] CLAIM

The ornamental design for a stabilizing attachment for ladders, as shown and described.

DESCRIPTION

FIG. 1 is a front perspective view showing my new design for a stabilizing attachment for ladders;

FIG. 2 is a right side elevational view of the stabilizing attachment for ladders shown in FIG. 1, the left side elevational view being the substantial mirror image thereof;

FIG. 3 is front elevational view of the stabilizing attachment for ladders shown in FIG. 1, the rear elevational view being the substantial mirror image thereof;

FIG. 4 is a top plan view of the stabilizing attachment for ladders shown in FIG. 1;

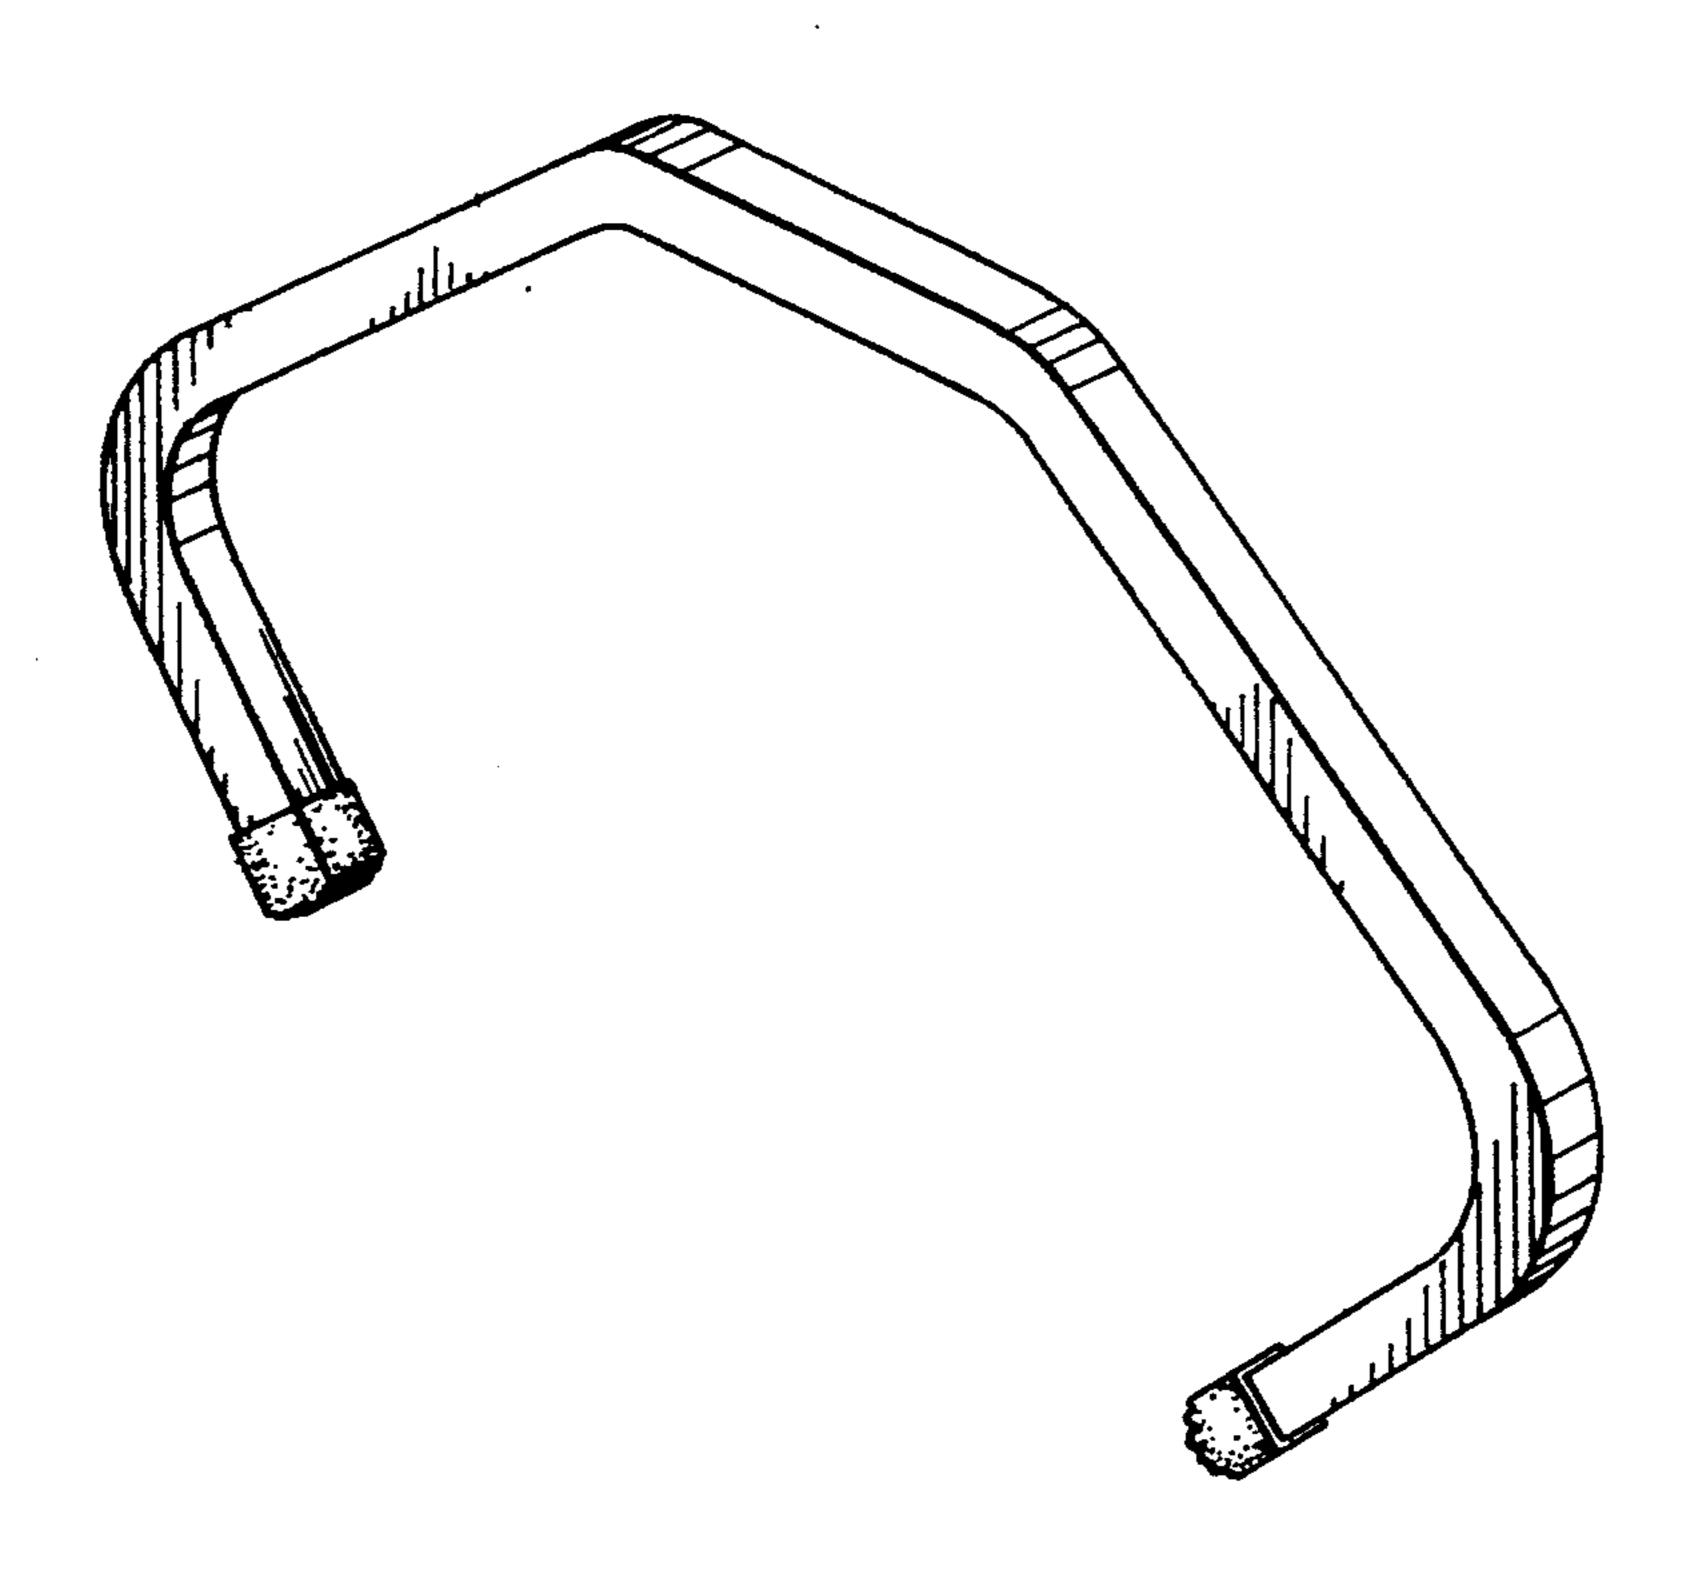

FIG. 5 is a bottom plan view of the stabilizing attachment for ladders shown in FIG. 1;

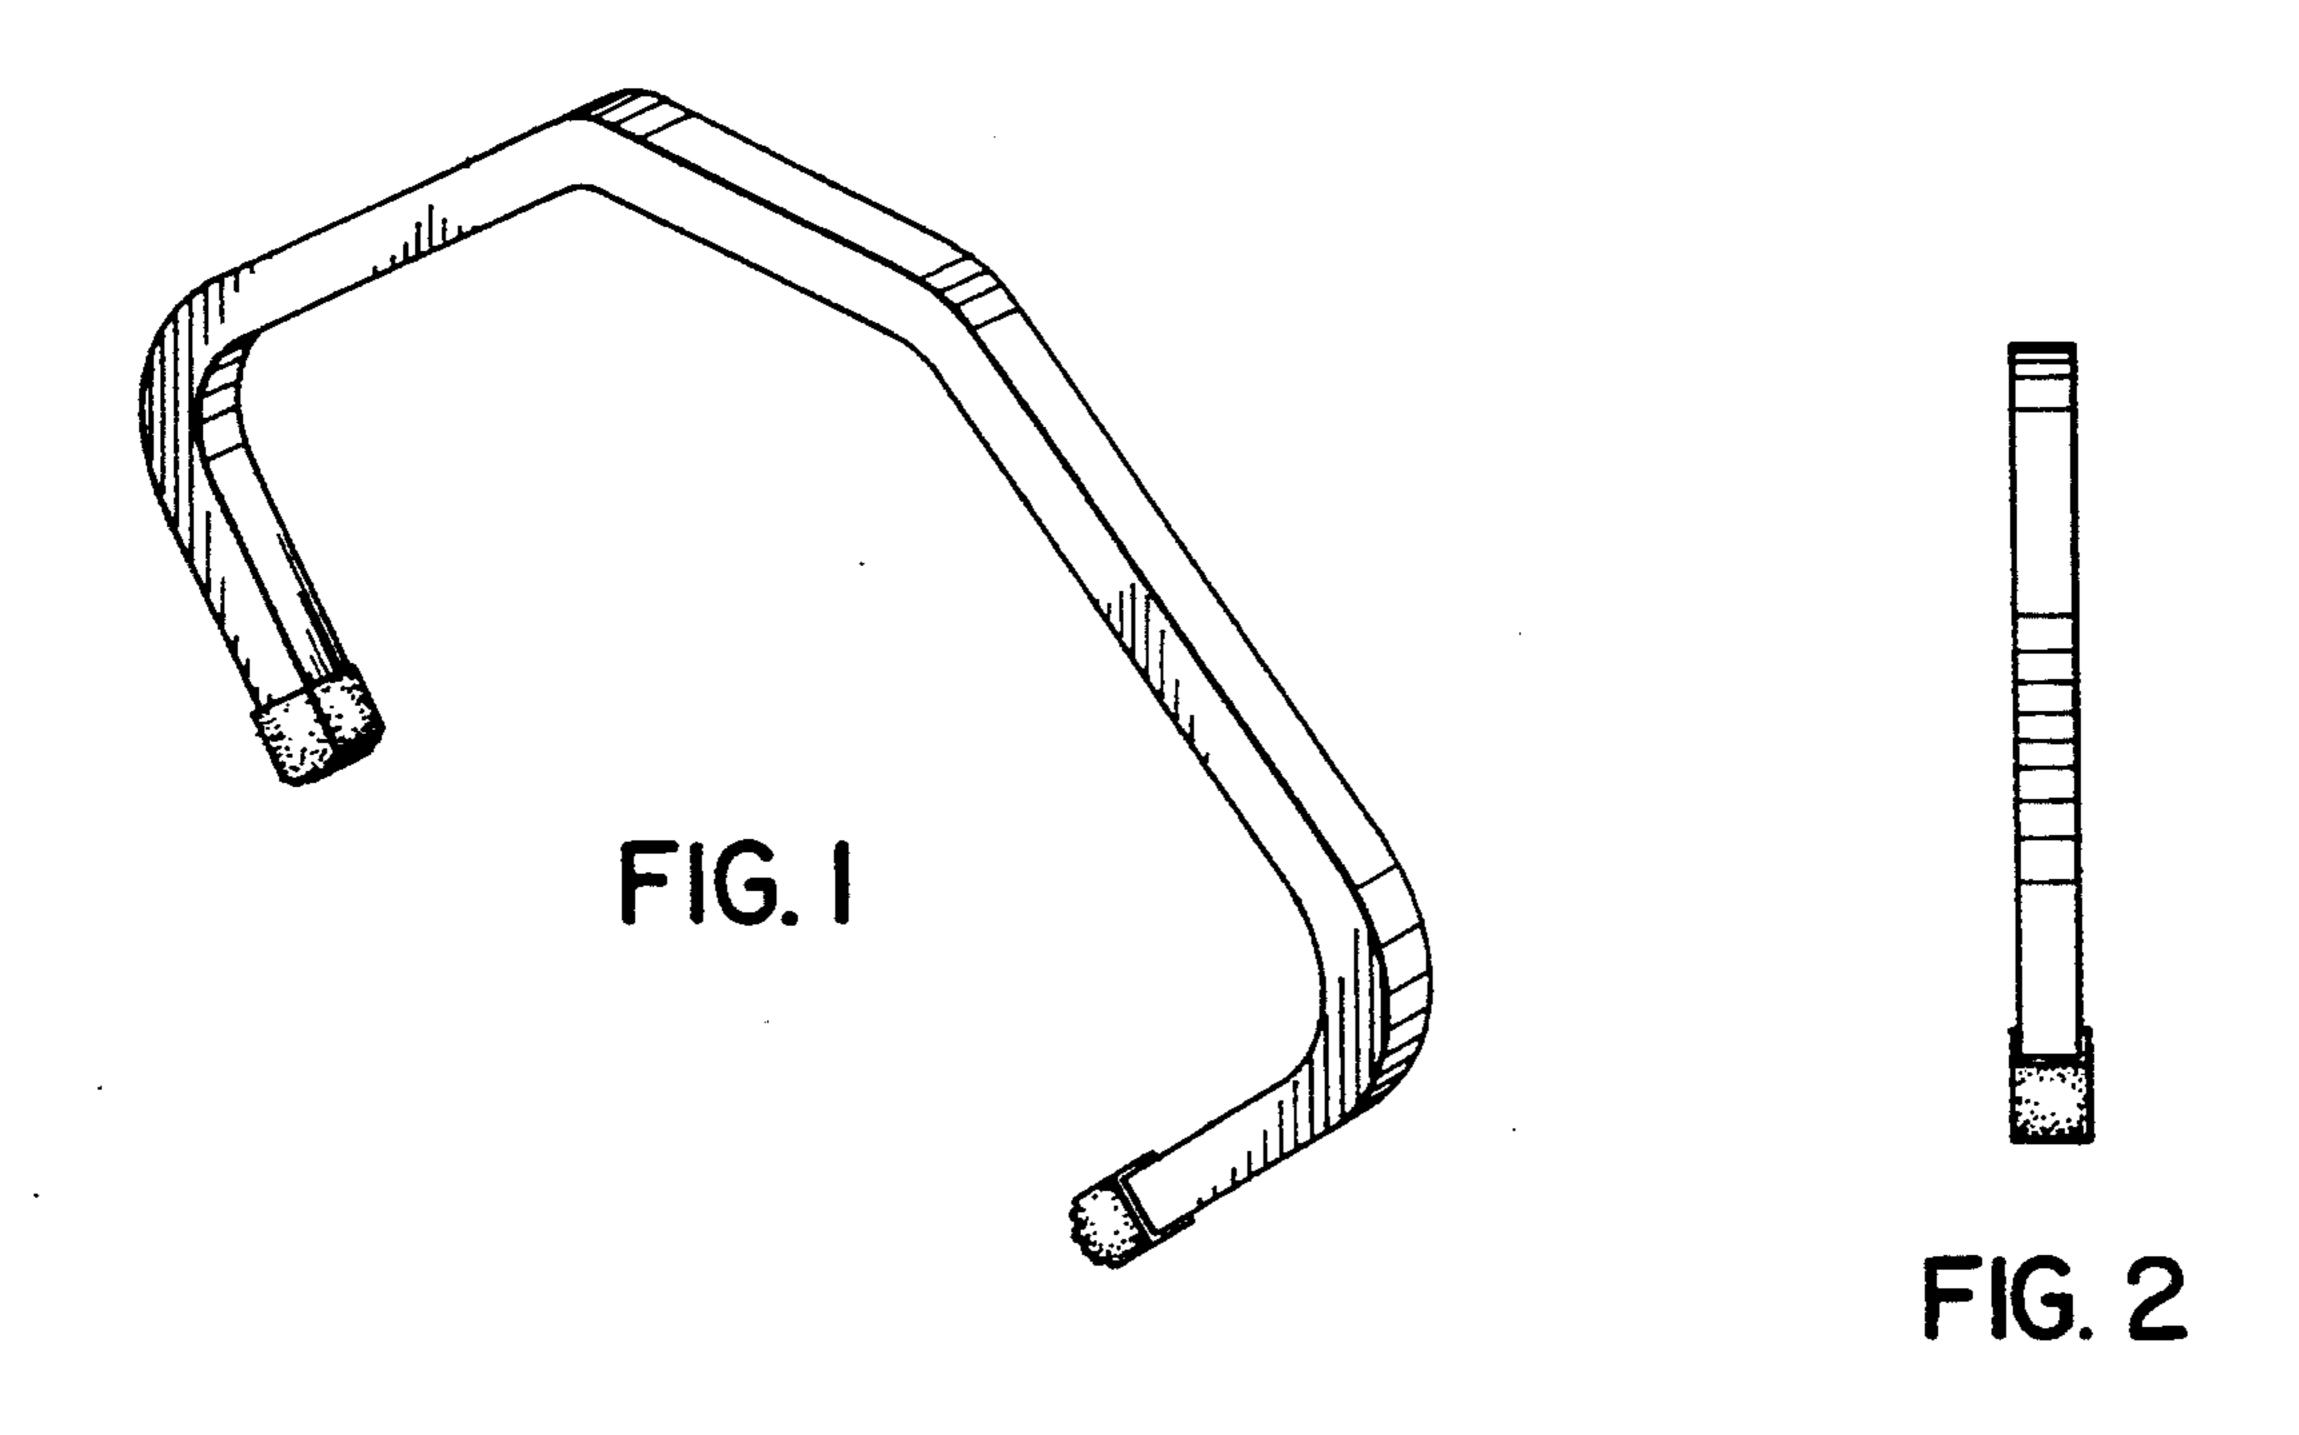

FIG. 6 is a front perspective view of an alternate form of a stabilizing attachment for ladders from that shown in FIG. 1;

FIG. 7 is a right side elevational view of the stabilizing attachment for ladders shown in FIG. 6, the left side elevational view being the substantial mirror image thereof;

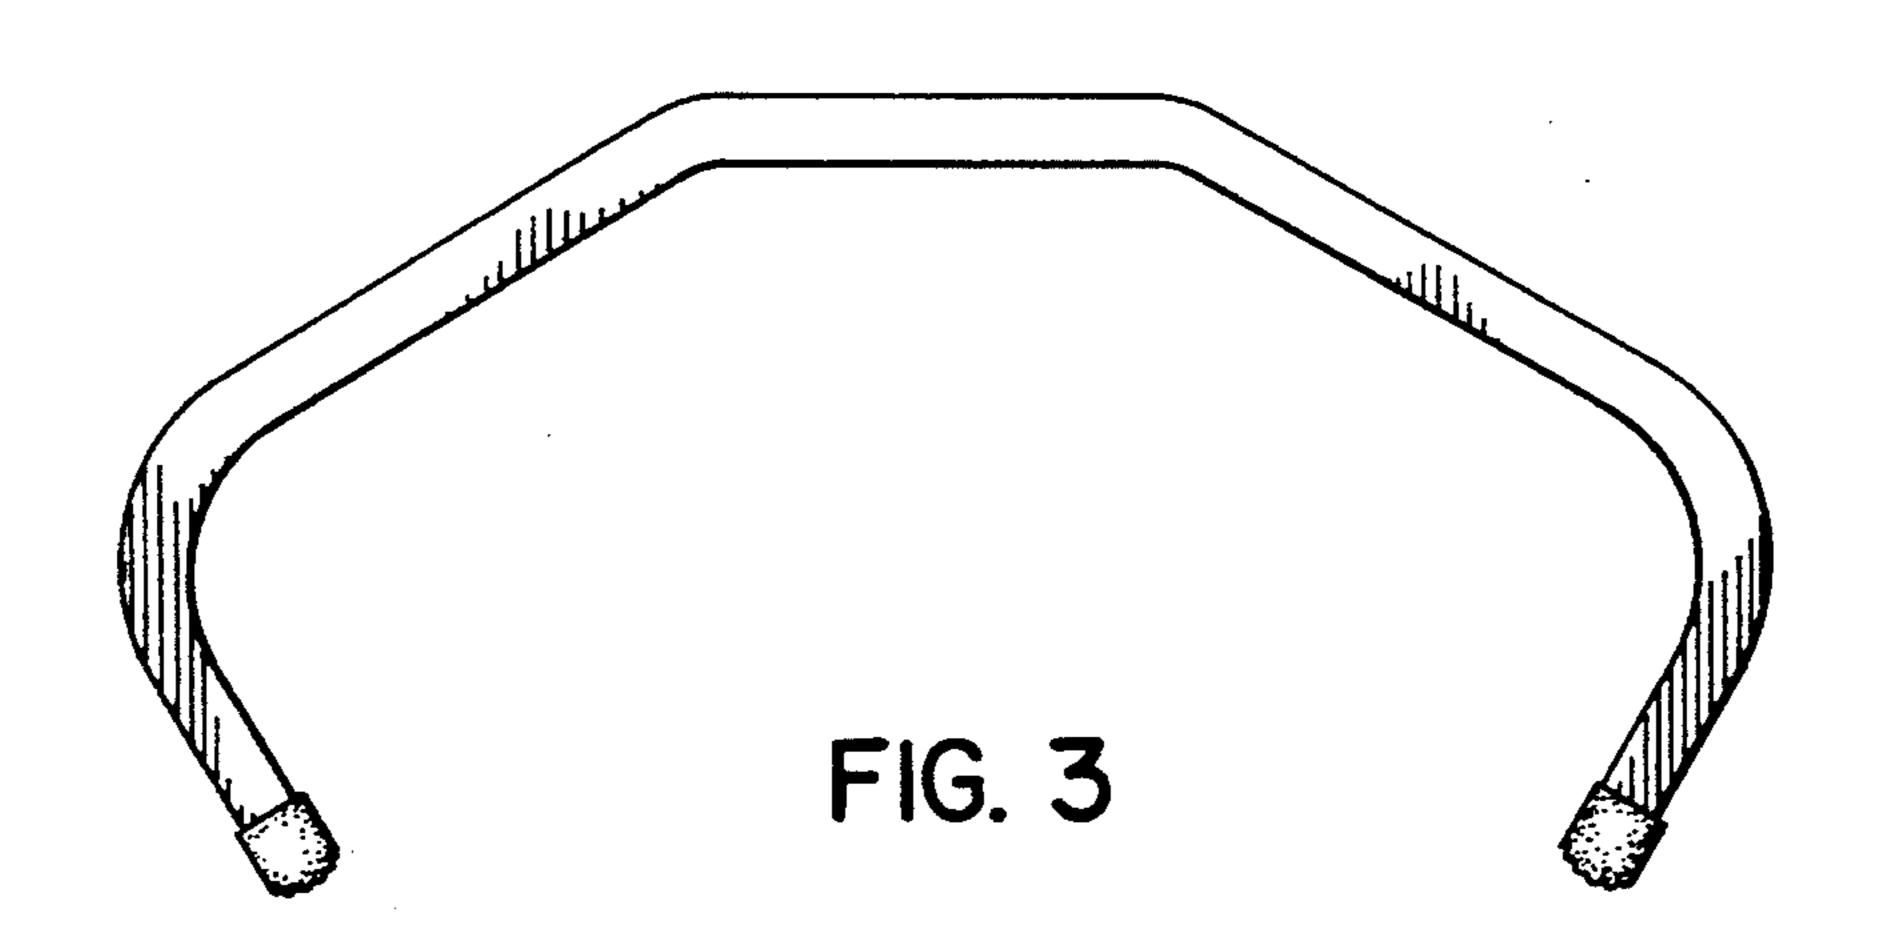

FIG. 8 is a front elevational view of the stabilizing attachment for ladders shown in FIG. 6, the rear elevational view being the substantial mirror image thereof; FIG. 9 is a top plan view of the stabilizing attachment for ladders shown in FIG. 6; and,

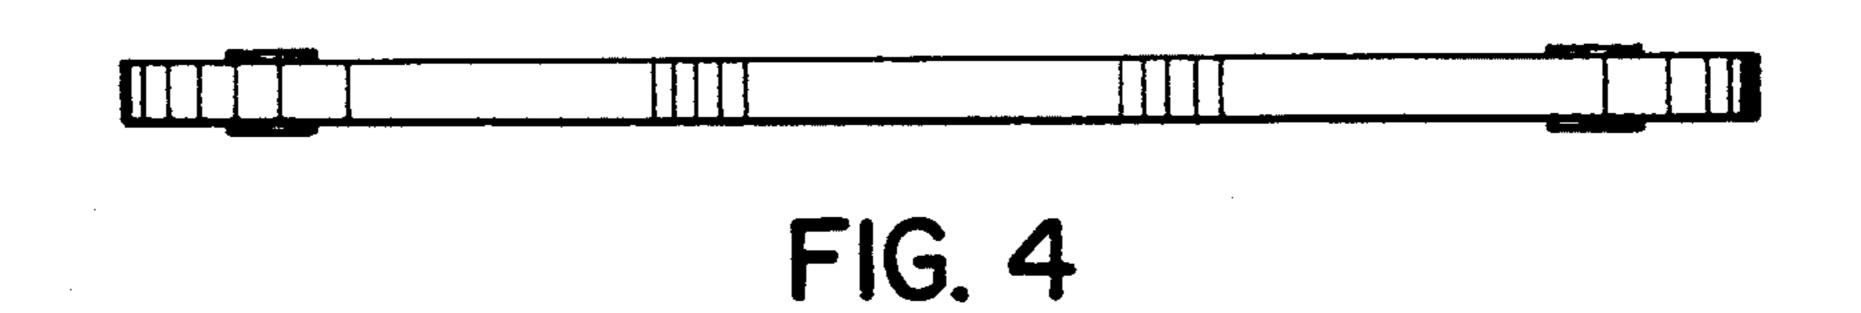

FIG. 10 is a bottom plan view of the stabilizing attachment for ladders shown in FIG. 6.
