FIG. 1 is a perspective view of the display holder, shown in an upright position, and taken from above and towards the top, one side and rear edge, with the broken line showing for illustrative purposes only and forming no part of the claimed design;

FIG. 2 is a rear edge elevational view of the display holder shown in FIG. 1;

FIG. 3 is a front edge elevational view of the display holder shown in FIGS. 1 and 2;

FIG. 4 is a first side elevational view of the display holder shown in FIGS. 1-3;

FIG. 5 is a second side elevational view of the display holder shown in FIGS. 1-4;

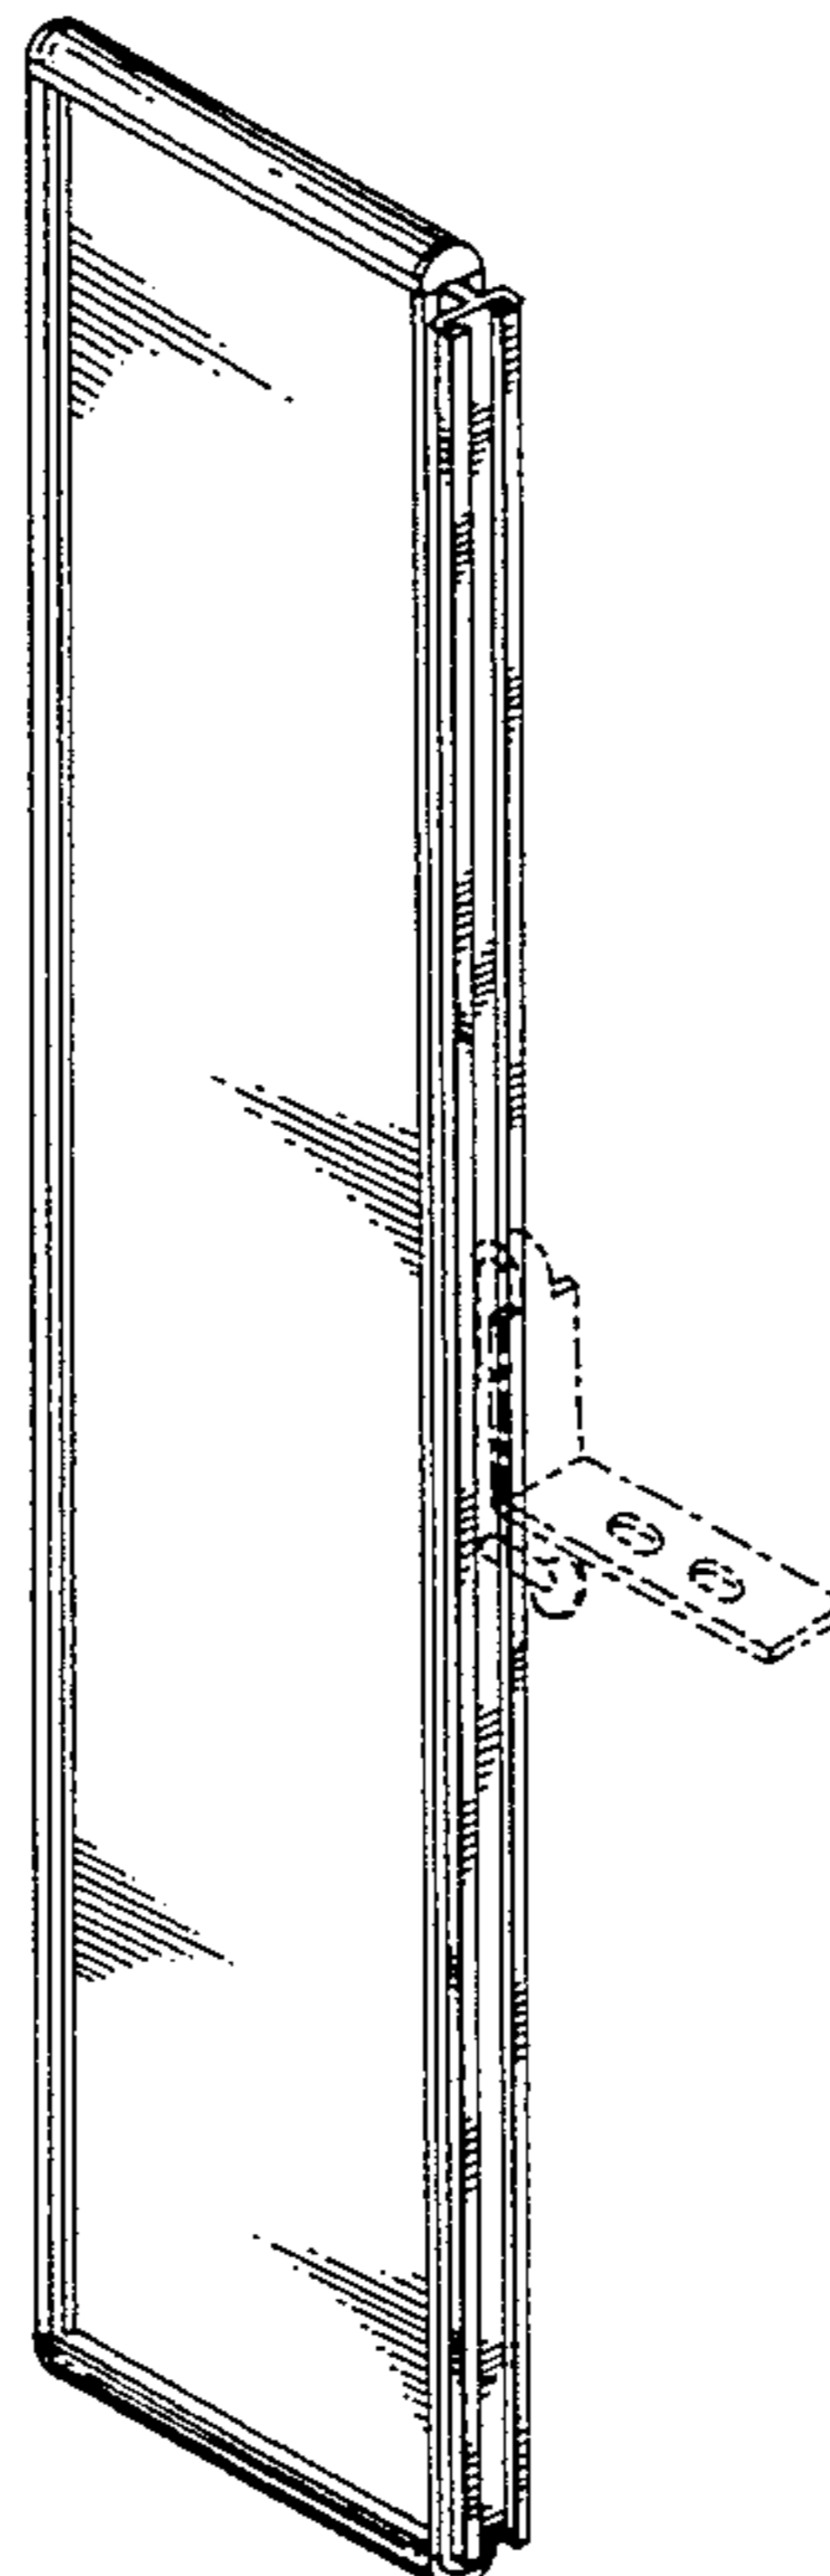

FIG. 6 is a top plan view of the display holder shown in FIGS. 1-5;

FIG. 7 is a bottom plan view of the display holder shown by FIGS. 1-6;

FIG. 8 is an enlarged scale sectional view taken substantially along line 8-8 of FIG. 4;

FIG. 9 is a vertical sectional view taken substantially along line 9-9 of FIG. 4; and,

FIG. 10 is a vertical sectional view taken substantially along line 10-10 of FIG. 4.
