[57] CLAIM

The ornamental design for a tire, as shown and described.

DESCRIPTION

FIG. 1 is a perspective view of a tire embodying our design, it being understood that the tread pattern is repeated throughout the circumference of the tire, the opposite side being substantially the same as that shown; FIG. 2 is a front elevational view thereof; and, FIG. 3 is a side elevational view thereof.

FIG. 1

FIG. 2

FIG. 3
