## [57] CLAIM

The ornamental design for a temperature controlling device, as shown and described.

FIG. 1 is a front elevational view of a temperature controlling device showing my new design;  
FIG. 2 is a side elevational view thereof as viewed from either the left or right in FIG. 1;  
FIG. 3 is an end elevational view as viewed from either top or bottom end in FIG. 1;  
FIG. 4 is a bottom view thereof;  
FIG. 5 is a front elevational view of a temperature controlling device showing a second embodiment of my new design;  
FIG. 6 is a side elevational view thereof, as viewed from the right in FIG. 5;  
FIG. 7 is a side elevational view thereof, as viewed from the left in FIG. 5;  
FIG. 8 is an end elevational view as viewed from the bottom in FIG. 5;  
FIG. 9 is an end elevational view, as viewed from the top in FIG. 5;  
FIG. 10 is a bottom view thereof;  
FIG. 11 is a front elevational view of a temperature controlling device showing a third embodiment of my new design;  
FIG. 12 is a side elevational view thereof as viewed from the right in FIG. 1, the view from the left being a mirror image;  
FIG. 13 is an end elevation as viewed from the bottom end in FIG. 11, the opposite end being a mirror image thereof; and,  
FIG. 14 is a bottom view thereof.
