## [57] CLAIM

The ornamental design for a light projector, as shown and described.

## DESCRIPTION

FIG. 1 is a front top perspective view of a light projector showing our new design;

FIG. 2 is a top plan view thereof;

FIG. 3 is a left side elevational view thereof;

FIG. 4 is a right side elevational view thereof;

FIG. 5 is a bottom plan view thereof;

FIG. 6 is an enlarged rear elevational view thereof;

FIG. 7 is an enlarged front elevational view thereof;

FIG. 8 is a top plan view of a second embodiment of a light projector showing our new design, the rear and front elevational views thereof being the same as FIGS. 6 and 7;

FIG. 9 is a left side elevational view thereof;

FIG. 10 is a right side elevational view thereof;

FIG. 11 is a bottom plan view thereof;

FIG. 12 is a left side elevational view of a third embodiment of a light projector showing our new design, the top plan view thereof being the same as FIG. 2;

FIG. 13 is a right side elevational view thereof;

FIG. 14 is a bottom plan view thereof;

FIG. 15 is a slightly enlarged rear elevational view thereof;

FIG. 16 is a slightly enlarged front elevational view thereof;

FIG. 17 is a left side elevational view of a fourth embodiment of a light projector showing our new design, the top plan view thereof being the same as FIG. 8 and the rear and front elevational views thereof being the same as FIGS. 15 and 16;

FIG. 18 is a right side elevational view thereof; and,

FIG. 19 is a bottom plan view thereof.

The broken line representation of a mounting base in FIG. 1 forms no part of the present design and is shown for the purpose of illustration only.
