[57] **CLAIM**

The ornamental design for a CRT display screen for multiple images, as shown and described.

DESCRIPTION

FIG. 1 is a front elevational view of a first embodiment of the CRT display screen for multiple images; and, FIG. 2 is a front elevational view of a second embodiment of the CRT screen display, which is a mirror image of the FIG. 1 embodiment.

The display screen is flat with no substantial thickness.

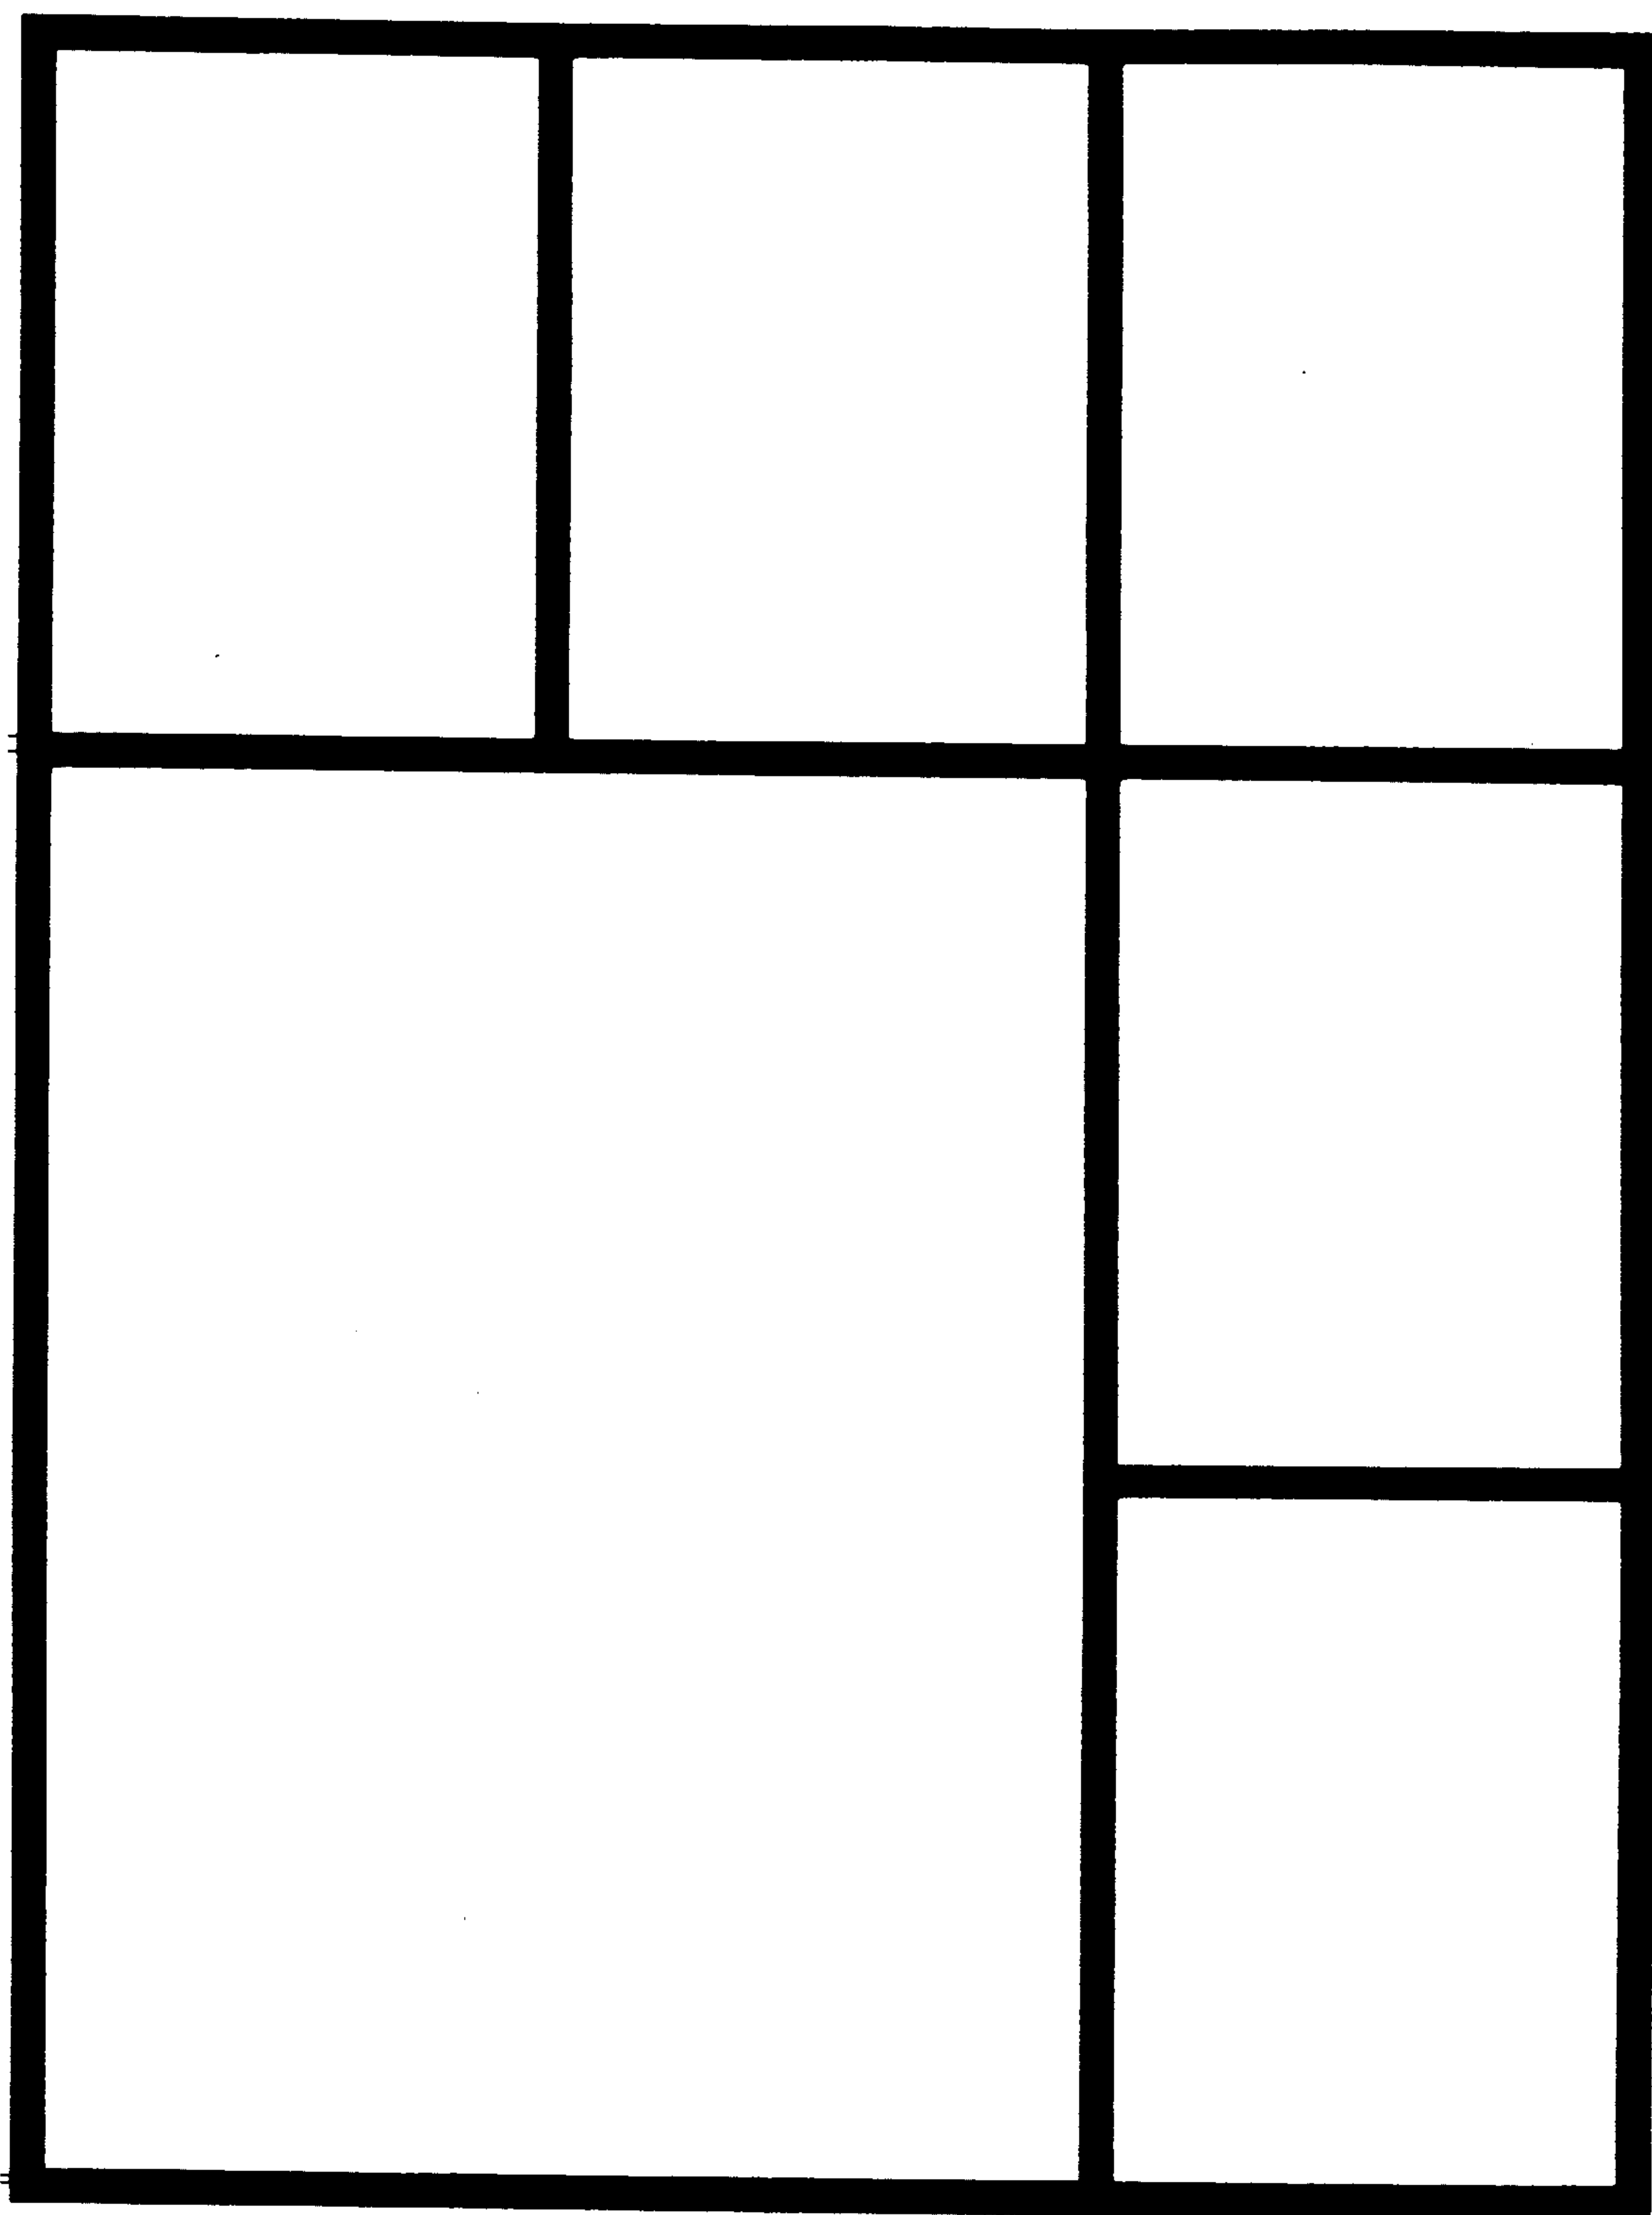

FIG.-1

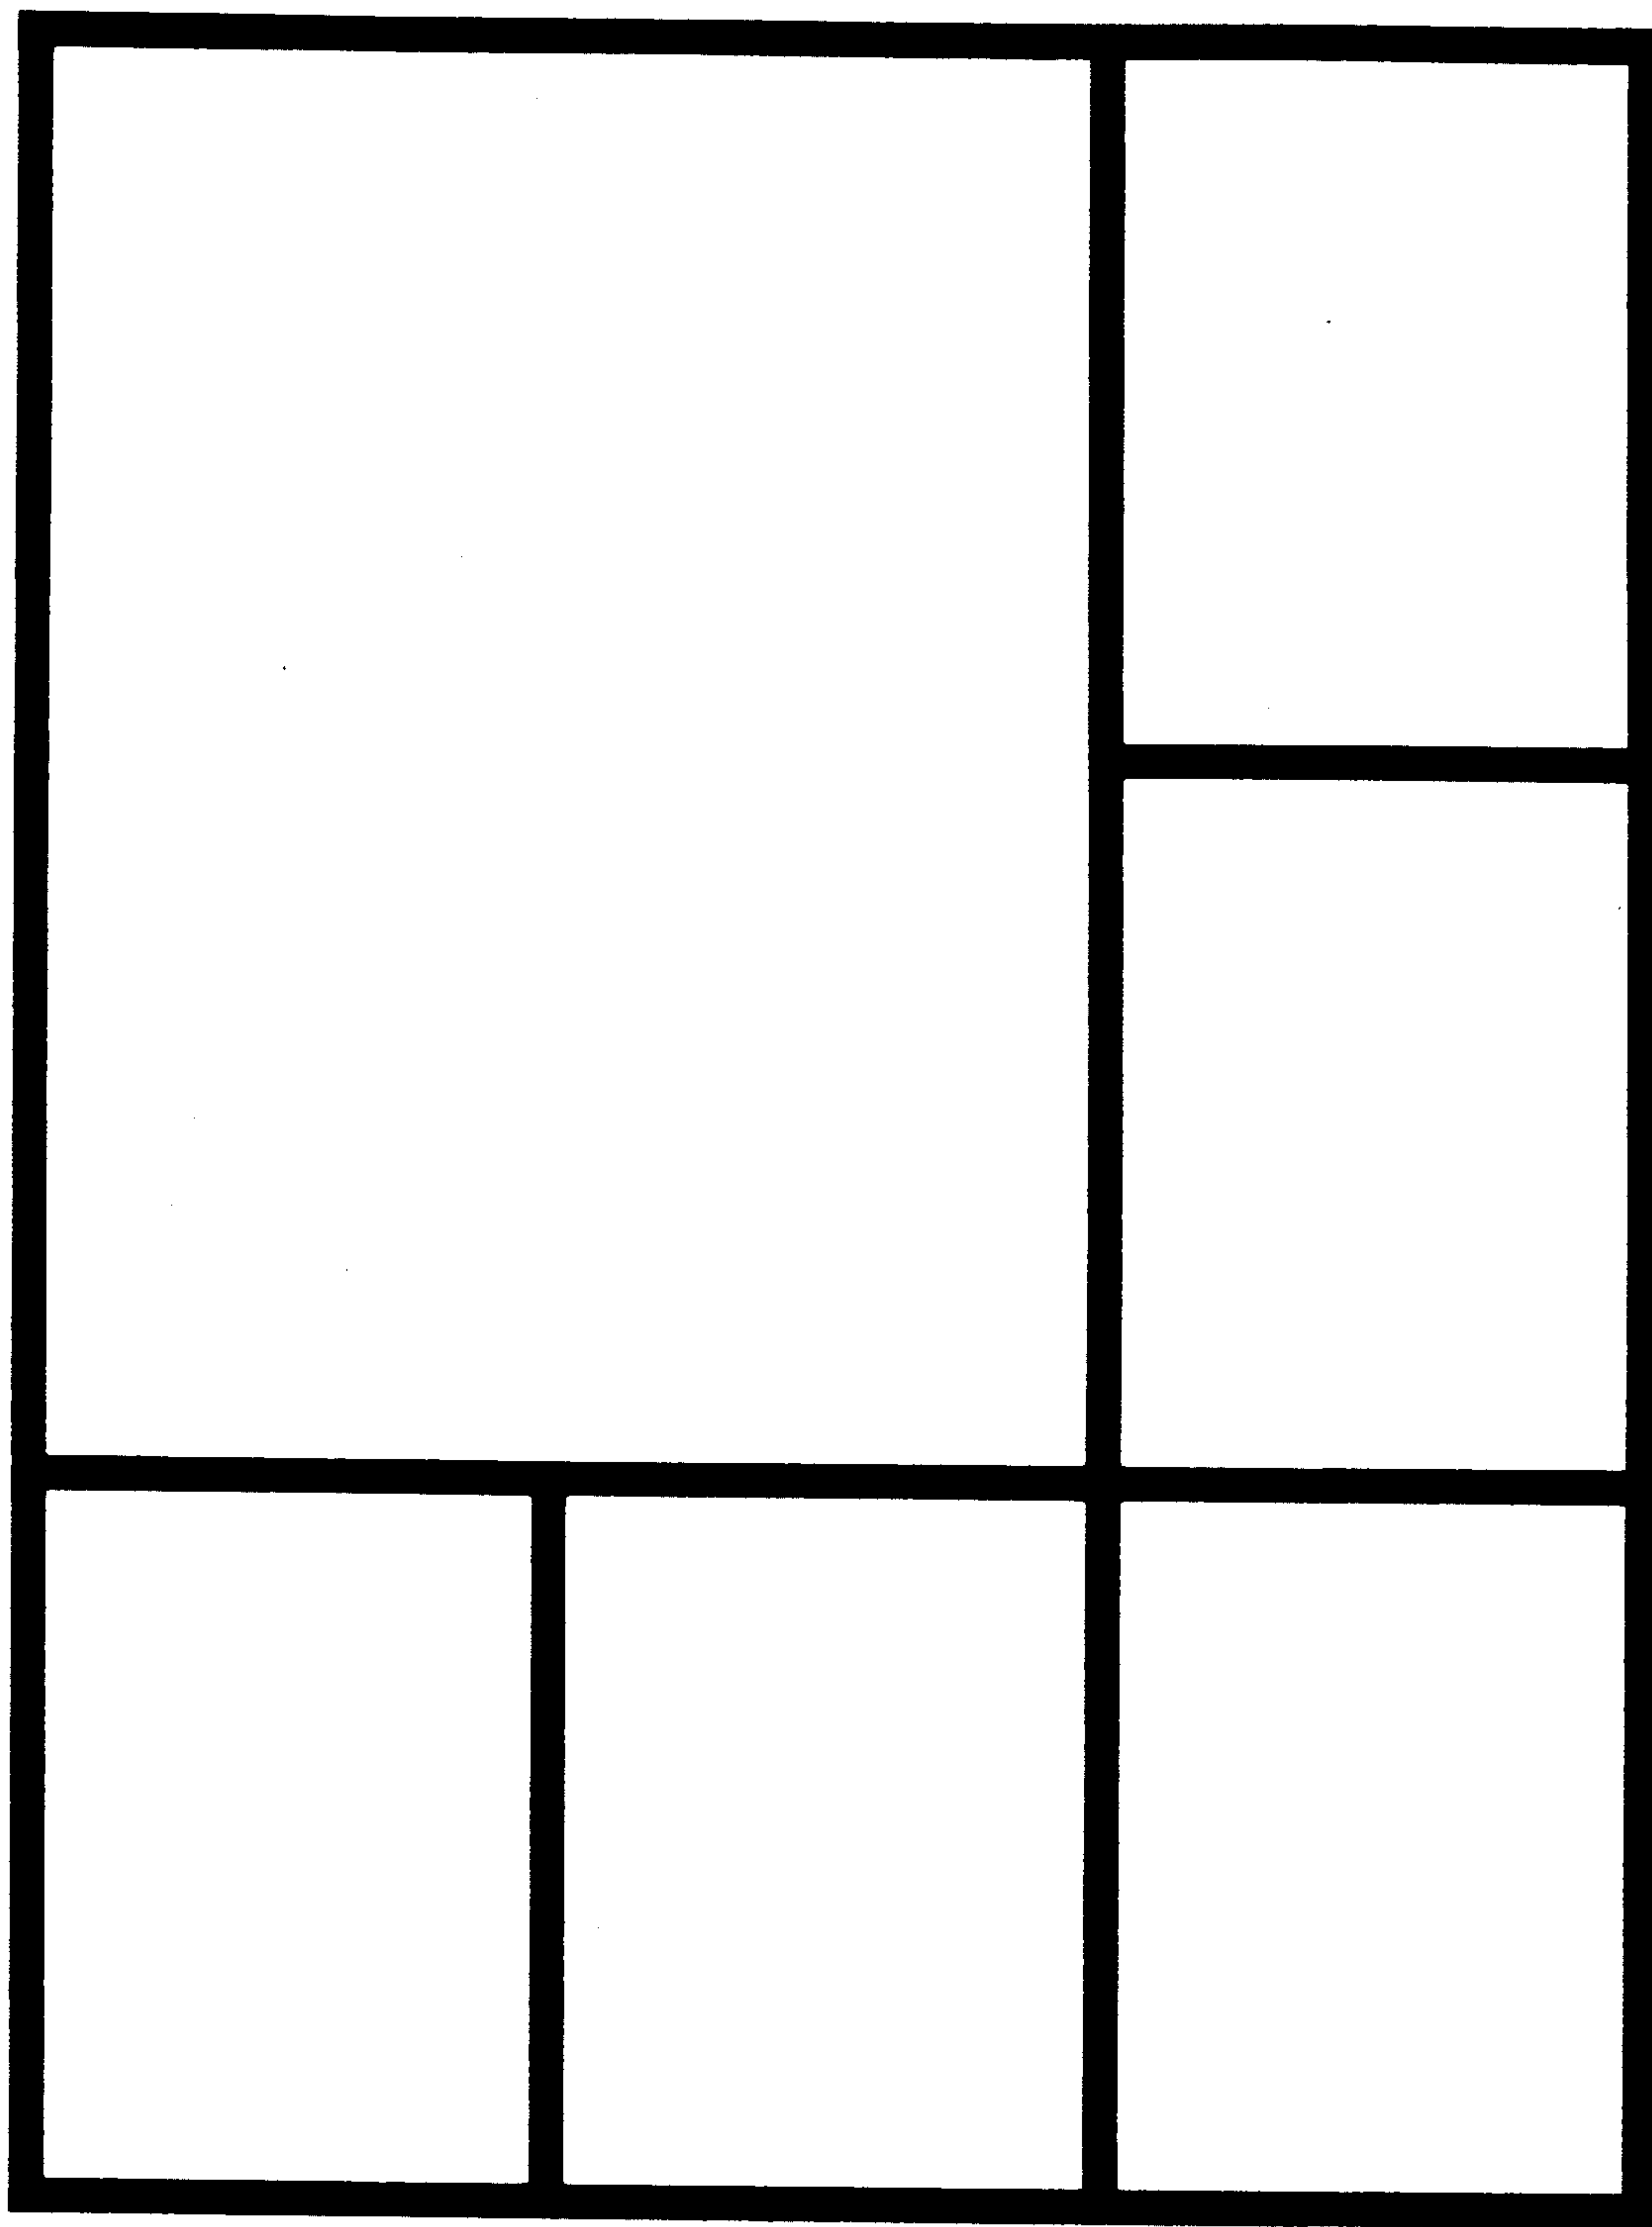

FIG.-2
