[57] **CLAIM**

The ornamental design for a telephone handset and cradle unit, as shown and described.

**DESCRIPTION**

FIG. 1 is a side elevational view of a telephone handset and cradle unit showing our new design; FIG. 2 is a side elevational view of an alternate configuration of that shown in FIG. 1; FIG. 3 is a top plan view of the handset, same having been removed from the cradle for convenience of illustration; FIG. 4 is a side elevational view; FIG. 5 is a bottom plan view; FIG. 6 is a front elevational view; FIG. 7 is a rear elevational view; FIG. 8 is a top plan view of the cradle of the first configuration, same being shown without the handset for convenience of illustration; FIG. 9 is a side elevational view, the opposite side being a mirror image thereof; FIG. 10 is a bottom plan view; FIG. 11 is a rear elevational view of the cradle of the second configuration; FIG. 12 is a front elevational view; FIG. 13 is a top plan view thereof; and, FIG. 14 is a perspective view of the telephone handset and cradle unit in the configuration of FIG. 1. In the second configuration the receptacle portion of the cradle has been rotated to an alternate position for use.
