[57] CLAIM

The ornamental design for a wall mounted lighting fixture, as shown and described.

DESCRIPTION

FIG. 1 is a front elevational view of a circular wall mounted lighting fixture with a prismatic lens, showing my new design;

FIG. 2 is a side elevational view of FIG. 1;

FIG. 3 is a front elevational view of a circular wall mounted lighting fixture with a non-prismatic lens, showing my new design;

FIG. 4 is a side elevational view of FIG. 3;

FIG. 5 is a front elevational view of a square wall mounted lighting fixture with a prismatic lens, showing my new design;

FIG. 6 is a side elevational view of FIG. 5;

FIG. 7 is a front elevational view of a square wall mounted lighting fixture with a non-prismatic lens, showing my new design;

FIG. 8 is a side elevational view of FIG. 7;

FIG. 9 is a front elevational view of an oblong wall mounted lighting fixture having a prismatic lens, showing my new design;

FIG. 10 is a side elevational view of FIG. 9;

FIG. 11 is an end elevational view of FIG. 9;

FIG. 12 is a front elevational view of an oblong wall mounted lighting fixture having a non-prismatic lens, showing my new design;

FIG. 13 is a side elevational view of FIG. 12; and,

FIG. 14 is an end elevational view of FIG. 12.

The rear of each of the above depicted embodiments is flat and unornamented and is not visible when the lighting fixture is mounted.
