### [57] CLAIM

The ornamental design for a combined wire management channel and end cap therefor, as shown and described.

### DESCRIPTION

FIG. 1 is a perspective view of a combined wire management channel and end cap therefor which embodies my design with broken lines showing a panel structure which is included for illustrative purposes only and forms no part of the claimed design;

FIG. 2 is a left side elevational view thereof;

FIG. 3 is a front elevational view thereof, the rear elevational view being a mirror image thereof;

FIG. 4 is a plan view thereof;

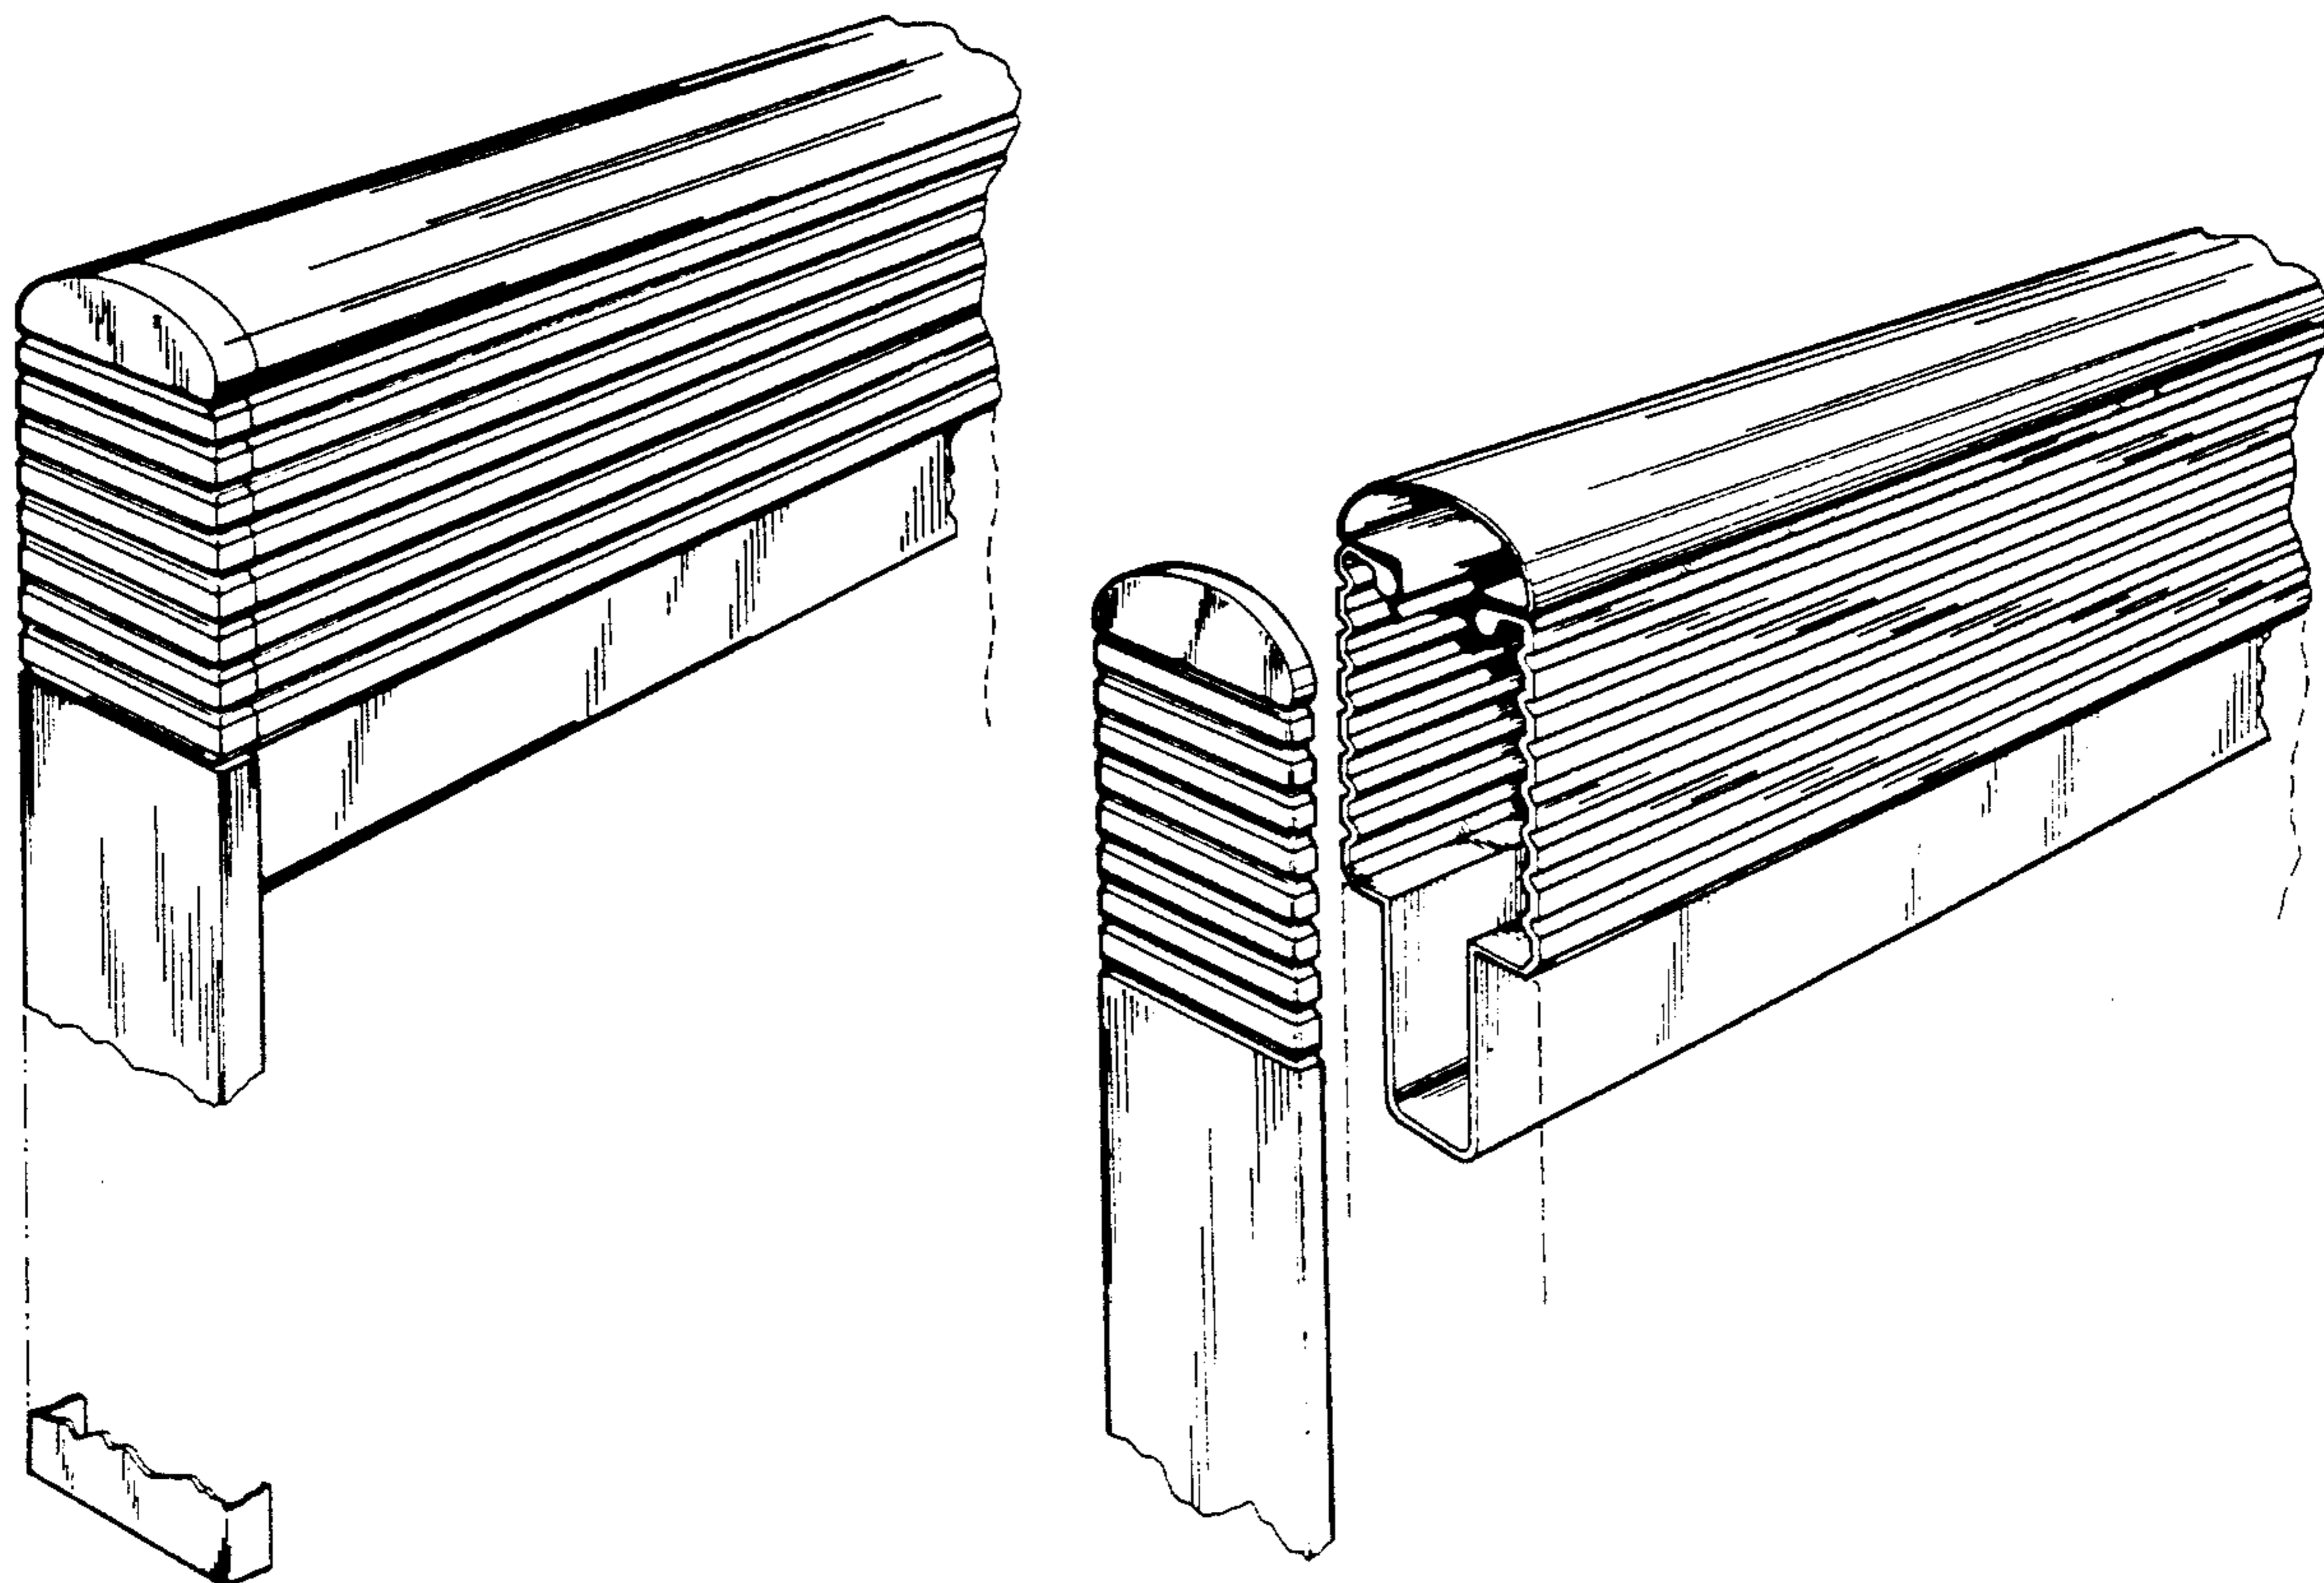

FIG. 5 is a bottom view thereof;

FIG. 6 is a perspective, assembly view of the wire management channel and end cap therefor of my design showing the end cap removed from the wire management channel; and,

FIG. 7 is a perspective, assembly view of the wire management channel and end cap therefor of my design, opposite the view of FIG. 6, showing the end cap removed from the wire management channel.

The claimed article is shown broken-away in FIGS. 1, 3-7 to indicate indeterminate length.

The appearance of the undisclosed end of the channel is identical to the end disclosed in FIG. 1.
