FIG. 1 is a perspective view of the bracelet according to my invention;

FIG. 2 is a top plan view of the bracelet;

FIG. 3 is a bottom plan view;

FIG. 4 is a left side view, the right side being symmetrical; and,

FIG. 5 is an end view.

FIGS. 1 through 4 are fragmented views with the remainder of the bracelet being omitted for ease of illustration, it being understood that the broken lines indicate the chain continues uniformly for an indeterminate length.
