## [57] CLAIM

The ornamental designs of a combined multi-faceted motor housing and light kit for a ceiling fan, as shown and described.

## DESCRIPTION

FIG. 1 is a top plan view of the combined multi-faceted motor housing and light kit for a ceiling fan showing our new design;

FIG. 2 is a side elevational view thereof, the opposite side being substantially a mirror image of that shown except for the middle light fixture;

FIG. 3 is a bottom plan view of FIG. 2;

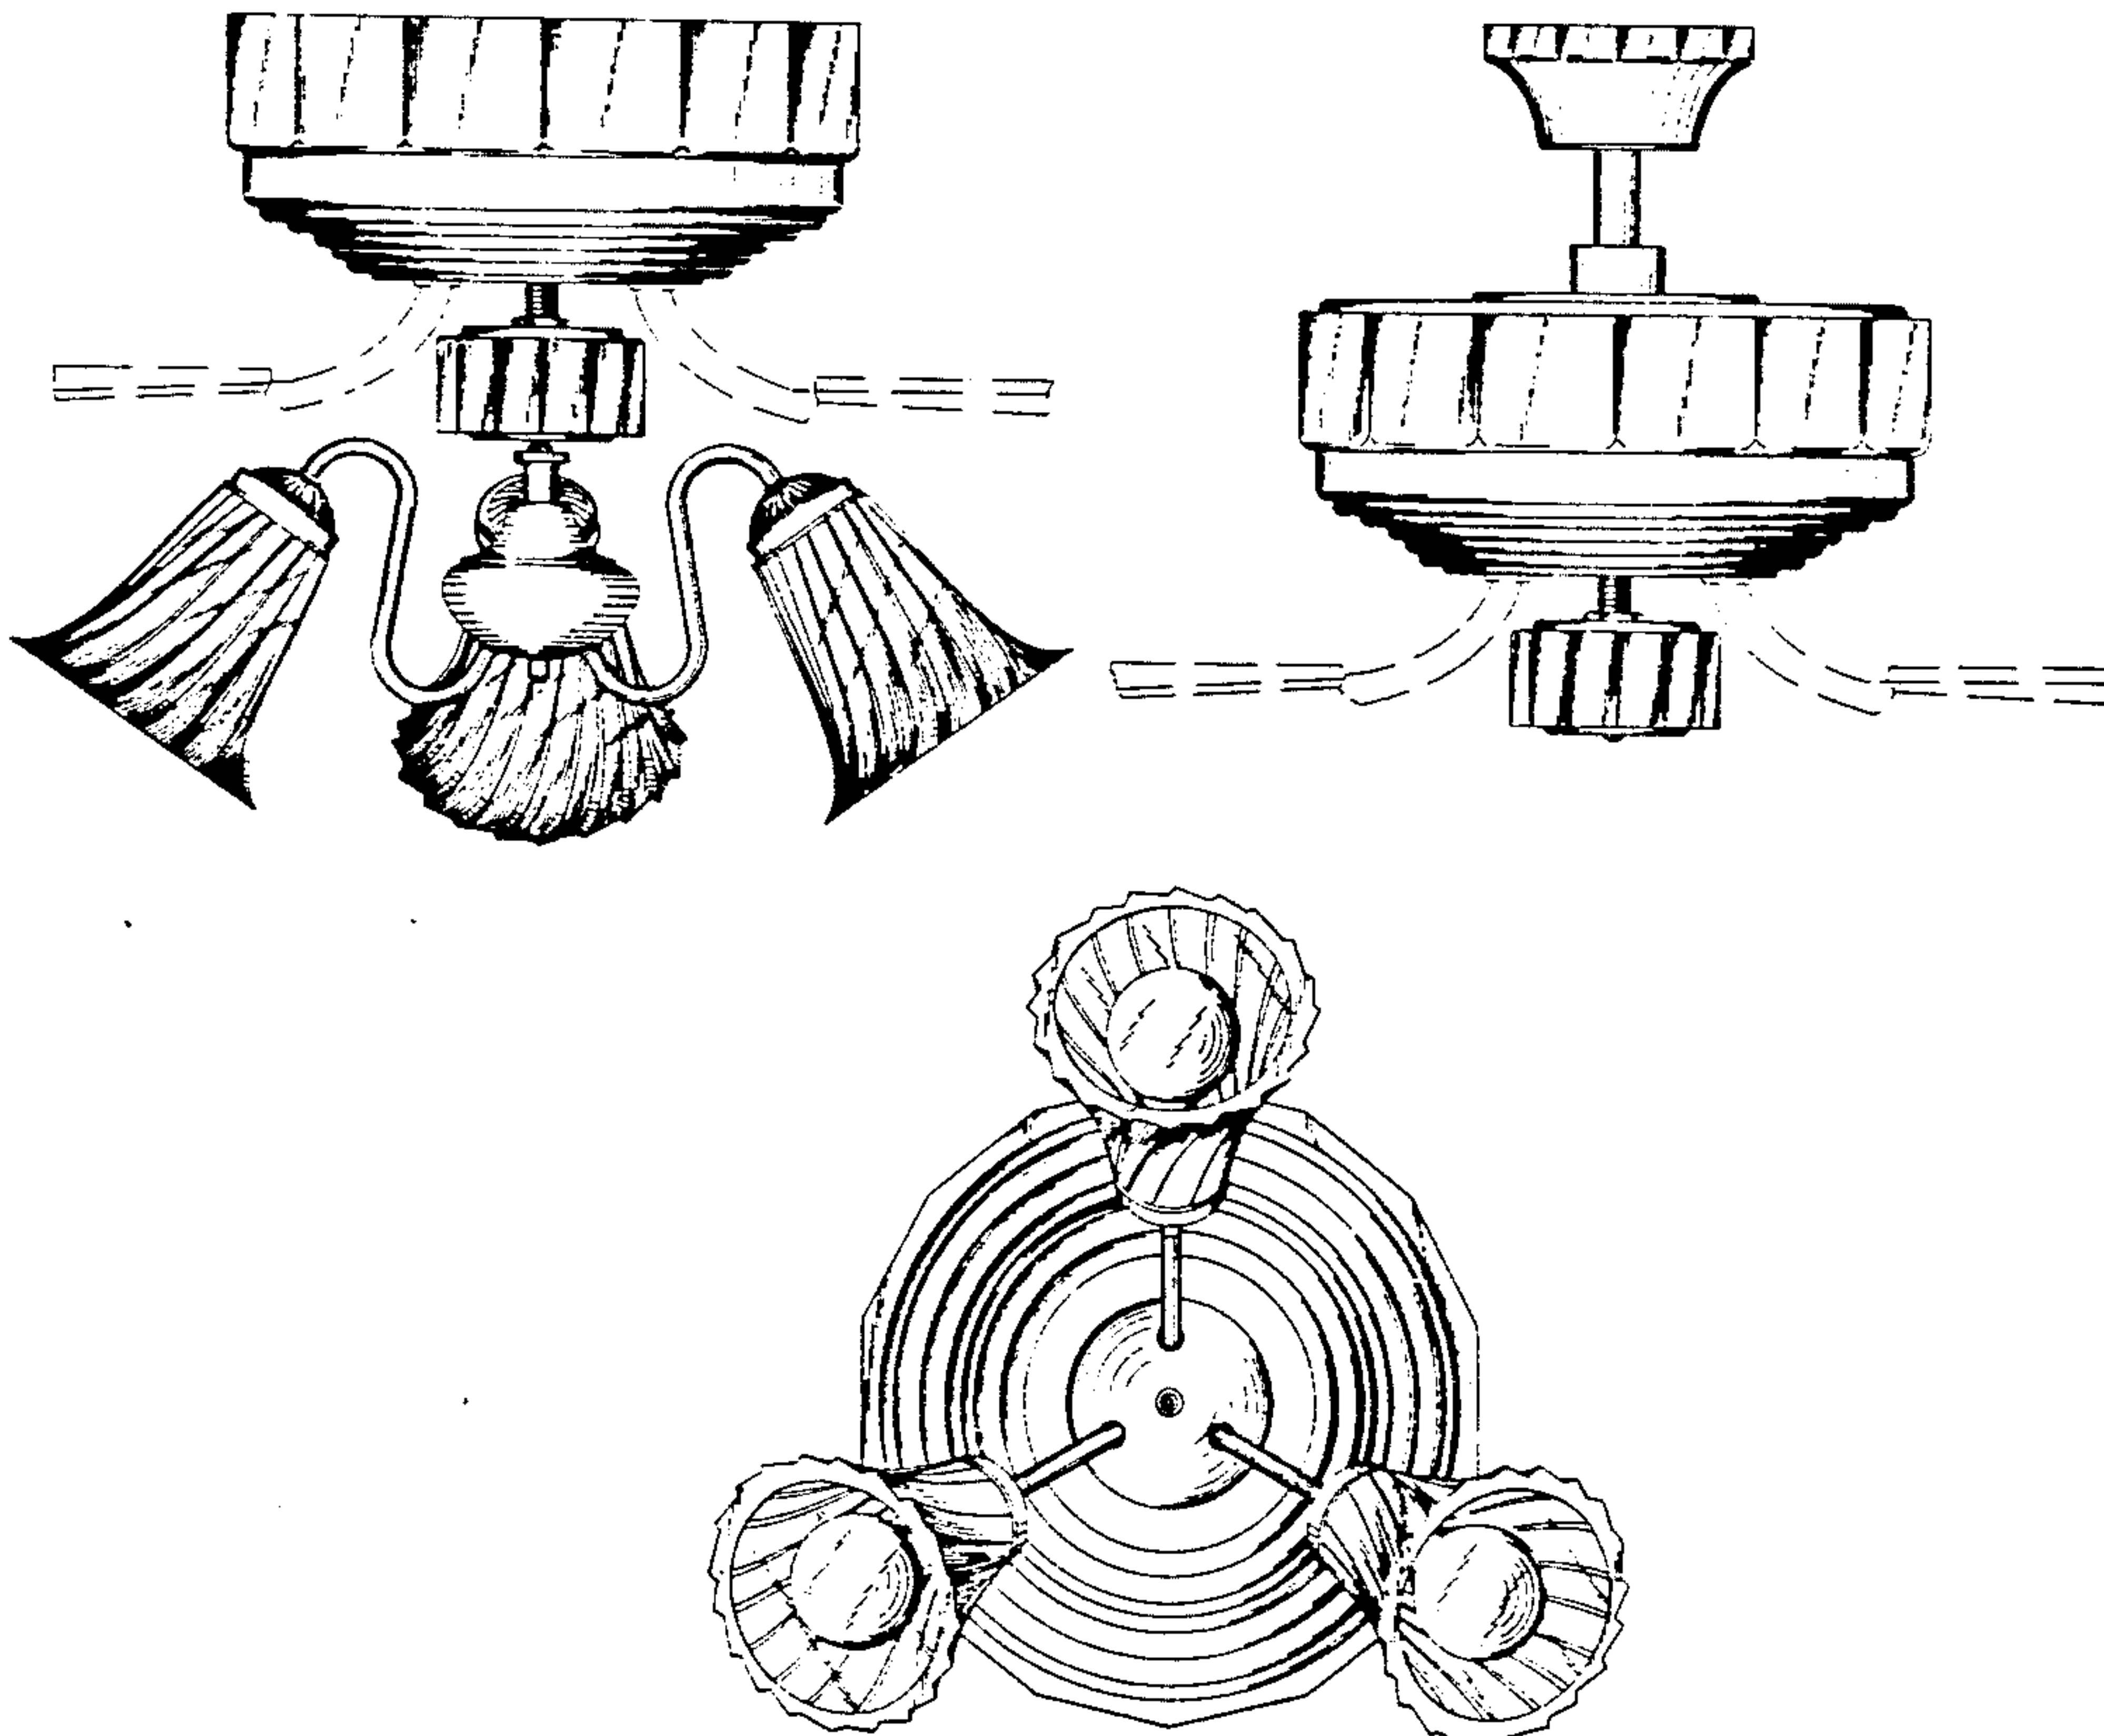

FIG. 4 is a side elevational view of FIG. 2, showing our new design without a light kit for clarity of illustration;

FIG. 5 is a top plan view of a second embodiment of a combined multi-faceted motor housing and light kit for a ceiling fan, wherein the motor housing includes down rod and canopy for connection to the ceiling, and shown without the light kit for clarity of illustration;

FIG. 6 is a side elevational view of FIG. 5; and,

FIG. 7 is a bottom plan view of FIG. 5.

The sole difference from the first embodiment being the presence of a down rod and canopy for connection to the ceiling, The broken line showing of fan blades and fan brackets in FIGS. 2-7, are for illustrative purposes only and form no part of the claimed design.
