[57] **CLAIM**

The ornamental design for display enclosure with display, as shown and described.

DESCRIPTION

FIG. 1 is a perspective view showing a preferred embodiment of my new design in one environment of use; FIG. 2 is a side elevational view showing my new design in one environment of use the opposite side being a mirror image; FIG. 3 is a top elevational view thereof; FIG. 4 is a front elevational view thereof; FIG. 5 is a bottom elevational view thereof; FIG. 6 is a rear elevational view thereof; FIG. 7 is a perspective view of an alternative embodiment of my new design shown in one environment of use; FIG. 8 is a side elevational view of the alternative embodiment of my new design shown in one environment of use the opposite side being a mirror image; FIG. 9 is a top elevational view of the alternative embodiment of my new design; FIG. 10 is a front elevational view of the alternative embodiment of my new design; FIG. 11 is a bottom elevational view of the alternative embodiment of my new design; and, FIG. 12 is a rear elevational view of the alternative embodiment of my new design. The broken line showing of a scale platform, mounting bracket and fasteners are for illustrative purposes only and forms no part of the claimed design. The display screen shown in FIGS. 4 and 10 has been omitted for ease of illustration in FIGS. 1 and 7.
