[57] **CLAIM**

The ornamental design for an interior vehicle light, as shown and described.

DESCRIPTION

FIG. 1 is a top, front, right side perspective of an interior vehicle light design according to the invention; FIG. 2 is a top plan view thereof; FIG. 3 is a right side elevational view thereof, the left side elevational view being a mirror image of the view in FIG. 3; FIG. 4 is a rear elevational view thereof; FIG. 5 is a front elevational view thereof; FIG. 6 is a bottom plan view thereof; FIG. 7 is a top plan view of a second embodiment thereof; FIG. 8 is a right side elevational view of the embodiment in FIG. 7, the left side elevational view being a mirror image of the view in FIG. 8; FIG. 9 is a bottom plan view of the embodiment in FIG. 7; FIG. 10 is a right side elevational view of a third embodiment thereof, the left side elevational view being a mirror image; FIG. 11 is a rear elevational view thereof, with the front being the same as the first embodiment shown in FIG. 5; FIG. 12 is a bottom plan view thereof, wherein the top is the same as the first embodiment shown in FIG. 2; FIG. 13 is a right side elevational view of a fourth embodiment thereof, the left side is elevational view being a mirror image; and, FIG. 14 is a bottom plan view thereof, wherein the top is the same as the second embodiment shown in FIG. 7. The rear of the second embodiment and front of the second and fourth embodiments are the same as the first embodiment shown in FIGS. 4 and 5 respectively, and the rear of the fourth embodiment is the same as the third embodiment shown in FIG. 11. The broken lines are shown for illustrative purposes only and form no part of the claimed design.
