[57] **CLAIM**

The ornamental design for a reversible porch swing, as shown and described.

DESCRIPTION

FIG. 1 is an isometric view of the invented reversible porch swing configured as a swing;
 FIG. 2 is a front elevation of the invented reversible porch swing configured as a swing;
 FIG. 3 is a rear elevation of the invented reversible porch swing configured as a swing;
 FIG. 4 is a top plan view of the invented reversible porch swing configured as a swing;
 FIG. 5 is a bottom view of the invented reversible porch swing configured as a swing;
 FIG. 6 is a left side view of the invented reversible porch swing configured as a swing, the right side view being a mirror image thereof;
 FIG. 7 is an isometric view of the invented reversible porch swing configured as a cradle;
 FIG. 8 is a front elevation of the invented reversible porch swing configured as a cradle;
 FIG. 9 is a rear elevation of the invented reversible porch swing configured as a cradle;
 FIG. 10 is a top plan view of the invented reversible porch swing configured as a cradle;
 FIG. 11 is a bottom view of the invented reversible porch swing configured as a cradle; and,
 FIG. 12 is a left side view of the invented reversible porch swing converted to a cradle configuration, the right side view being a mirror image thereof.
