[57] CLAIM

The ornamental design for a semi-transparent solar module panel, as shown and described.

DESCRIPTION

FIG. 1 is a front elevational view of a semi-transparent solar module panel showing our new design, the rear elevational view being the same;

FIG. 2 is a detail view thereof showing the solar collector pattern;

FIG. 3 is a front elevational view of a semi-transparent solar module panel showing a second embodiment of our new design, the rear elevational view being the same;

FIG. 4 is a detail view thereof showing the solar collector pattern;

FIG. 5 is a left side elevational view of the semi-transparent solar module panels shown in FIGS. 1 and 3, the right side elevational view being the same; and,

FIG. 6 is a top plan view of the semi-transparent solar module panel shown in FIG. 1 and 3, the bottom view being the same.
