[57] **CLAIM**

The ornamental design for a disposable resuscitator having a unidirectional valve, as shown and described.

DESCRIPTION

FIG. 1 is a top perspective view of a first embodiment of the disposable resuscitator having a unidirectional valve of the present invention showing my new design; FIG. 2 is a bottom perspective view thereof;

FIG. 3 is a bottom plan view thereof;

FIG. 4 is a top perspective view of a second embodiment of the disposable resuscitator device having a unidirectional valve of the present invention showing my new design;

FIG. 5 is a bottom perspective view thereof;

FIG. 6 is a bottom plan view thereof;

FIG. 7 is a side elevational view of the first embodiment of the disposable resuscitator of FIGS. 1-3; and,

FIG. 8 is a side elevational view of the second embodiment of the disposable resuscitator device of FIGS. 4-6.
