[57] CLAIM

The ornamental design for a screw holding belt, as shown and described.

DESCRIPTION

FIG. 1 is a front and a rear view of a screw holding belt in the present design;
FIG. 2 is a left side view of the screw holding belt in the present design, the opposite side being a mirror image;
FIG. 3 is an upside view of the screw holding belt in the present design;
FIG. 4 is a bottom view of the screw holding belt in the present design;
FIG. 5 is a perspective view of the screw holding belt in the present design;
FIG. 6 is a perspective view of another single transmissive gear tooth in the present design;
FIG. 7 is a cross-sectional view of line 7—7 in FIG. 3; and,
FIG. 8 is a cross sectional view of another embodiment of the present design, in which the only difference is the angle of the wall as shown, and in which the outline of a screw is shown in phantom lines for illustrative purposes only, forming no part of the claimed design.
The screw holding belt is shown broken-away in FIGS. 2-6 to indicate undetermined length.
