[57] **CLAIM**

The ornamental design for a hinged lid container with releasable locking means, as shown and described.

**DESCRIPTION**

FIG. 1 is a top perspective view of a hinged lid container with releasable locking means, showing the container in the closed condition;  
 FIG. 2 is a top plan view thereof, showing the container in the fully open condition;  
 FIG. 3 is a top plan view thereof of the container in the closed condition;  
 FIG. 4 is a bottom plan view of the container in the closed condition;  
 FIG. 5 is a side view thereof, showing the container in the closed condition;  
 FIG. 6 is a side view thereof, showing the container in a partially opened condition;  
 FIG. 7 is a front view thereof, showing the container in the closed condition;  
 FIG. 8 is a front view thereof, showing the container in a partially opened condition; and,  
 FIG. 9 is a rear perspective view, showing the container in the closed condition.
