

US00D359801S

United States Patent [19]

[11] Patent Number: **Des. 359,801**

Boykin et al.

[45] Date of Patent: **** Jun. 27, 1995**

[54] **STYLET FOR RETROGRADE CORONARY SINUS CANNULA**

[75] Inventors: **Christopher M. Boykin, Saline; Nelson L. Huldin, Ann Arbor, both of Mich.**

[73] Assignee: **Minnesota Mining and Manufacturing Company, St. Paul, Minn.**

[**] Term: **14 Years**

[21] Appl. No.: **10,455**

[22] Filed: **Jul. 7, 1993**

Related U.S. Application Data

[63] Continuation-in-part of Ser. No. 979,010, Nov. 19, 1992, abandoned.

[52] U.S. Cl. **D24/112; D24/130; D24/133**

[58] Field of Search **D24/112, 145, 143, 140, D24/130, 147, 133; 604/53, 93, 95, 161, 164, 160, 281, 282, 170**

[57] CLAIM

The ornamental design for a stilet for retrograde coronary sinus cannula, as shown and described.

DESCRIPTION

FIG. 1 is a perspective view of a stilet for retrograde coronary sinus cannula showing our new design, the shaft of the stilet is shown broken to indicate indeterminate length;

FIG. 2 is a front elevational view thereof;

FIG. 3 is a rear elevational view thereof;

FIG. 4 is a top plan view thereof, the shaft of the stilet is shown broken to indicate indeterminate length;

FIG. 5 is a right side elevational view thereof, the left side elevational view being identical thereto, the shaft of the stilet is shown broken to indicate indeterminate length; and,

FIG. 6 is a bottom plan view thereof the shaft of the stilet is shown broken to indicate indeterminate length.
