[57] **CLAIM**

The ornamental design for a vehicle wheel, as shown and described.

DESCRIPTION

FIG. **1** is a full frontal view of a vehicle wheel, showing my new design;

FIG. **2** is an enlarged elevation view of the upper left quadrant thereof; it being understood that all four quadrants of the wheel are the same; and,

FIG. **3** is a sectional view through lines III—III of FIG. **2.**

The characteristic feature of this design resides in the diamond-shaped hand holes which taper inwardly from both sides of the wheel, toward the center of the wheel and meet along an edge substantially intermediate the interior and exterior sides of said wheel.
