[57] **CLAIM**

The ornamental design for a tape mounted lug terminal package, as shown and described.

DESCRIPTION

FIG. 1 is a front, bottom, and left side perspective view of the tape mounted lug terminal package as a first embodiment showing my new design, dotted chain lines shown in the figure illustrating a state just before a adhesive tape is attached with interposing lug terminals to a paper tape;

FIG. 2 is a front elevational view thereof;

FIG. 3 is a rear elevational view thereof;

FIG. 4 is a right side elevational view thereof, the left side elevational view being a mirror image;

FIG. 5 is a sectional view thereof, taken along line 5—5 in FIG. 2;

FIG. 6 is a top plan view thereof;

FIG. 7 is a bottom plan view thereof;

FIG. 8 is an enlarged sectional view thereof, taken along line 8—8 in FIG. 2;

FIG. 9 is an enlarged sectional view thereof, taken along line 9—9 in FIG. 2;

FIG. 10 is an enlarged sectional view thereof, taken along line 10—10 in FIG. 2;

FIG. 11 is an enlarged sectional view thereof, taken along line 11—11 in FIG. 2;

FIG. 12 is a front, bottom, and side perspective view of a second modified embodiment of a tape mounted lug terminal package showing my new design; and,

FIG. 13 is a front, bottom, and left side perspective view of a third modified embodiment of a tape mounted lug terminal package showing my new design.

In other respects than shown in FIG. 12, the second embodiment of my new design corresponds to said first embodiment.

In other respects than shown in FIG. 13, the third embodiment of my new design corresponds to said first embodiment.

The dotted chain lines shown in FIG. 1 for illustrative purposes only and form no part of the claimed design.
