[57] **CLAIM**

The ornamental design for a light fixture, as shown and described.

DESCRIPTION

FIG. 1 is a bottom perspective view of a light fixture of a first preferred embodiment showing my new design; FIG. 2 is a bottom plan view thereof;

FIG. 3 is a right end elevational view thereof, the left end elevational view being a mirror image of the right end elevational view;

FIG. 4 is a front elevational view thereof, the rear elevational view being a mirror image of the front elevational view;

FIG. 5 is a top plan view thereof;

FIG. 6 is a bottom plan view of a second preferred embodiment;

FIG. 7 is a right end elevational view thereof, the left end elevational view being a mirror image of the right end elevational view;

FIG. 8 is a front elevational view thereof, the rear elevational view being a mirror image of the front elevational view;

FIG. 9 is a top plan view thereof;

FIG. 10 is a bottom plan view of a third preferred embodiment;

FIG. 11 is a right end elevational view thereof, the left end elevational view being a mirror image of the right end elevational view;

FIG. 12 is a front elevational view thereof, the rear elevational view being a mirror image of the front elevational view;

FIG. 13 is a top plan view thereof;

FIG. 14 is a bottom perspective view of a fourth preferred embodiment;

(List continued on next page.)

FIG. 15 is a bottom plan view thereof;
FIG. 16 is a right end elevational view thereof, the left end elevational view being a mirror image of the right end elevational view;
FIG. 17 is a front elevational view thereof, the rear elevational view being a mirror image of the front elevational view;
FIG. 18 is a top plan view thereof;
FIG. 19 is a bottom plan view of a fifth preferred embodiment;
FIG. 20 is a right end elevational view thereof, the left end elevational view being a mirror image of the right end elevational view;

FIG. 21 is a front elevational view thereof, the rear elevational view being a mirror image of the front elevational view;
FIG. 22 is a top plan view thereof;
FIG. 23 is a bottom plan view of a sixth preferred embodiment;
FIG. 24 is a right end elevational view thereof, the left end elevational view being a mirror image of the right end elevational view;
FIG. 25 is a front elevational view thereof, the rear elevational view being a mirror image of the front elevational view; and,
FIG. 26 is a top plan view thereof.
