[57] **CLAIM**

The ornamental design for a package for a compact disc, as shown and described.

**DESCRIPTION**

FIG. 1 is a perspective front view of a first embodiment of my package for a compact disc in the open position showing my new design;  
 FIG. 2 is a front elevation view of my first embodiment of my package for a compact disc in the open position;  
 FIG. 3 is a left side elevation view of my first embodi-

ment of my package for a compact disc in the open position ;  
 FIG. 4 is a right side elevation view of my first embodiment of my package for a compact disc in the open position;  
 FIG. 5 is a rear elevation view of my first embodiment of my package for a compact disc in the open position;  
 FIG. 6 is a top plan view of my first embodiment of my package for a compact disc in the open position;  
 FIG. 7 is a bottom plan view of my first embodiment of my package for a compact disc in the open position;  
 FIG. 8 is a perspective front view of a second embodiment of my package for a compact disc in the open position showing my new design;  
 FIG. 9 is a front elevation view of my second embodiment of my package for a compact disc in the open position;  
 FIG. 10 is a left side elevation view of my second embodiment of my package for a compact disc in the open position;  
 FIG. 11 is a right side elevation view of my second embodiment of my package for a compact disc in the open position;  
 FIG. 12 is a top plan view of my second embodiment of my package for a compact disc in the open position;  
 FIG. 13 is a bottom plan view of my second embodiment of my package for a compact disc in the open position;  
 FIG. 14 is a rear elevation view of my second embodiment of my package for a compact disc in the open position;  
 FIG. 15 is a perspective front view of a third embodiment of my package for a compact disc in the open position showing my new design;  
 FIG. 16 is a front elevation view of my third embodiment of my package for a compact disc in the open position;  
 FIG. 17 is a left side elevational view of my third embodiment of my package for a compact disc in the open position, the right side elevation view being a mirror image thereof;  
 FIG. 18 is a top plan view of my third embodiment of my package for a compact disc in the open position;  
 FIG. 19 is a bottom plan view of my third embodiment of my package for a compact disc in the open position;  
 and,  
 FIG. 20 is a rear elevation view of my third embodiment of my package for a compact disc in the open position.
