[57] **CLAIM**

The ornamental design for a tire, as shown and described.

**DESCRIPTION**

FIG. 1 is a perspective view of a tire showing a sector of my new tire tread design, it being understood that the tread pattern as shown is repeated throughout the circumference of the tire, as shown schematically by solid lines;

FIG. 2 is a side elevational view thereof, it being understood that the other side is a reverse image thereof and that the tread pattern is continuous along the entire side of the tire as shown schematically by solid lines; and,

FIG. 3 is a front elevational view of a tire showing my new design, it being understood that the tread pattern as shown is repeated throughout the circumference of the tire.

FIG. 1

FIG. 3
