[57] **CLAIM**

The ornamental design for a work zone light for medical purposes, as shown and described.

DESCRIPTION

FIG. 1 is a perspective view taken from the lower front of the work zone light for medical purposes according to the present design;

FIG. 2 is a front view of the work zone light for medical purposes of the present invention, with the light being pivoted to a position for the beam to extend substantially in a horizontal direction;

FIG. 3 is a top plan view of the light in the position illustrated in FIG. 2;

FIG. 4 is a side view of the light in the position illustrated in FIG. 2;

FIG. 5 is a back elevational view of the light in the position illustrated in FIG. 2;

FIG. 6 is a bottom plan view of the light in the position illustrated in FIG. 2; and,

FIG. 7 is a side view similar to FIG. 4, with the light tilted downward from the position illustrated in FIG. 2.

FIG 1

FIG 2
