[57] **CLAIM**

The ornamental design for a darkfield loupe, as shown and described.

DESCRIPTION

FIG. 1 is a perspective view of a darkfield loupe in accordance with the present invention;
 FIG. 2 is a first side view of a darkfield loupe in accordance with the present invention. As the darkfield loupe of the present invention is round and symmetrical, and because the second side view merely comprises a mirror image of the first side view, a second side view is not provided;
 FIG. 3 is a front view of a darkfield loupe in accordance with the present invention;
 FIG. 4 is a back view of a darkfield loupe in accordance with the present invention;
 FIG. 5 is a top view of a darkfield loupe in accordance with the present invention; and,
 FIG. 6 is a bottom view of a darkfield loupe in accordance with the present invention.
 The broken line showing of environment in FIG. 1 is for illustrative purposes only and forms no part of the claimed design.
