[57] CLAIM

The ornamental design for a resealable drinking cup cap, as shown and described.

DESCRIPTION

FIG. 1 is a perspective view of a resealable drinking cup cap, showing the new design, with the cap's spout in the upright open position, the phantom lines indicating a cup vessel with which the cap forms a drinking cup; FIG. 2 is a front elevational view thereof; FIG. 3 is a rear elevational view thereof; FIG. 4 is a right side elevational view thereof, the left side being a mirror image thereof; FIG. 5 is a top plan view thereof; FIG. 6 is a bottom plan view thereof; FIG. 7 is an alternative perspective view of the resealable drinking cup cap of FIG. 1, with the cap's spout in the horizontal closed position, the phantom lines indicating a cup vessel with which the cap forms a drinking cup; FIG. 8 is a front elevational view of the cap in closed position; FIG. 9 is a rear elevational view of the cap in closed position; FIG. 10 is a right side elevational view of the cap in closed position, the left side being a mirror image thereof; FIG. 11 is a top plan view of the cap in closed position; and, FIG. 12 is a bottom plan view thereof. The broken line showing of lower cup portion in FIGS. 1 and 7 is for illustrative purposes only and forms no part of the claimed design.
