[57] **CLAIM**

The ornamental design for a wristwatch with band portions, as shown.

DESCRIPTION

FIG. 1 is a front elevational view of the device of this design with the position of the disks indicating 12:45 by the stationary arm;

FIG. 2 is a front elevational view of the device of this design with the positions of the disks indicating 6 o'clock in relation to the stationary arm;

FIG. 3 is a front elevational view of the device of this design with the positions of the disks indicating 3:17 o'clock in relation to the stationary arm;

FIG. 4 is a front elevational view of the device of this design with the disks indicating 4:15 in relation to the stationary arm;

FIG. 5 is a rear elevational view of the device of the design of this invention;

FIG. 6 is a left side elevational view of the device of the design of FIG. 1; and,

FIG. 7 is a right side elevational view of the device of the design of FIG. 1.
