[57] CLAIM

The ornamental design for a children's height and clothes size scale, as shown and described.

DESCRIPTION

FIG. 1 is a front elevational view of the first embodiment thereof, the rear being plain and unornamented; FIG. 2 is a top plan view of a height measuring device showing my new design, the bottom plan being identical; FIG. 3 is a typical side elevational view thereof. The opposite side being identical; FIG. 4 is a front elevational view of the second embodiment thereof, the rear being plain and unornamented; FIG. 5 is a top plan view of a height measuring device showing my new design, the bottom plan being identical; FIG. 6 is a typical side elevational view thereof. The opposite side being identical; and, FIG. 7 is a front elevational view of the third embodiment thereof, the rear being plain and unornamented. FIGS. 1-3 and 7 are drawings of the children's height and clothes size scales for either boys or girls. FIGS. 4-6 are drawings of the children's height and clothes size scale where both boys and girls measurements are placed on the scale.
