[57] **CLAIM**

The ornamental design for an optical viewer, as shown and described.

DESCRIPTION

FIG. 1 is a perspective view of an optical viewer, showing my new design;
FIG. 2 is a side elevational view thereof;
FIG. 3 is a side elevational view rotated 90 degrees;
FIG. 4 is a side elevational view of FIG. 3, rotated 90 degrees;
FIG. 5 is a right end view of FIG. 1;
FIG. 6 is another side elevational view;
FIG. 7 is a perspective view of a second embodiment;
FIG. 8 is a side elevational view thereof;
FIG. 9 is a side elevational view of FIG. 8, rotated 90 degrees;
FIG. 10 is a side elevational view of FIG. 9, rotated 90 degrees;
FIG. 11 is a right end view of FIG. 7; and,
FIG. 12 is another side elevational view.
