[57] **CLAIM**

The ornamental design for the pocketed shoelace cover, as shown and described.

DESCRIPTION

FIG. 1 is a front plan view of a modified pocketed shoelace cover of this invention, showing the lacing apertures in its upper portion and a stay at its midpoint; FIG. 2 is a back view thereof; FIG. 3 is a bottom view thereof, also showing Velcro

providing closure to the intermediate packet feature between the shoelace cover; FIG. 4 is a top view thereof; FIG. 5 is a right side view, showing the top shoelace cover partially opened to provide access into its internal pocket; FIG. 6 is a sectional view showing the bottom shoelace cover with the fastening means for holding the pocket into closure as attaching thereto; FIG. 7 is a front view of the pocketed shoelace cover as shown in FIG. 1, with its upper segment turned to provide alignment of its lacing apertures; FIG. 8 is a modification to a pocketed shoelace cover of this invention, disclosing the lacing apertures provided in its upper segment, a stay provided at its midpoint, and a zippered closure means for the pocket provided along its bottom margin; FIG. 9 is a back view thereof; FIG. 10 is a front view of the pocketed shoelace cover, with its upper edge turned down; FIG. 11 is a right side view, the left side view being a mirror image thereof; FIG. 12 is a bottom view thereof; FIG. 13 is a top view thereof; FIG. 14 is a front side view of a modified pocketed shoelace cover; FIG. 15 is a back side view thereof, disclosing the lacing aperture at its upper segment, a stay at its center segment, and a zippered closure means provided adjacent its bottom edge, for attaining access into its intermediately formed pocket; FIG. 16 is a front view of the pocketed shoelace cover of FIG. 14, with its upper edge turned down; FIG. 17 is a right side view, the left side view being a mirror image thereof; FIG. 18 is a bottom view thereof; and, FIG. 19 is a top view thereof.
