 is a perspective view showing temples with fragmentary parts of an eyeglass frame according to my design with broken lines showing environmental structure that is not part of the design;

FIG. 2 is a front elevational view thereof;

FIG. 3 is a rear elevational view thereof;

FIG. 4 is a left side elevational view thereof, the right side elevational view being a mirror image of this figure;

FIG. 5 is a top plan view thereof; and,

FIG. 6 is a bottom plan view thereof.

The novel design feature comprises eyeglass temples coupled with fragmentary square panels of an eyeglass frame with the panels situated at the outer edges of the frame and the panels terminating at open vertically elongated slots in the frame.
