[57] **CLAIM**

The ornamental design for a fuel dispensing nozzle cover, as shown and described.

DESCRIPTION

FIG. 1 is a side view of a fuel dispensing nozzle cover showing my new design, with the opposite side a mirror image, except that the letters extend left to right;

FIG. 2 is a front view;

FIG. 3 is a rear view;

FIG. 4 is a top view;

FIG. 5 is a bottom view;

FIG. 6 is a side view of a second embodiment showing my new design, with the opposite side view a mirror image, except that the letters extend left to right, and with the front, rear, top, and bottom views substantially identical to FIGS. 2 through 5;

FIG. 7 is a side view of a third embodiment showing my new design, with the opposite side a mirror image, except that the letters extend left to right;

FIG. 8 is rear view of the third embodiment;

FIG. 9 is a top view of the third embodiment;

FIG. 10 is a front view of the third embodiment; and,

FIG. 11 is a bottom view of the third embodiment.

The characteristic feature of the design is found in the provision of protruding bosses, respectively, on opposite sides of the cover, which bear logo identification of the product being dispensed by the nozzle.
