[57] CLAIM

The ornamental design for a surgical parallel drill guide instrument, as shown and described.

DESCRIPTION

FIG. 1 is a perspective view of a surgical parallel drill guide instrument;
 FIG. 2 is a partial perspective view thereof with a portion broken away;
 FIG. 3 is a side elevational view thereof;
 FIG. 4 is a bottom plan view thereof;
 FIG. 5 is a side elevational view thereof of the side opposite the side shown in FIG. 3;
 FIG. 6 is a top plan view thereof;
 FIG. 7 is an end elevational view thereof; and,
 FIG. 8 is an end elevational view thereof of the end opposite the end shown in FIG. 7.
 The broken line showing of the sleeve members in FIG. 1 is for illustrative purposes only and forms no part of the claimed design.

FIG. 2

FIG. 1

FIG. 3

FIG. 4

FIG. 8

FIG. 7
