[57] CLAIM

The ornamental design for a spring loaded locking buckle, as shown and described.

DESCRIPTION

FIG. 1 is an exploded perspective view of a spring loaded locking buckle showing my new design;

FIG. 2 is a top plan view of a male portion thereof;

FIG. 3 is a front elevation of the male portion thereof;

FIG. 4 is a rear elevation of the male portion thereof;

FIG. 5 is a left side elevation of the male portion thereof; the right side elevation of the male portion being a mirror image thereof;

FIG. 6 is a bottom plan view of the male portion thereof;

FIG. 7 is a top plan view of a female portion thereof;

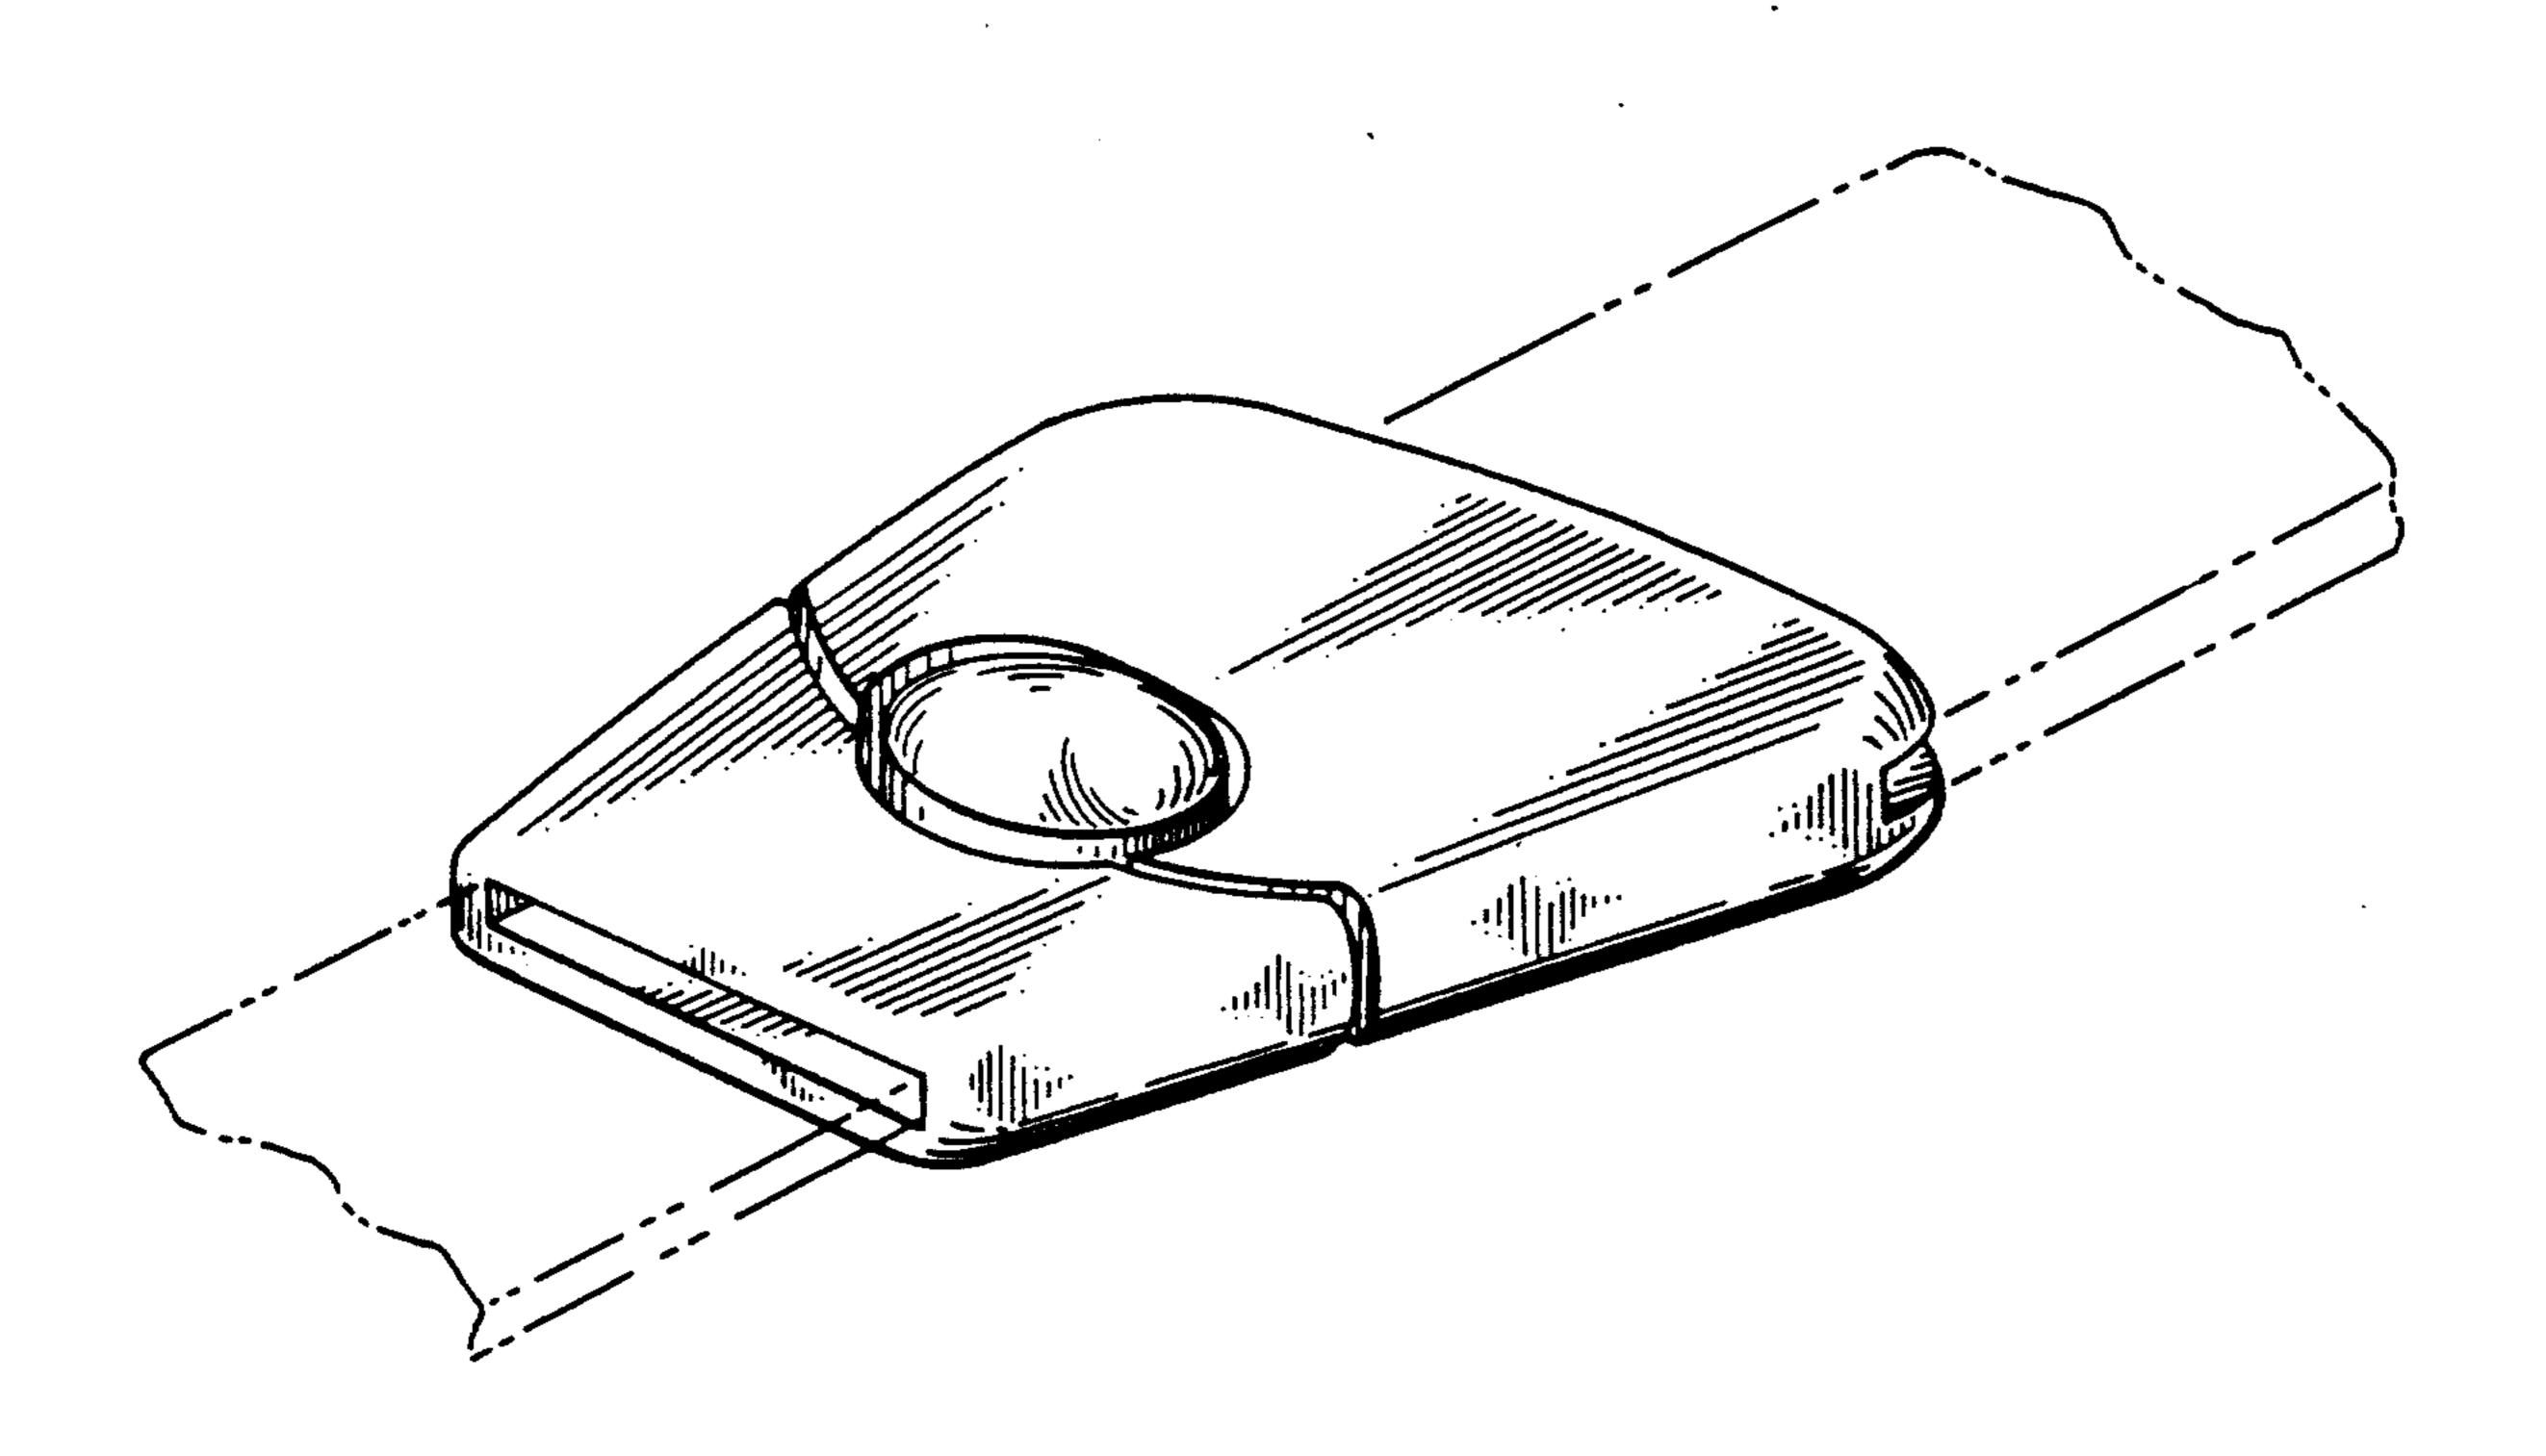

FIG. 8 is a front elevation of the female portion thereof;

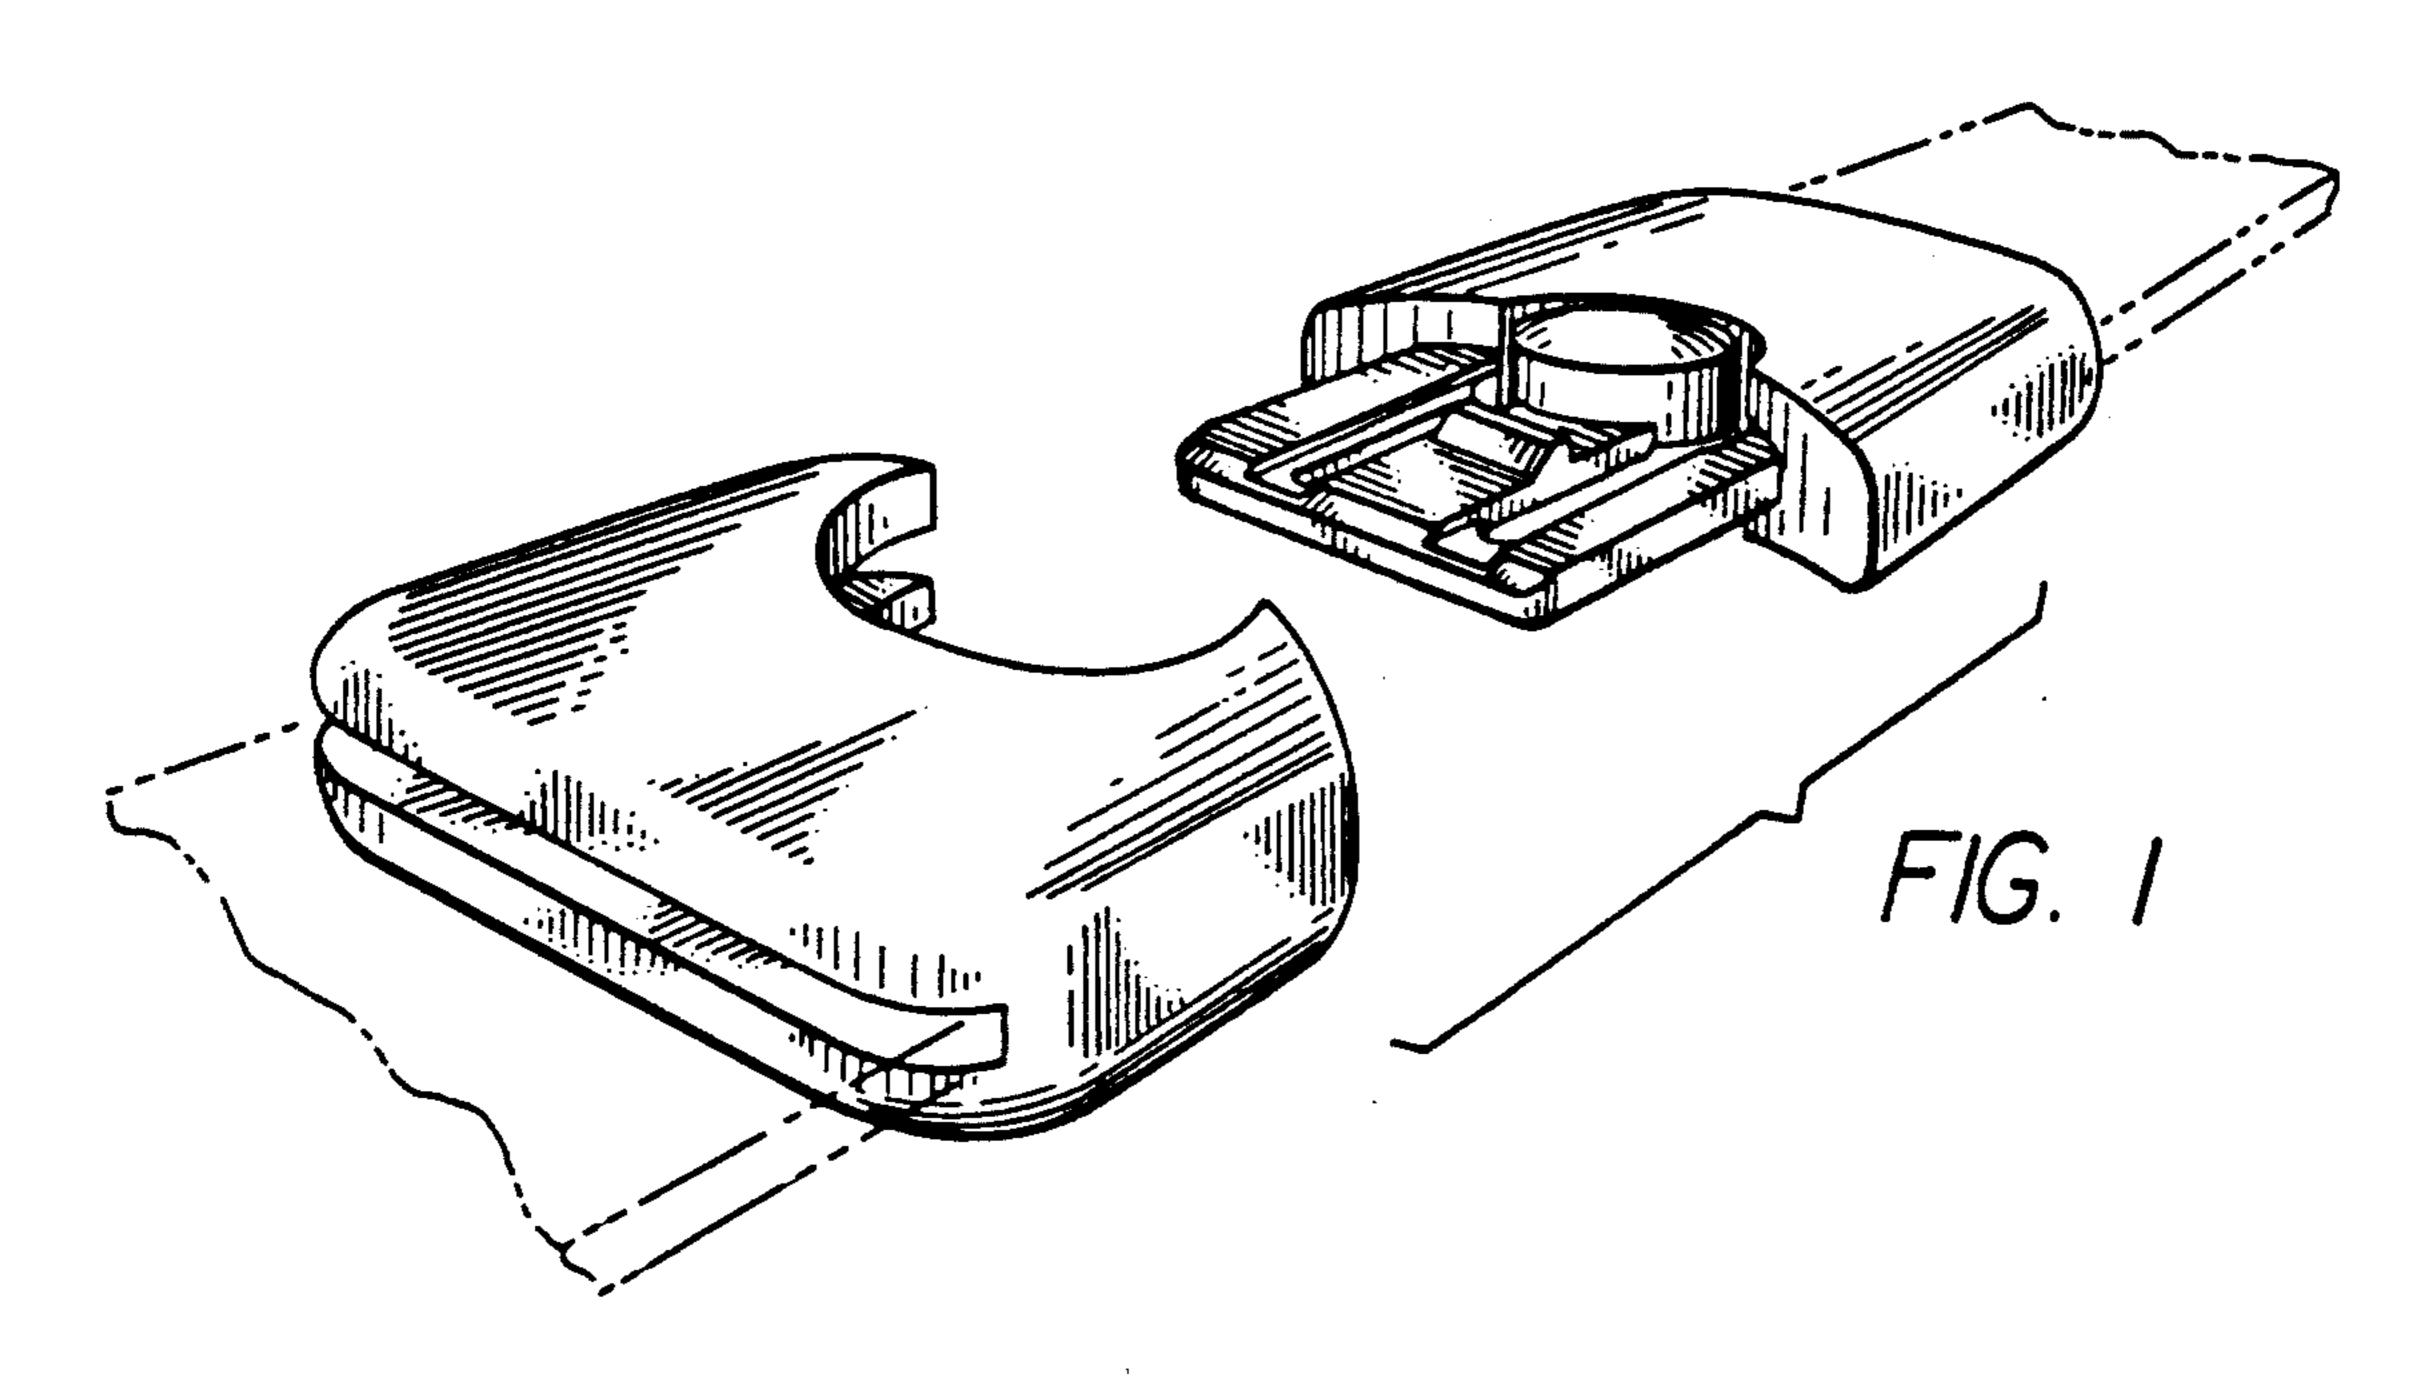

FIG. 9 is a rear elevation of the female portion thereof; FIG. 10 is a left side elevation of the female portion thereof; the right side elevation of the female portion being a mirror image thereof;

FIG. 11 is a bottom plan view of the female portion thereof; and,

FIG. 12 is an assembled perspective view of the spring loaded locking buckle.

The broken line showing of partial straps in FIGS. 1 and 12 is for illustrative purposes only and forms no part of the claimed design.
