CLAIM

The ornamental design for telephone housing, as shown and described.

DESCRIPTION

FIG. 1 is a top perspective view of the telephone housing, showing the handset and base unit combined;

FIG. 2 is a perspective view thereof, showing the handset apart from the base unit and in the open configuration;

FIG. 3 is a front elevation of the combined handset and base unit;

FIG. 4 is a rear elevation of the combined handset and base unit;

FIG. 5 is a top plan view of the combined handset and base unit;

FIG. 6 is a right side elevation of the combined handset and base unit;

FIG. 7 is a left side elevation of the combined handset and base unit;

FIG. 8 is a bottom view of the combined handset and base unit;

FIG. 9 is a right side elevation of the closed handset;

FIG. 10 is a left side elevation of the closed handset;

FIG. 11 is a left side elevation of the open handset;

FIG. 12 is a bottom plan view of the closed handset;

FIG. 13 is a bottom plan view of the open handset;

FIG. 14 is a top plan view of the base unit;

FIG. 15 is a right side elevation of the base unit;

FIG. 16 is a left side elevation of the base unit;

FIG. 17 is a front elevation of the base unit;

FIG. 18 is a rear elevation of the base unit;

FIG. 19 is a front elevation of the closed handset;

FIG. 20 is a rear elevation of the closed handset;

FIG. 21 is a front elevation of the open handset;

FIG. 22 is a rear elevation of the open handset;

FIG. 23 is a bottom view of the base unit;

FIG. 24 is a top perspective view of an alternative embodiment of the telephone housing, showing the handset and base unit combined;

FIG. 25 is a perspective view thereof, showing the handset apart from the base unit and in the open configuration;

(Description continued on next page.)

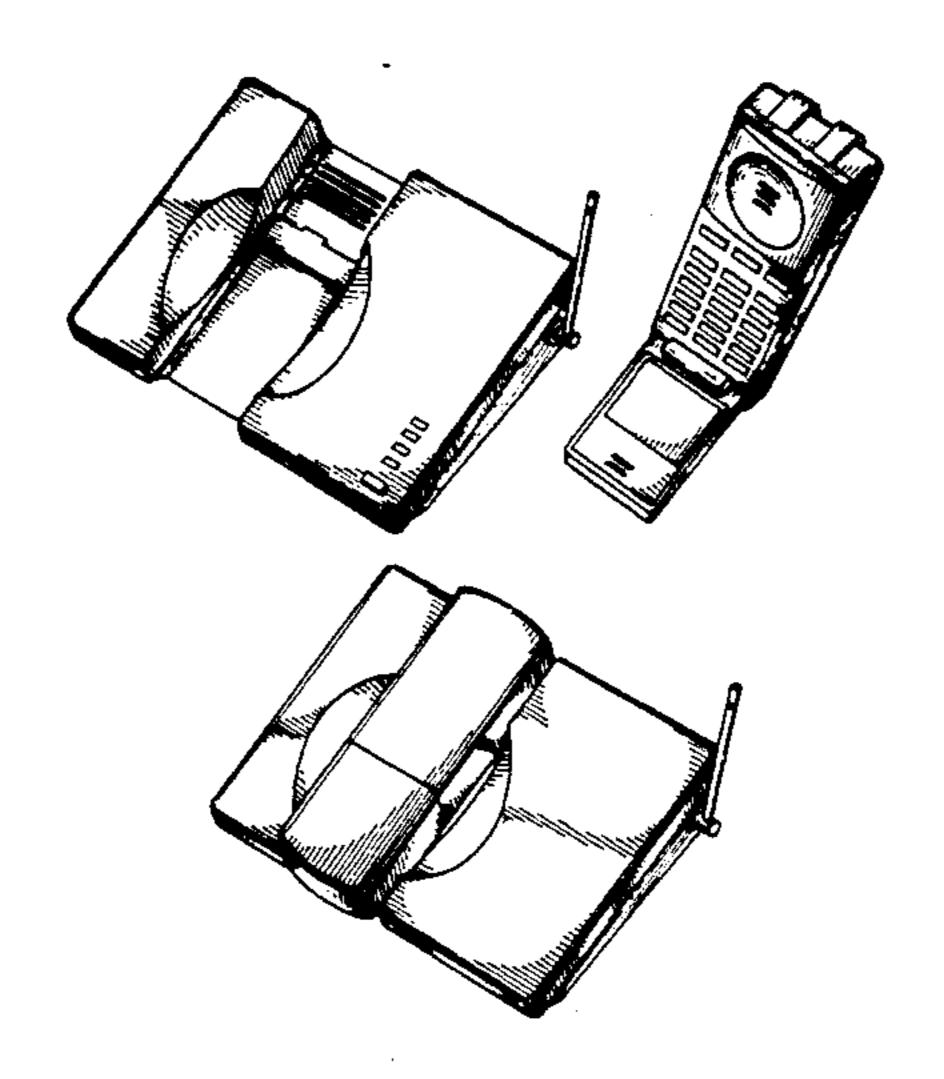

FIG. 26 is a front elevation of the combined handset and base unit;

FIG. 27 is a rear elevation of the combined handset and base unit;

FIG. 28 is a top plan view of the combined handset and base unit;

FIg. 29 is a right side elevation of the combined handset and base unit;

FIG. 30 is a left side elevation of the combined handset and base unit;

FIG. 31 is a bottom view of the combined handset and base unit;

FIG. 32 is a right side elevation of the closed handset;

FIG. 33 is a left side elevation of the closed handset;

FIG. 34 is a left side elevation of the open handset;

FIG. 35 is a bottom plan view of the closed handset;

FIG. 36 is a bottom plan view of the open handset;

FIG. 37 is a top plan view of the base unit;

FIG. 38 is a right side elevation of the base unit;

FIG. 39 is a left side elevation of the base unit;

FIG. 40 is a front elevation of the base unit;

FIG. 41 is a rear elevation of the base unit;

FIG. 42 is a front elevation of the closed handset;

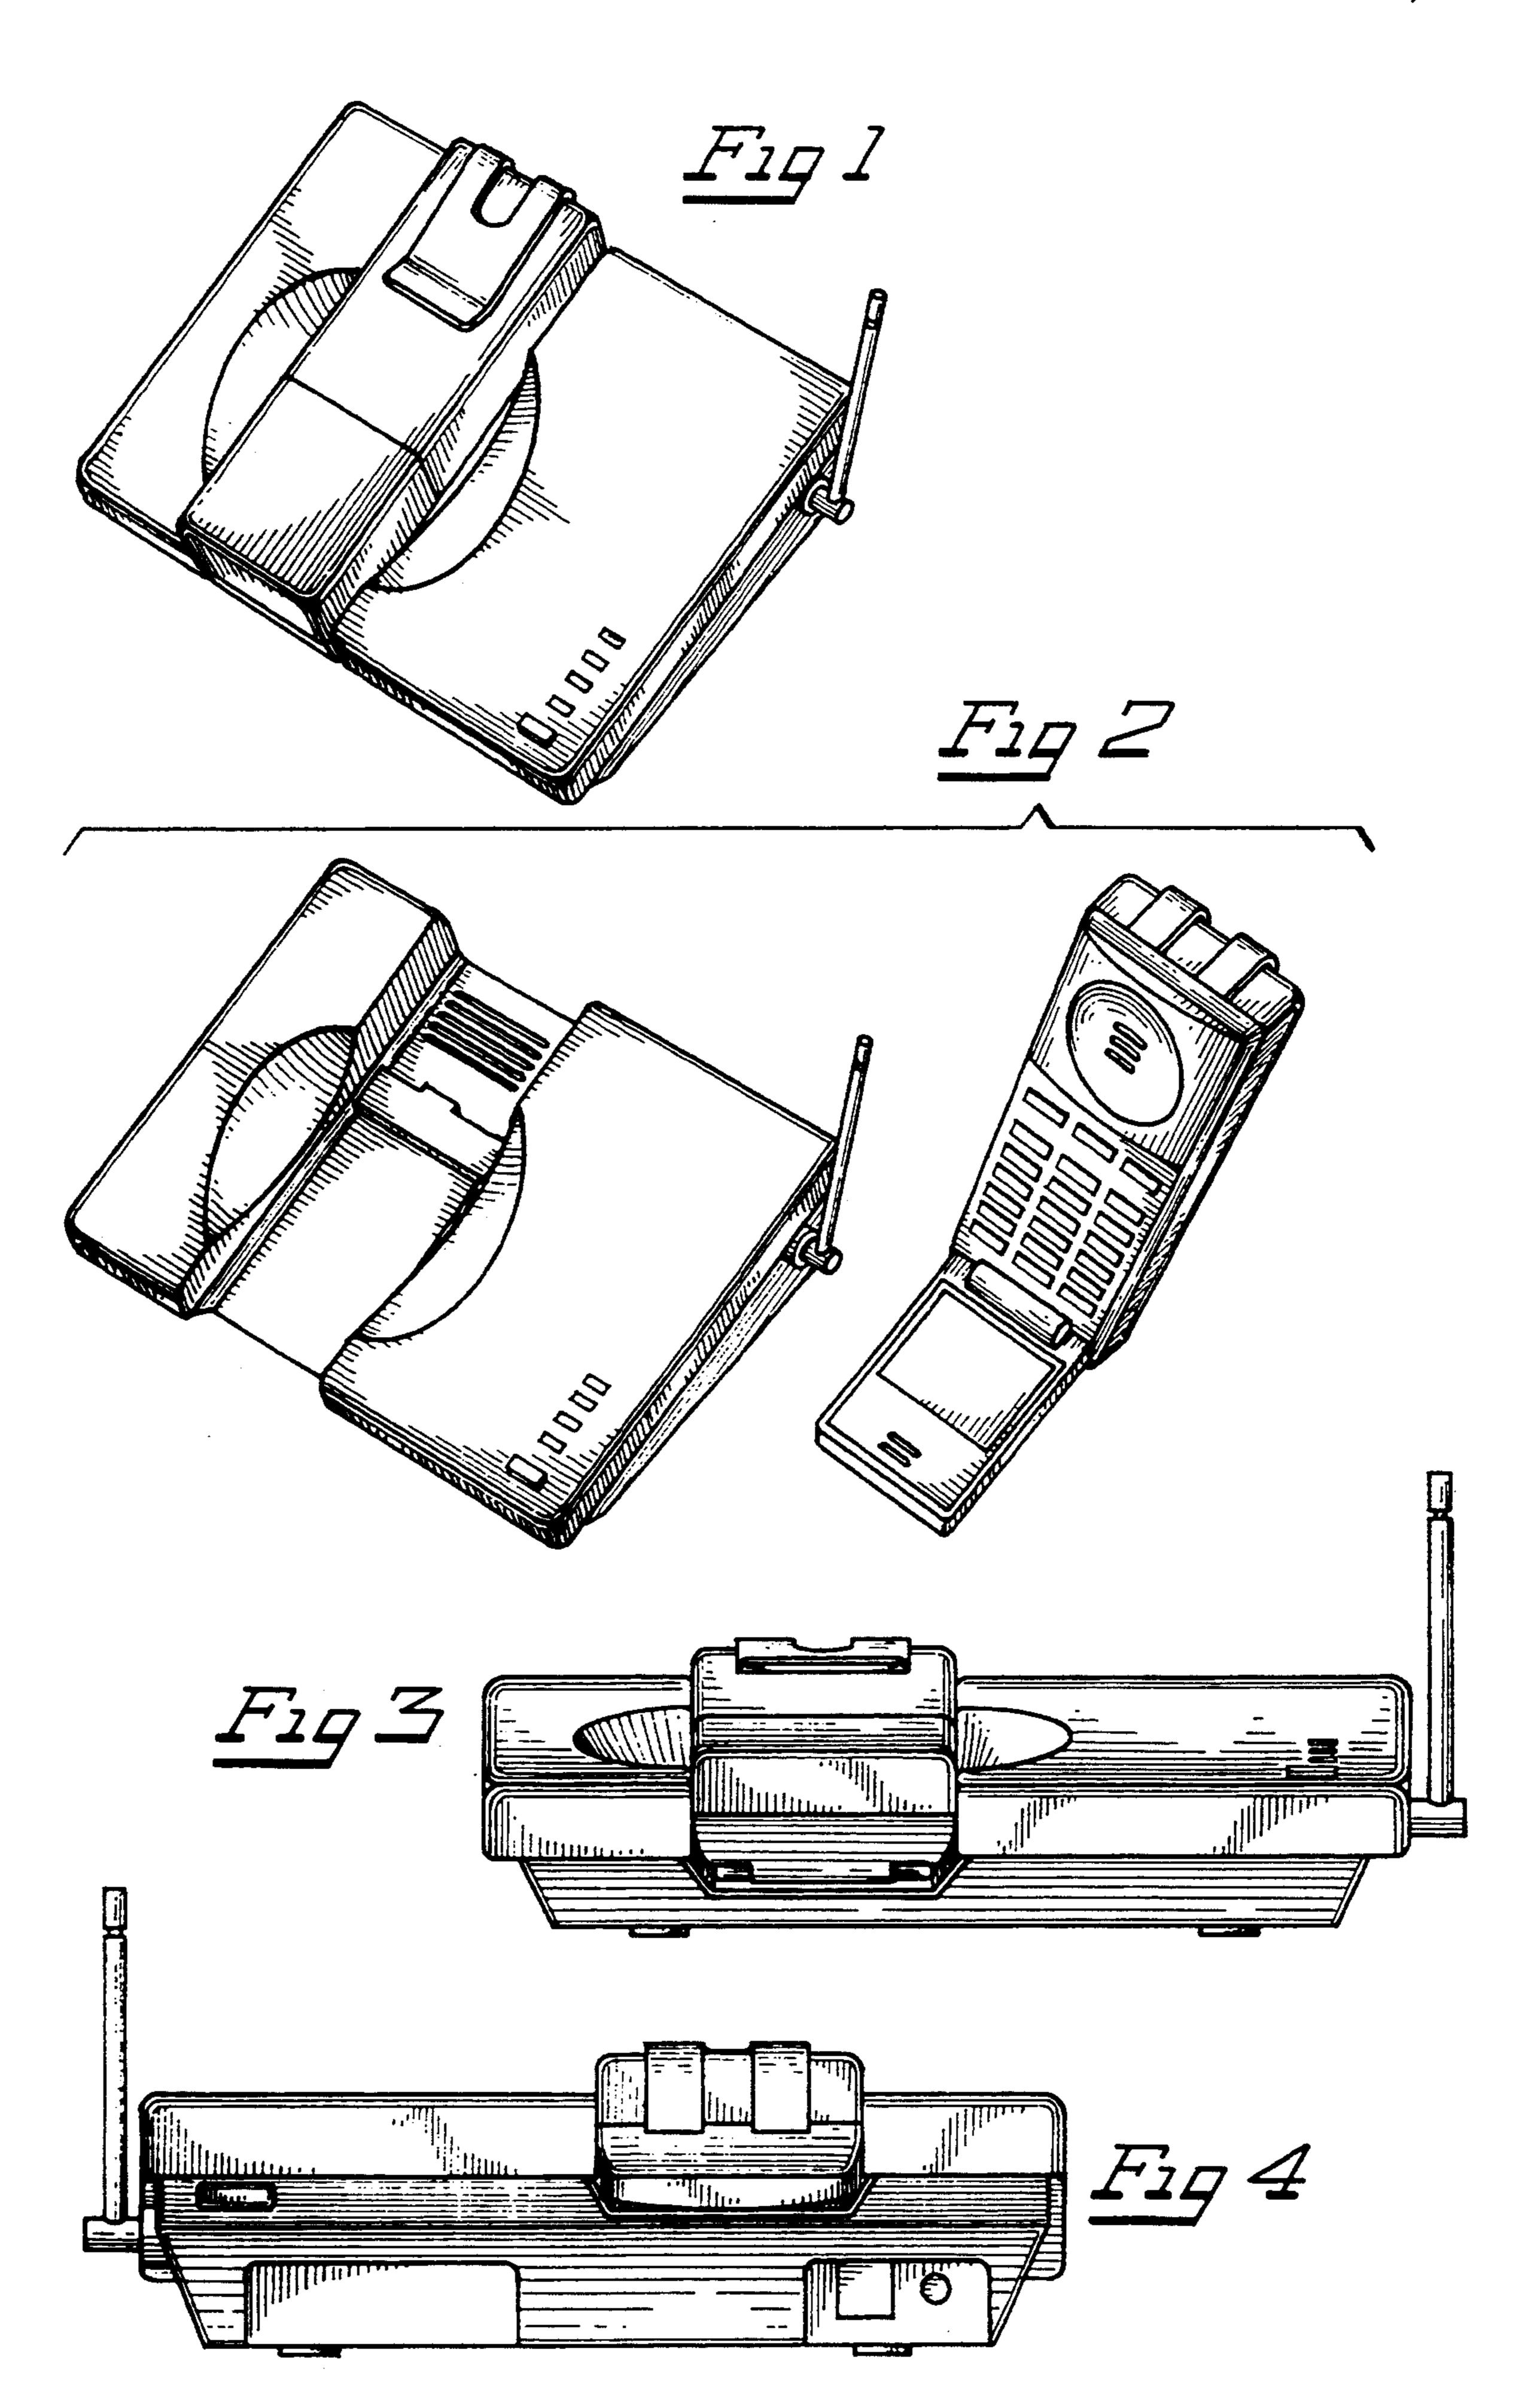

FIG. 43 is a rear elevation of the closed handset;

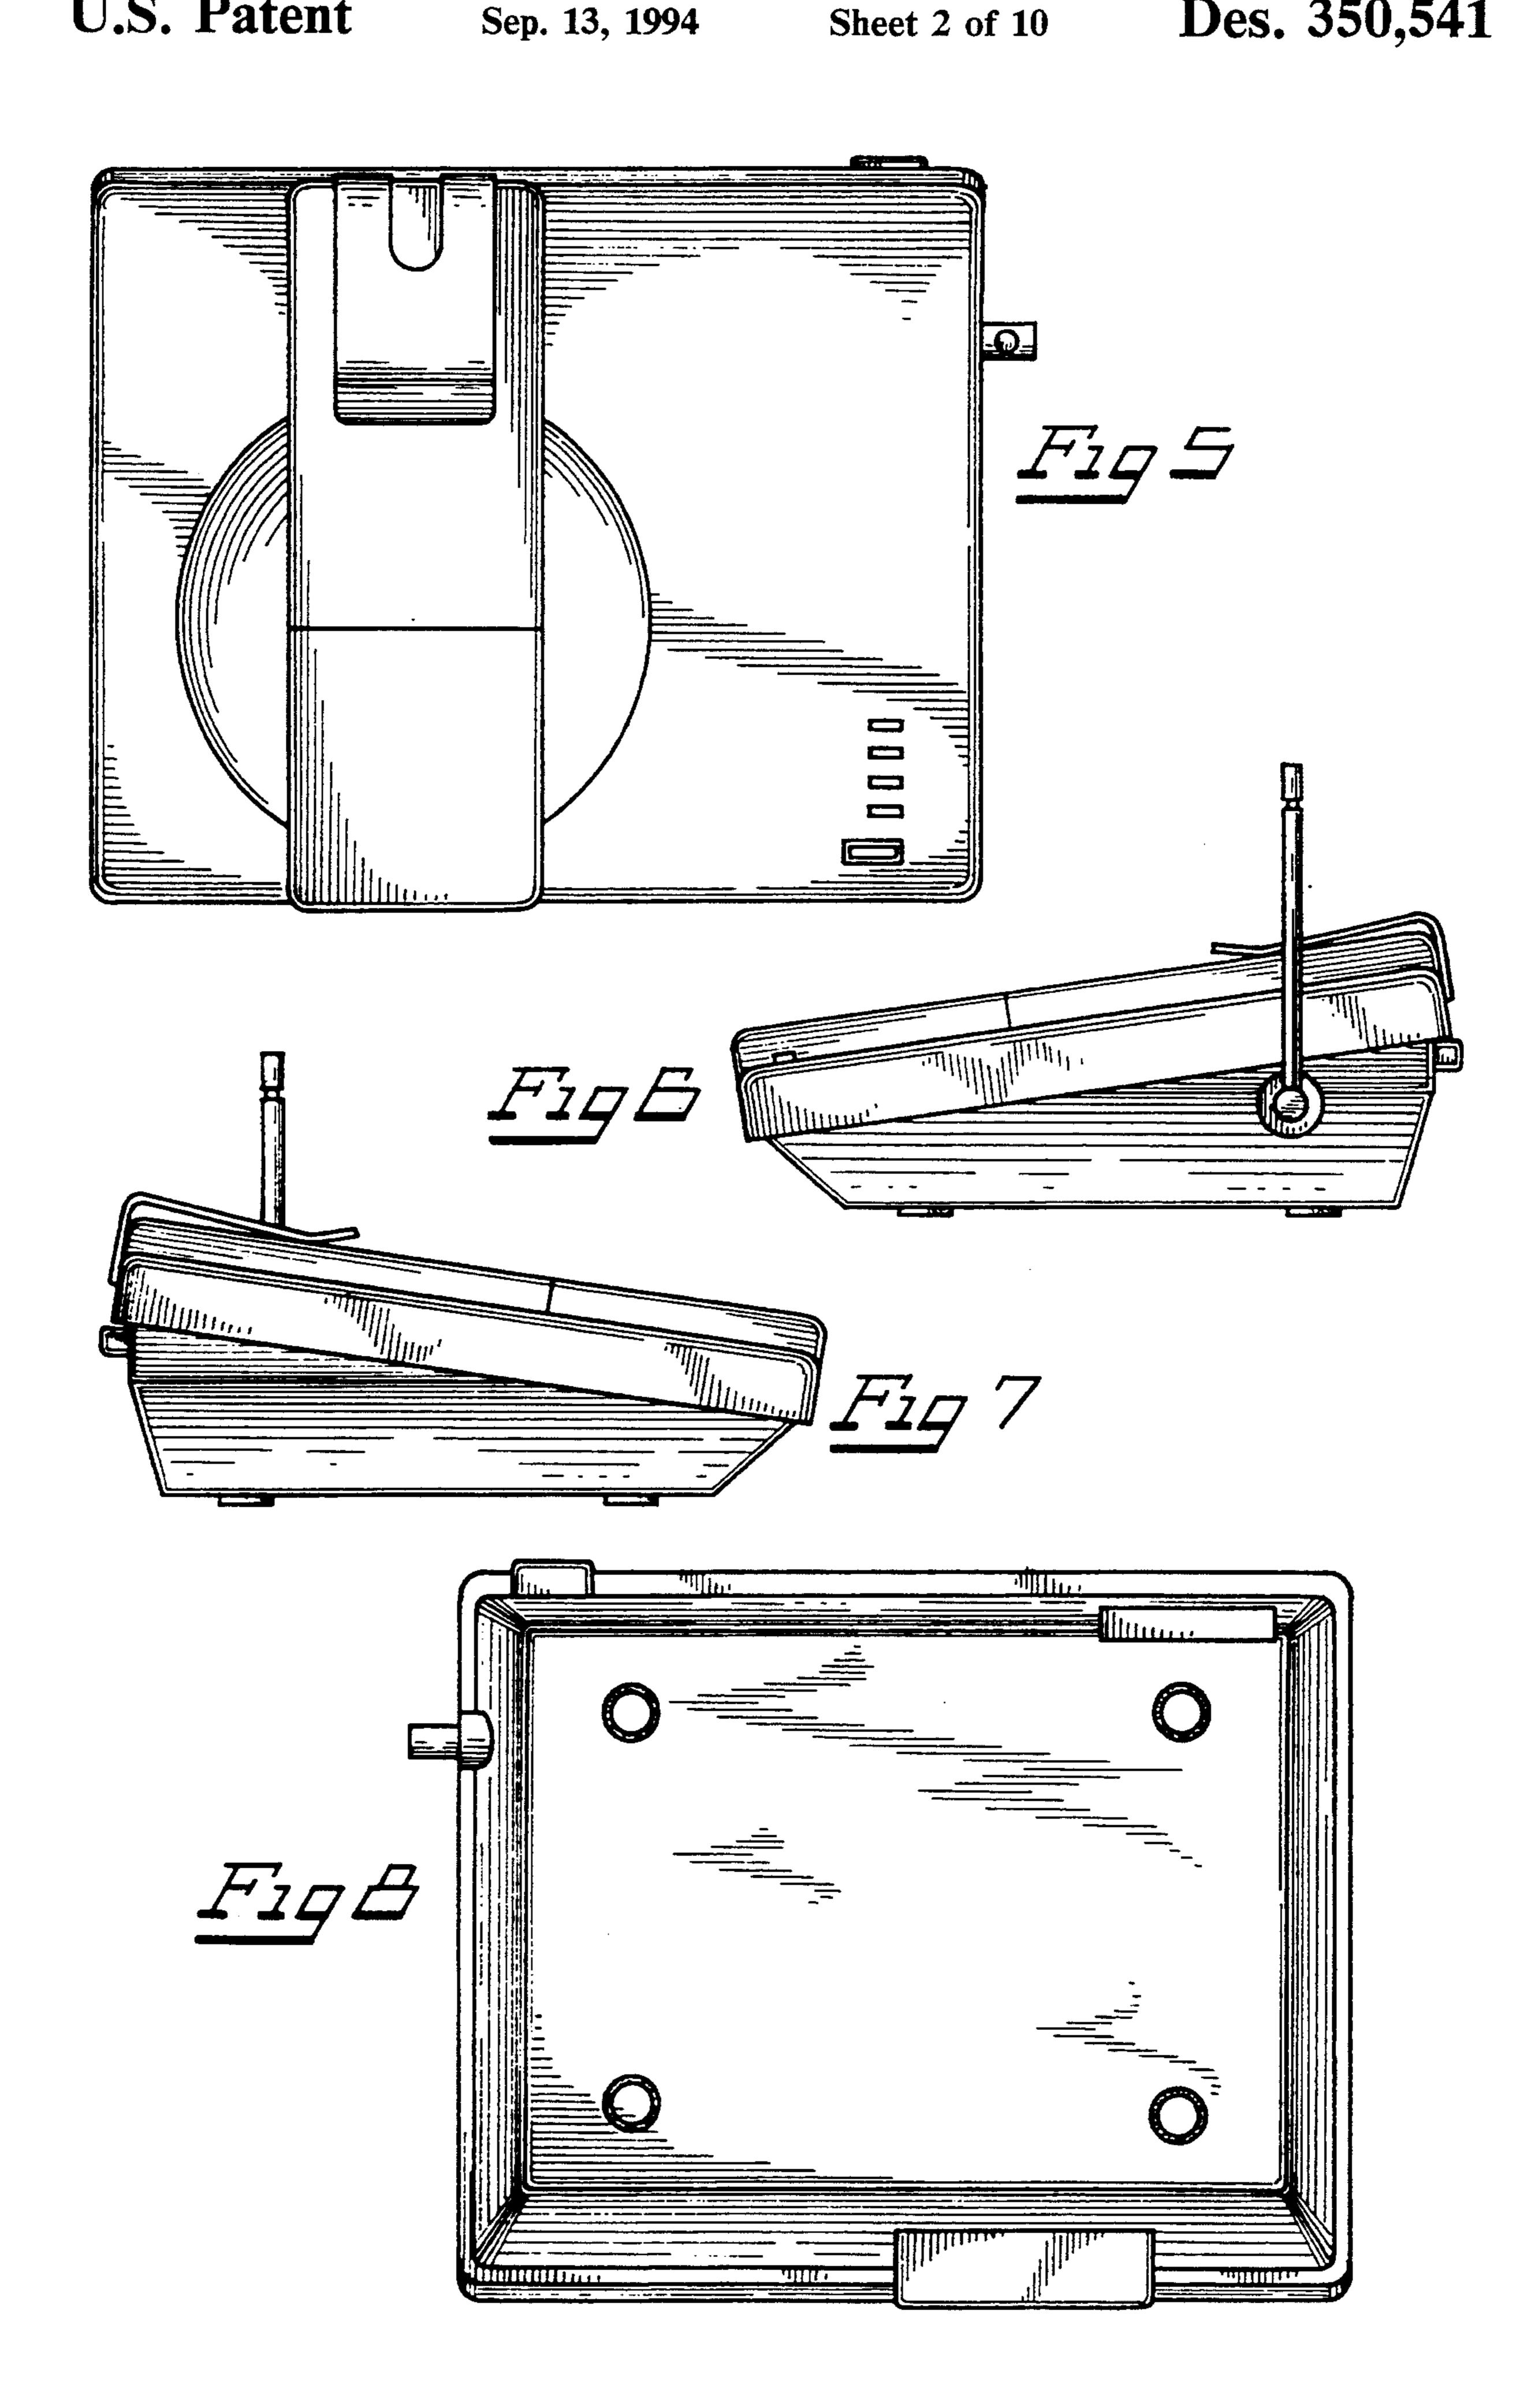

FIG. 44 is a front elevation of the open handset;

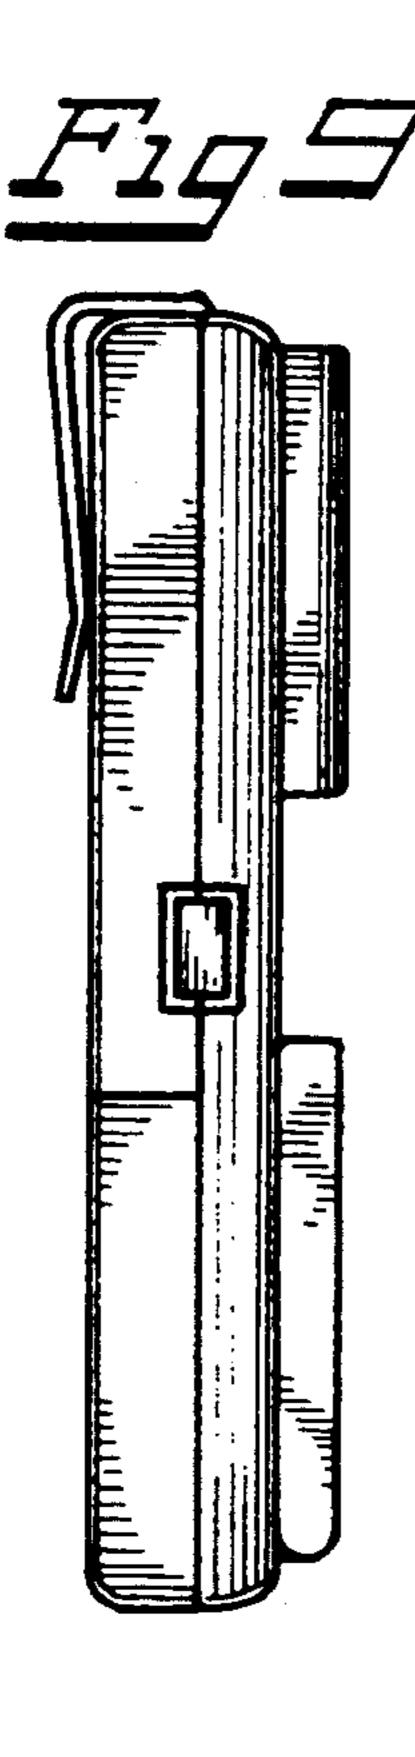

FIG. 45 is a rear elevation of the open handset; and, FIG. 46 is a bottom view of the base unit thereof.

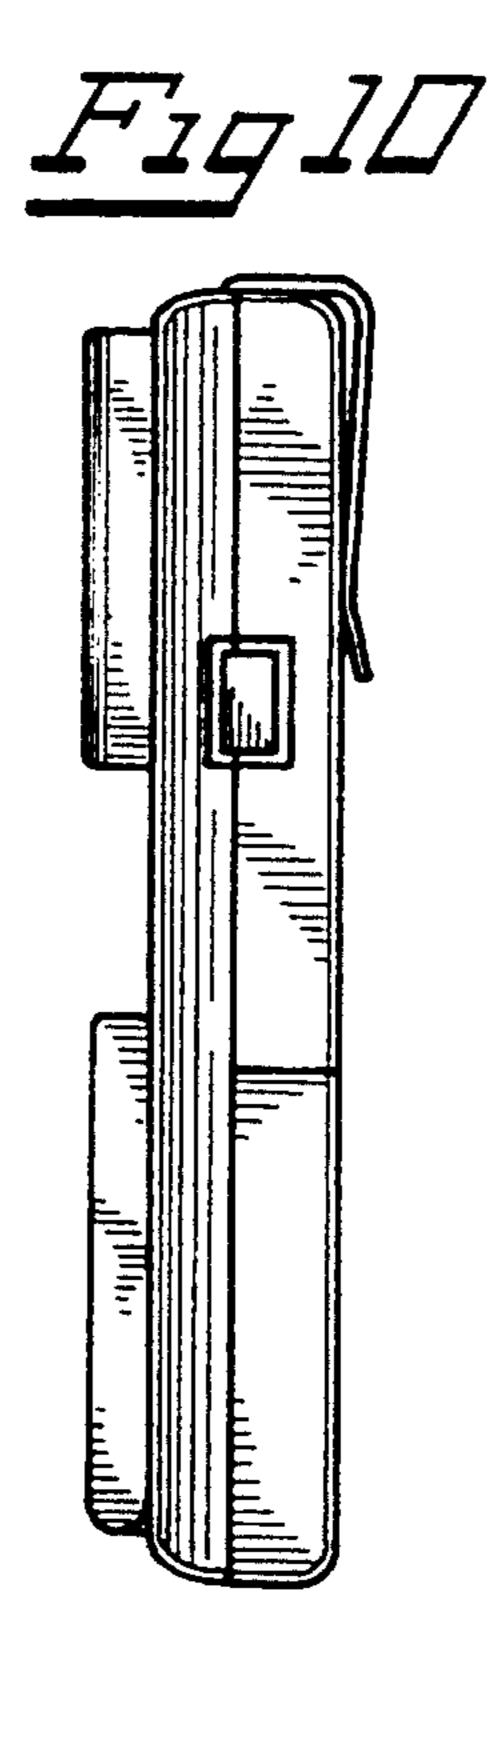

The handset has been shown separately in FIGS. 9-13,

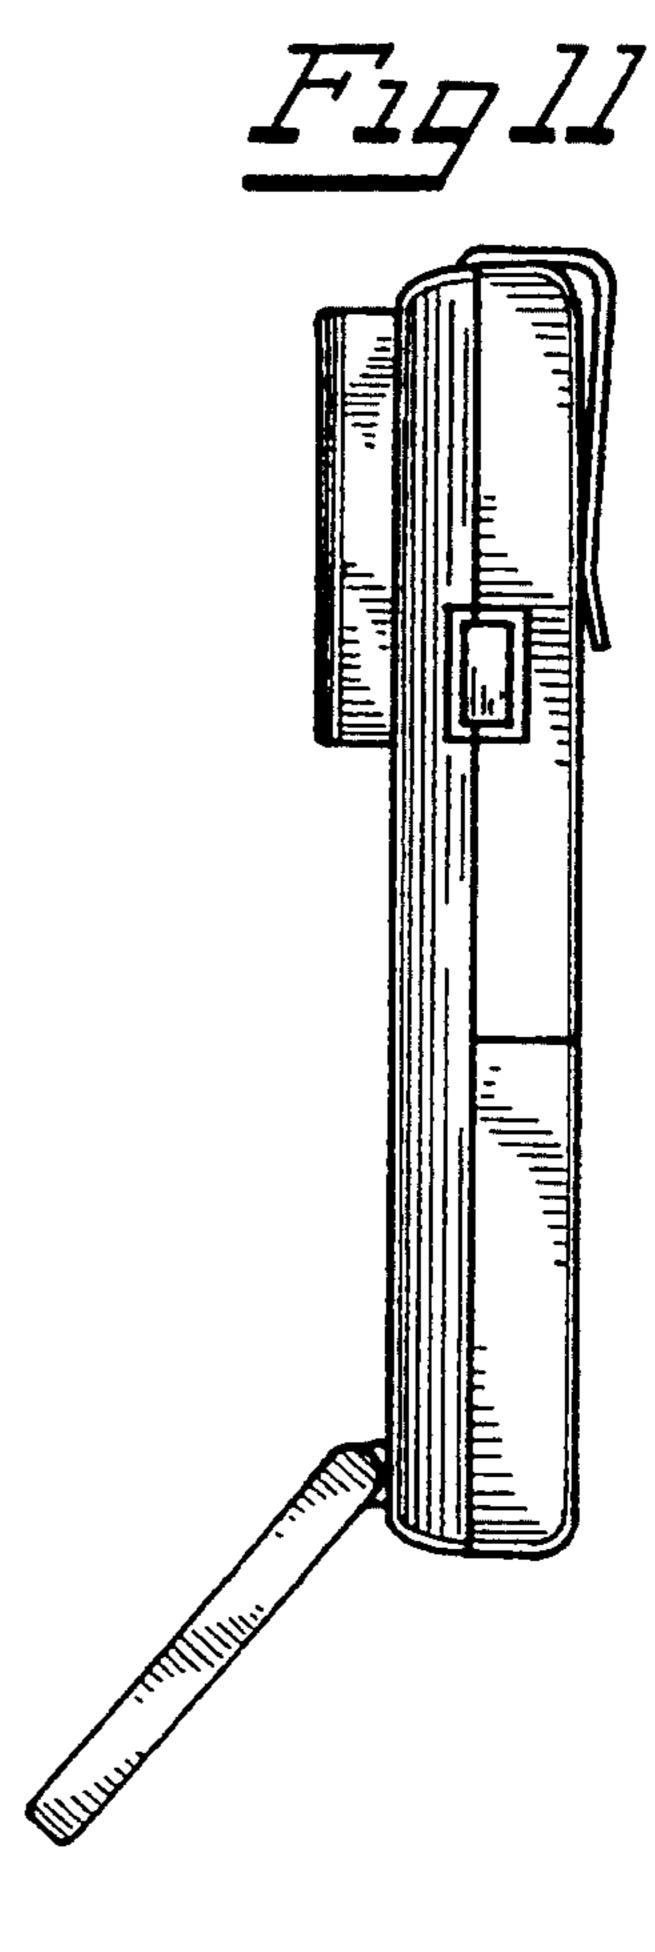

19-22, 32-36 and 42-45 and the base unit has been shown separately in FIGS. 14-18, 23, 37-41 and 46 both for convenience of illustration.
