[57] **CLAIM**

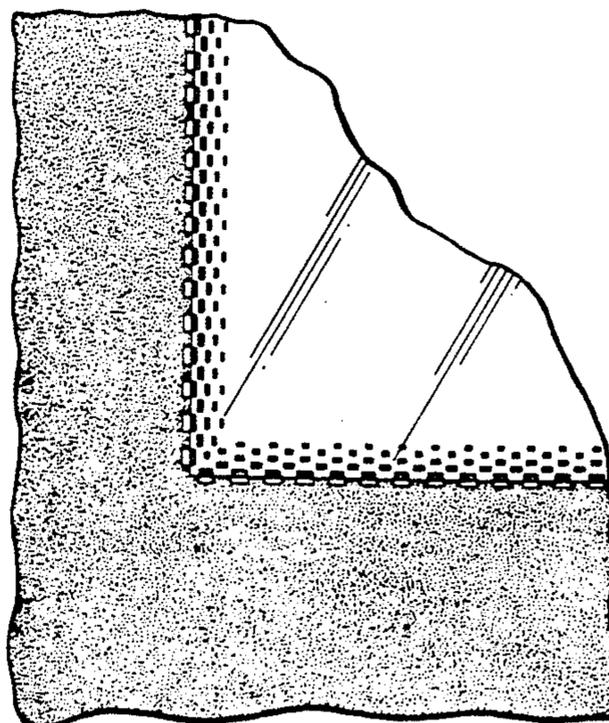

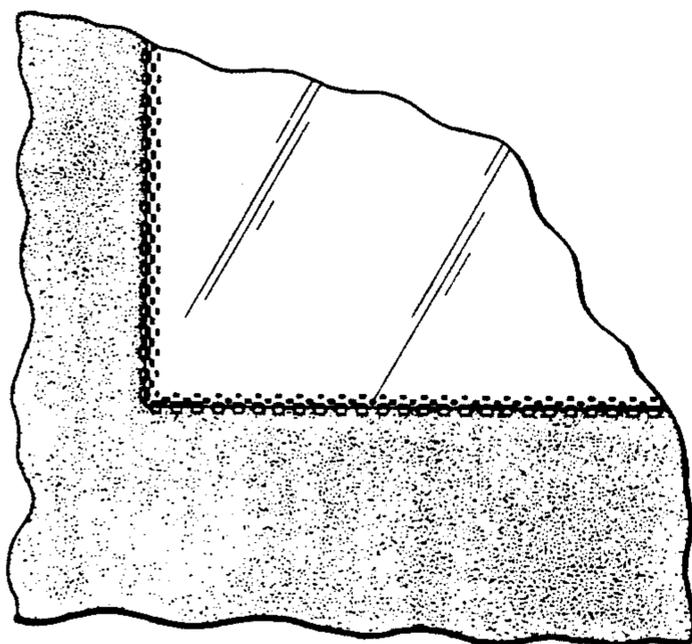

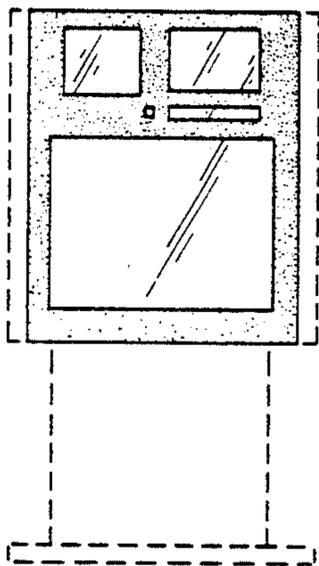

The ornamental design for a video conference screen, as shown and described.

**DESCRIPTION**

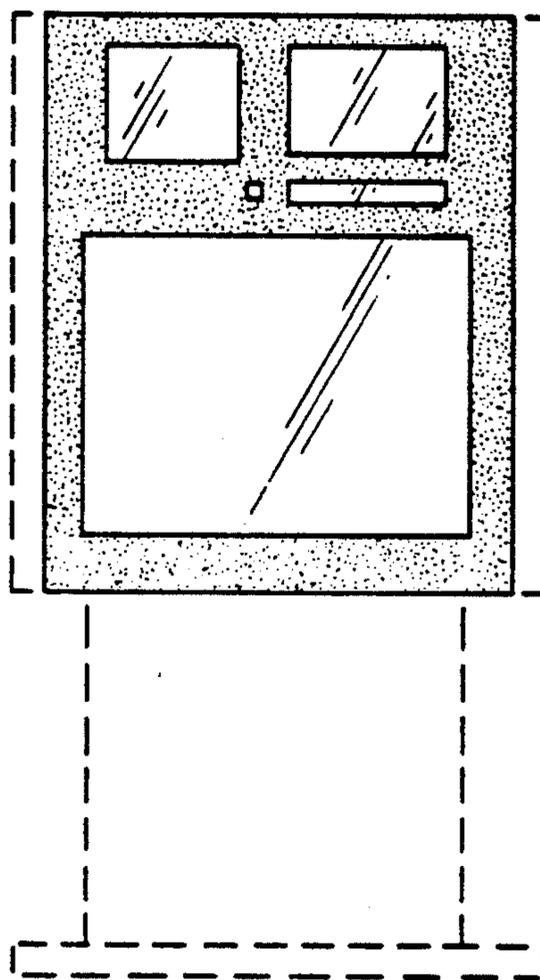

FIG. 1 is a front elevational view of a video conference screen according to the present invention and disposed in a video conference cabinet illustrated by the dashed lines;

FIG. 2 is a fragmentary enlarged view of a transition pattern between opaque borders and transparent video screen portions of the video conference screen hereof, the transition pattern surrounding each of the transparent portions of the screen; and,

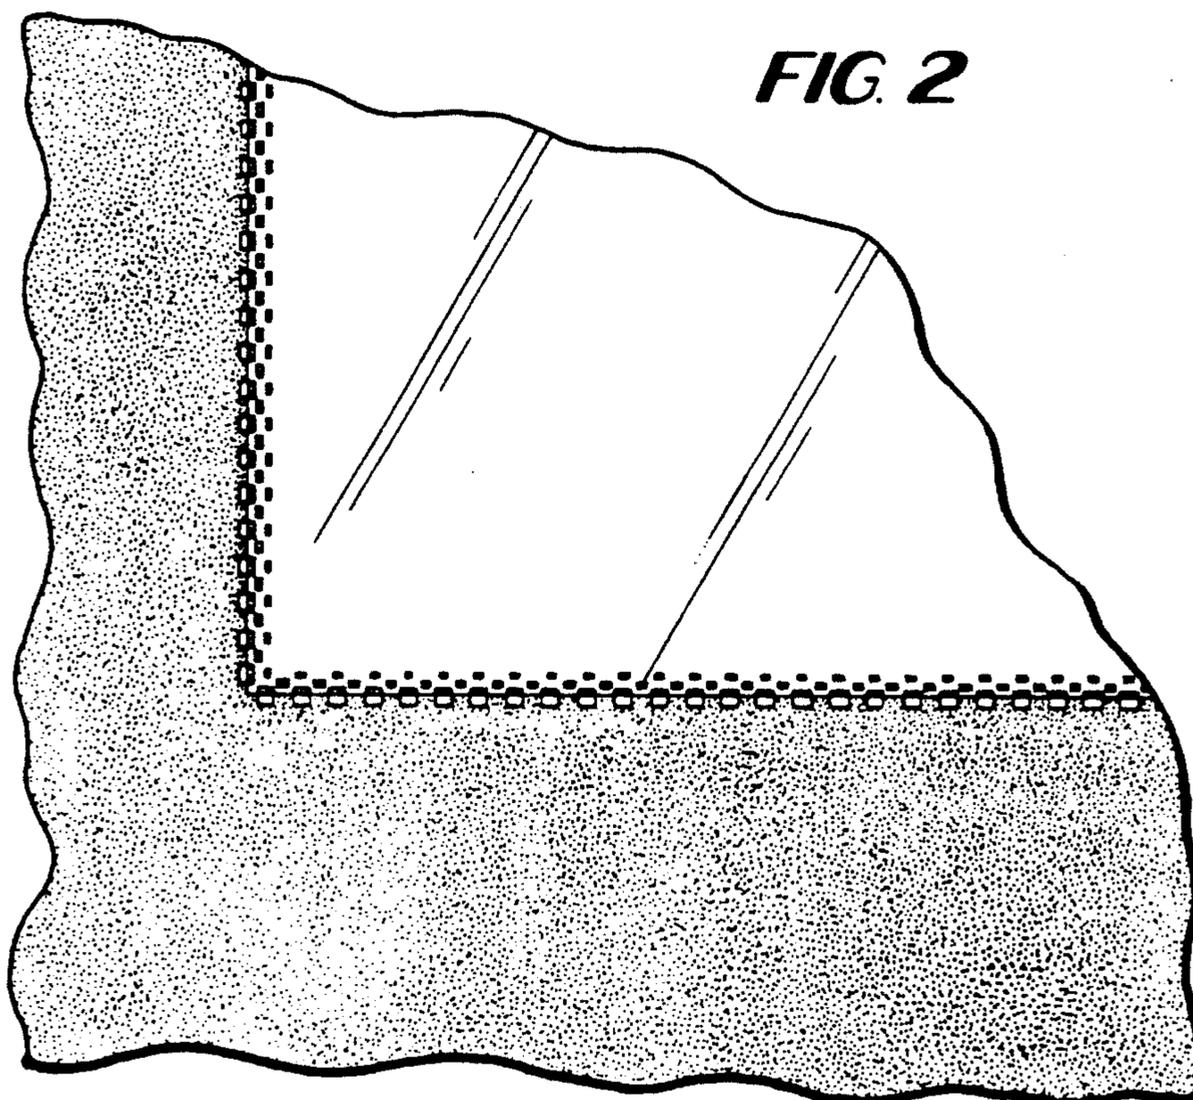

FIG. 3 is a fragmentary enlarged view of the transition pattern of a second embodiment of my new design, it being understood that the complete front elevational view of the second embodiment is identical to FIG. 1. The dashed lines of the drawing figures illustrate environmental cabinet structure for the video conference screen hereof and which cabinet structure forms no part of the present design.

**FIG. 1**

**FIG. 2**

**FIG. 3**
