## [57] CLAIM

The ornamental design for an interlaminar clamp, as shown and described.

## DESCRIPTION

FIG. 1 is a perspective view of a first interlaminar clamp showing my new design;

FIG. 2 is a perspective view of a detail of the interlaminar clamp as shown in FIG. 1, taken from a view 90 degrees from the view of FIG. 1;

FIG. 3 is a left side elevational view of the interlaminar clamp as shown in FIG. 1, the right side thereof being a mirror image of the left side;

FIG. 4 is a top sectional view of the interlaminar clamp as shown in FIG. 1, taken substantially along line 4—4 in FIG. 3, the bottom sectional view taken from a view 180 degrees therefrom being a mirror image of the top sectional view;

FIG. 5 is a top plan view of the interlaminar clamp as shown in FIG. 1;

FIG. 6 is a front elevational view of the interlaminar clamp as shown in FIG. 1;

FIG. 7 is a rear elevational view of the interlaminar clamp as shown in FIG. 1;

FIG. 8 is a bottom plan view of the interlaminar clamp as shown in FIG. 1;

FIG. 9 is a perspective view of a second interlaminar clamp showing my new design;

FIG. 10 is a perspective view of a detail of the interlaminar clamp as shown in FIG. 9, taken from a view 90 degrees from the view of FIG. 9;

FIG. 11 is a left side elevational view of the interlaminar clamp as shown in FIG. 9, the right side thereof being a mirror image of the left side;

FIG. 12 is a top sectional view of the interlaminar clamp as shown in FIG. 9, taken substantially along line 12—12 in FIG. 11, the bottom sectional view taken from a view 180 degrees therefrom being a mirror image of the top sectional view;

FIG. 13 is a top plan view of the interlaminar clamp as shown in FIG. 9;

FIG. 14 is a front elevational view of the interlaminar clamp as shown in FIG. 9;

FIG. 15 is a rear elevational view of the interlaminar clamp as shown in FIG. 9;

FIG. 16 is a bottom plan view of the interlaminar clamp as shown in FIG. 9;

FIG. 17 is a perspective view of a third interlaminar clamp showing my new design;

FIG. 18 is a perspective view of a detail of the interlaminar clamp as shown in FIG. 17, taken from a view 90 degrees from the view of FIG. 17;

FIG. 19 is a left side elevational view of the interlaminar clamp as shown in FIG. 17, the right side thereof being a mirror image of the left side;

FIG. 20 is a top sectional view of the interlaminar clamp as shown in FIG. 17, taken substantially along line 20—20 in FIG. 19, the bottom sectional view taken from a view 180 degrees therefrom being a mirror image of the top sectional view;

FIG. 21 is a top plan view of the interlaminar clamp as shown in FIG. 17;

FIG. 22 is a front elevational view of the interlaminar clamp as shown in FIG. 17;

FIG. 23 is a rear elevational view of the interlaminar clamp as shown in FIG. 17; and,

FIG. 24 is a bottom plan view of the interlaminar clamp as shown in FIG. 17.
