[57] CLAIM

The ornamental design for a point of sale touch display screen, as shown and described.

DESCRIPTION

FIG. 1 is a perspective view of a point of sale touch display screen showing a first preferred form of my design;
FIG. 2 is a front end elevation view thereof;
FIG. 3 is a side elevation view with the touch screen thereof in a first angular position the opposite side view being a mirror image thereof;
FIG. 4 is a side elevation view with the touch screen thereof in a second angular position, the opposite side view being a mirror image thereof;
FIG. 5 is a rear end elevation view thereof;
FIG. 6 is a rear end elevation view of a second embodiment thereof wherein the only difference is in the size of the window;
FIG. 7 is a perspective view of a third embodiment thereof;
FIG. 8 is a front end elevation view thereof;
FIG. 9 is a side elevation view thereof with the touch screen thereof in a first angular position, the opposite side view being a mirror image thereof;
FIG. 10 is a side elevation view thereof with the touch screen thereof in a second angular position, the opposite side view being a mirror image thereof;
FIG. 11 is a rear end elevation view thereof; and,
FIG. 12 is a rear end elevation view of a fourth embodiment thereof wherein the only difference is in the size of the window.
