[57] CLAIM

The ornamental design for a multi-leaf holder for compact disks, as shown and described.

DESCRIPTION

FIG. 1 is a perspective view of a multi-leaf holder for compact disks showing our new design; FIG. 2 is a top plan view thereof, the bottom being a mirror image; FIG. 3 is an inside elevational view thereof shown in an open position; the leaves not shown having a front surface identical to the right hand page, and a rear surface identical to the left hand page; FIG. 4 is a perspective view of an alternate embodiment of the design shown in FIG. 1, the sides not shown being mirror images of the sides which are shown; FIG. 5 is a top plan view of FIG. 4, the bottom being a mirror image; FIG. 6 is a top plan view of a second embodiment of the design shown in FIG. 1, the bottom being a mirror image; and the sides being substantially similar to the sides of the previous embodiment; and, FIG. 7 is an inside elevational view of FIG. 4 shown in an open position, the inside elevational view of FIG. 6 being identical except for the rounded outer cover corners on the hinged side; and the leaves not shown having a front surface identical to the reight hand page, and a rear surface identical to the left hand page.

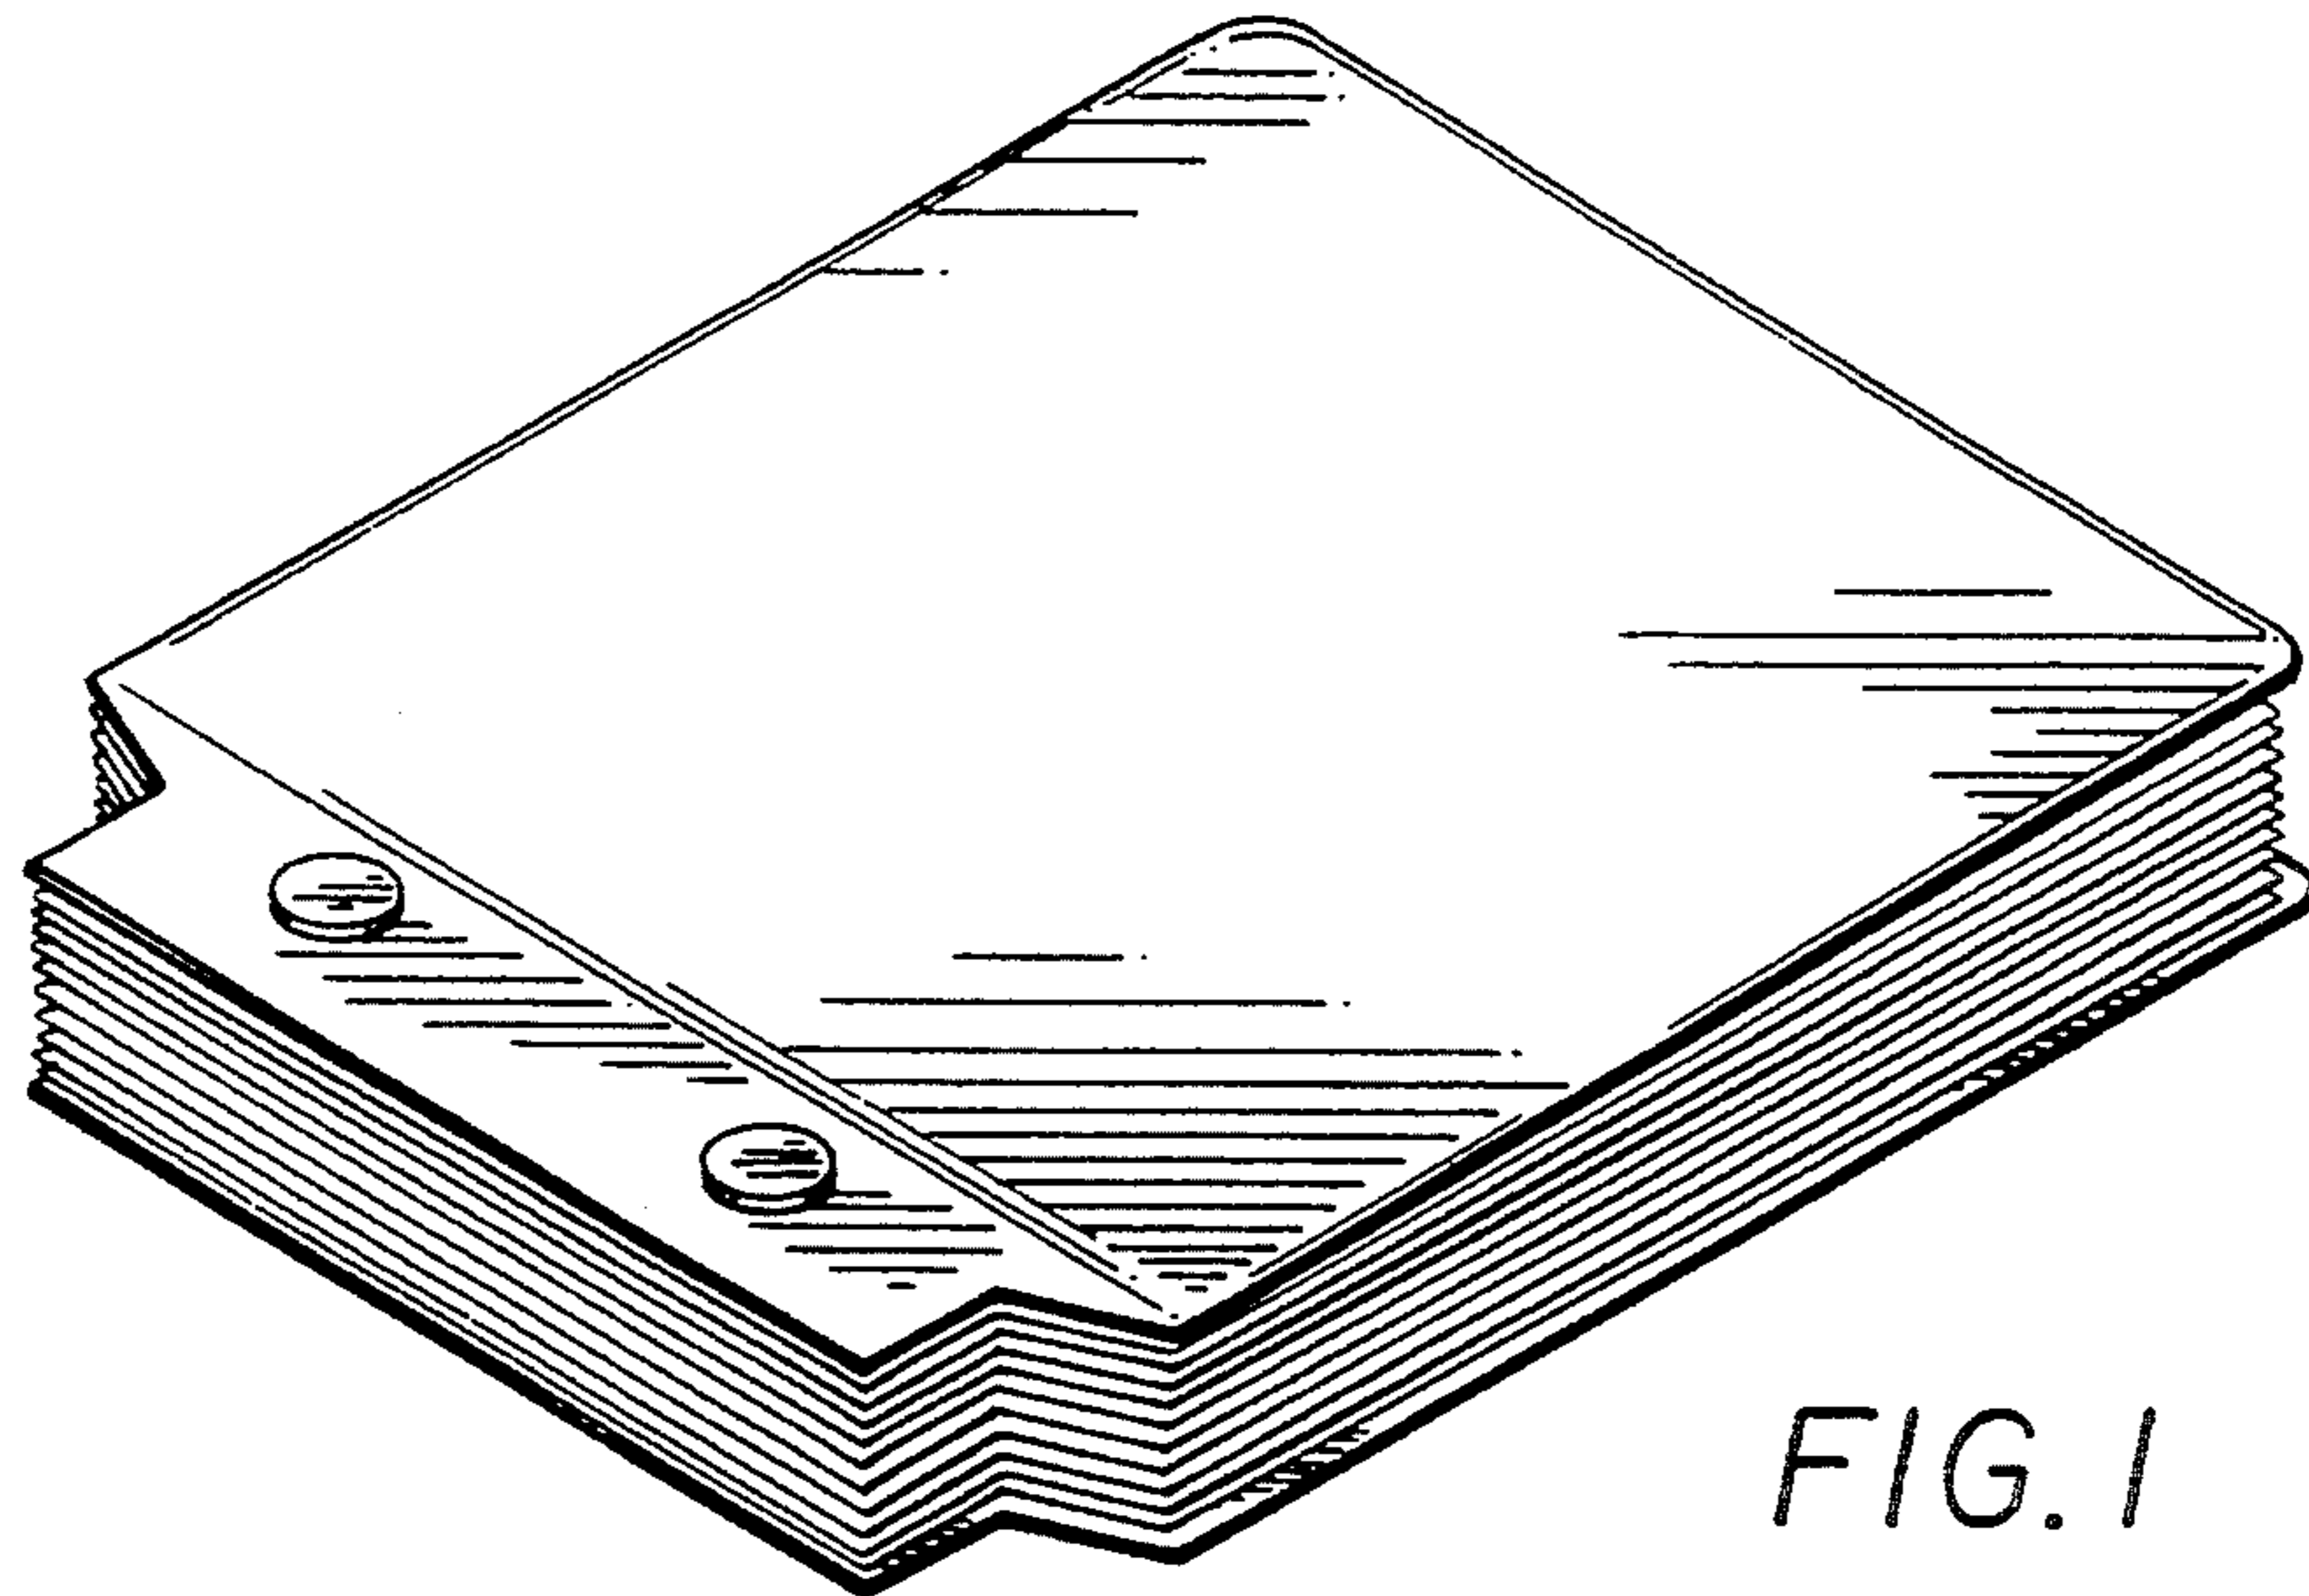

FIG. 1

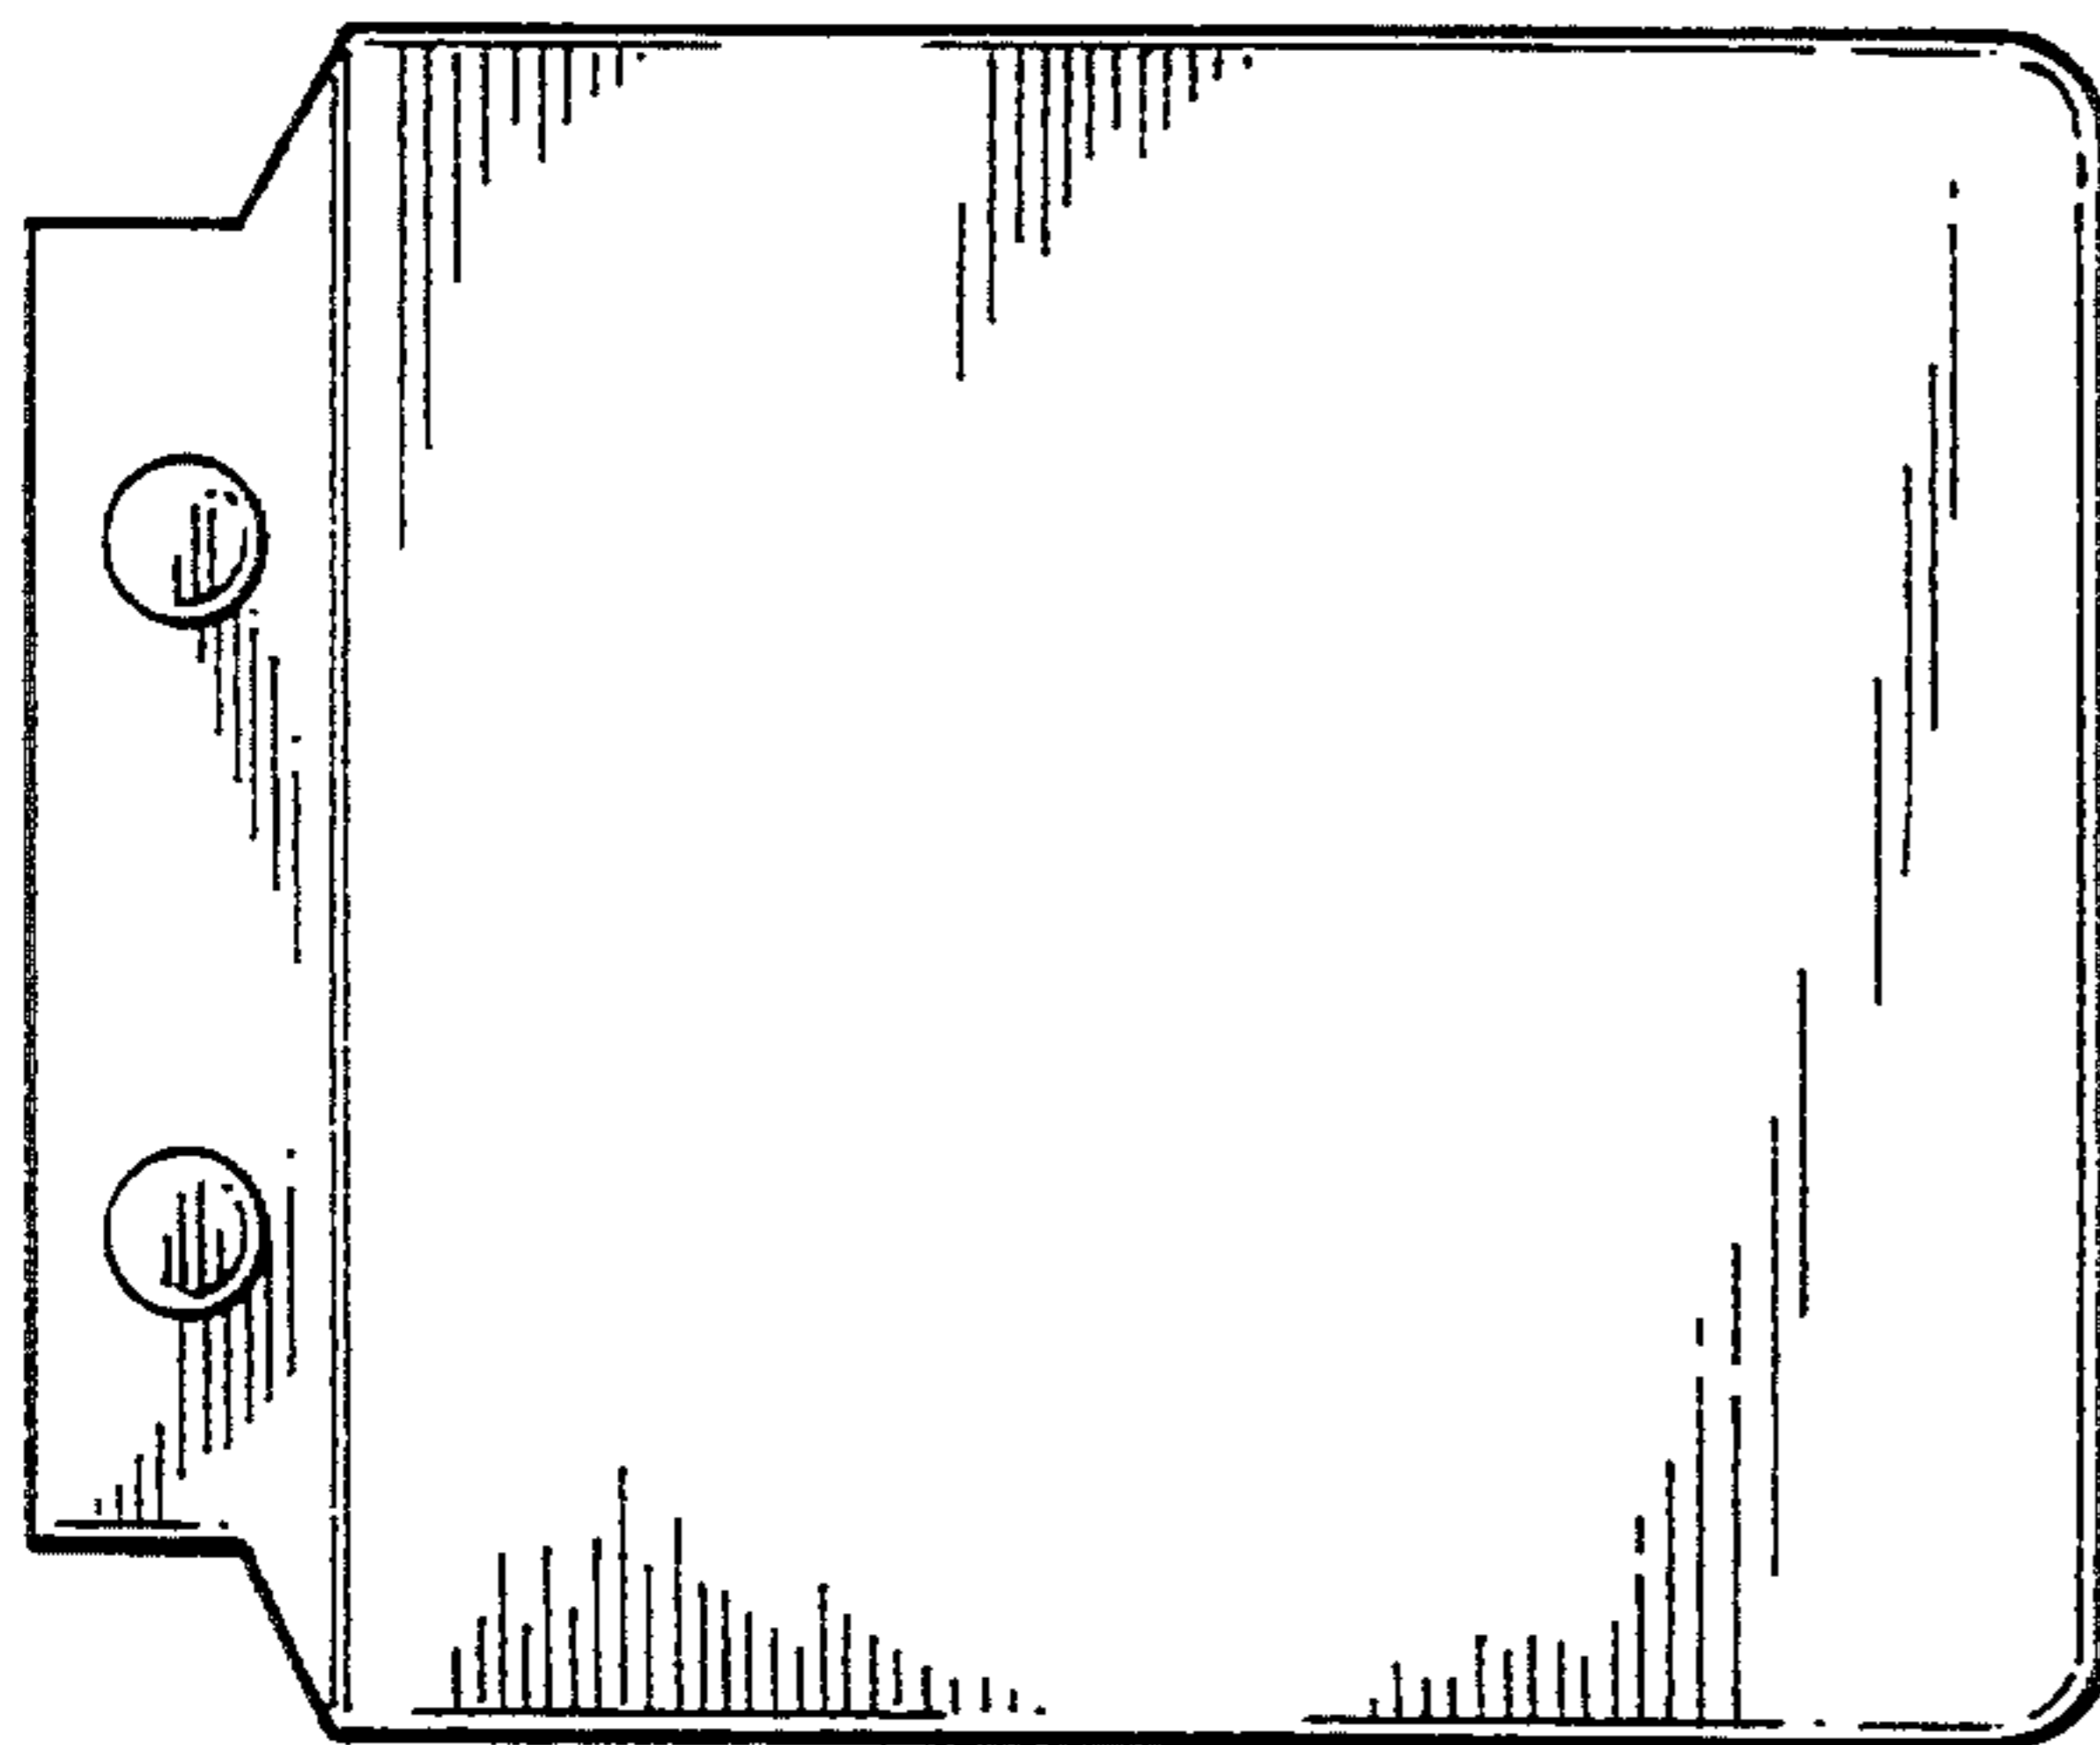

FIG. 2

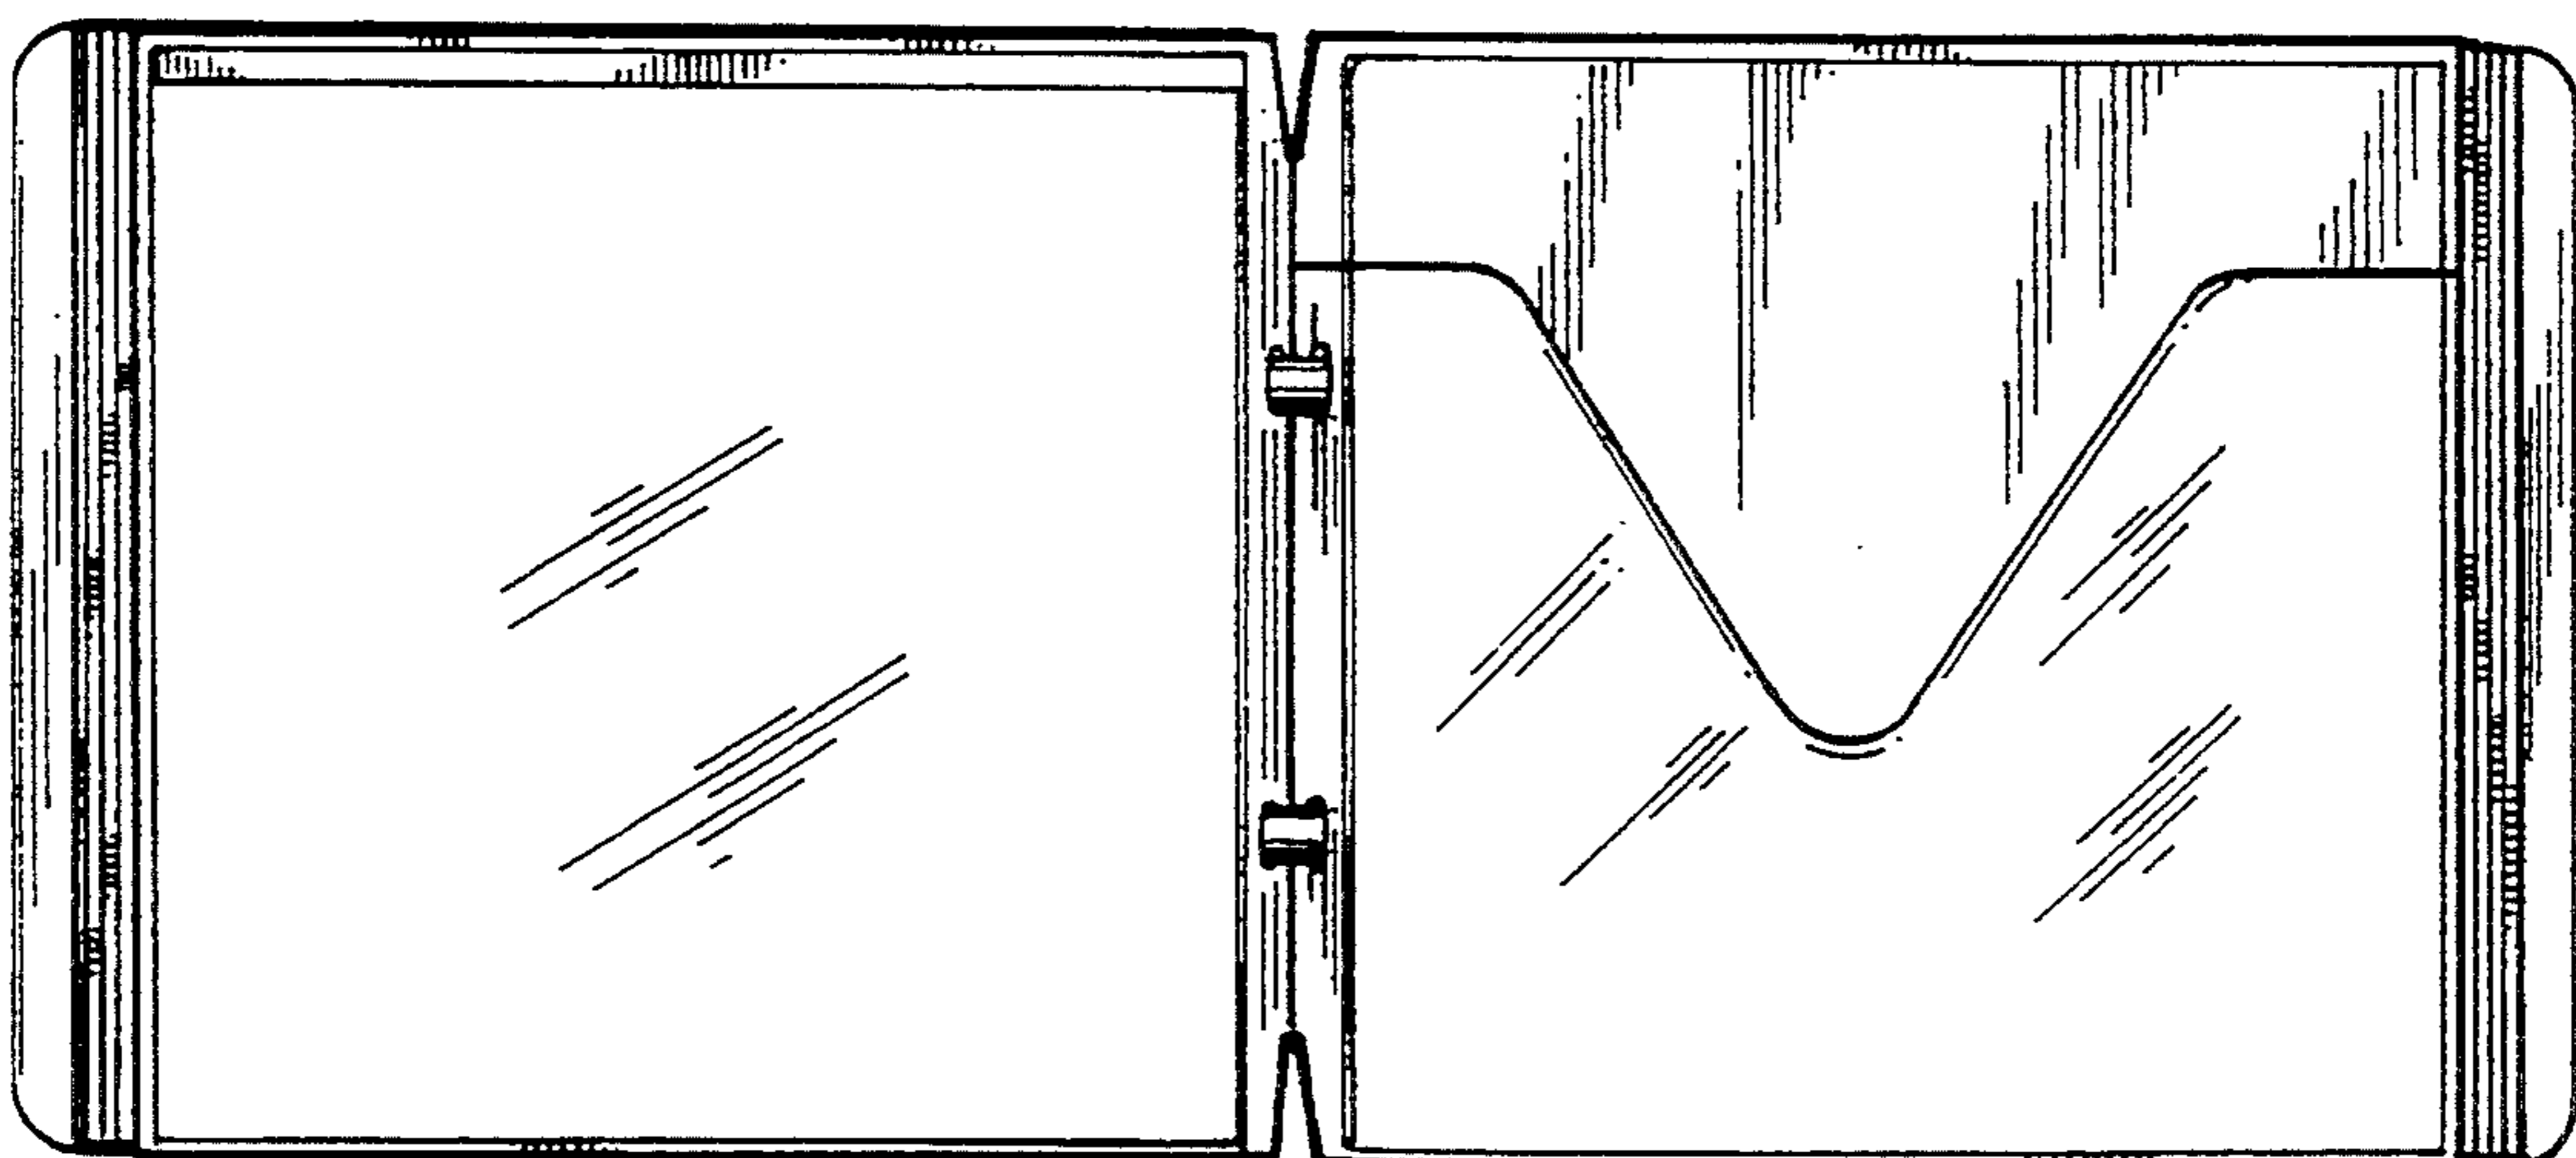

FIG. 3

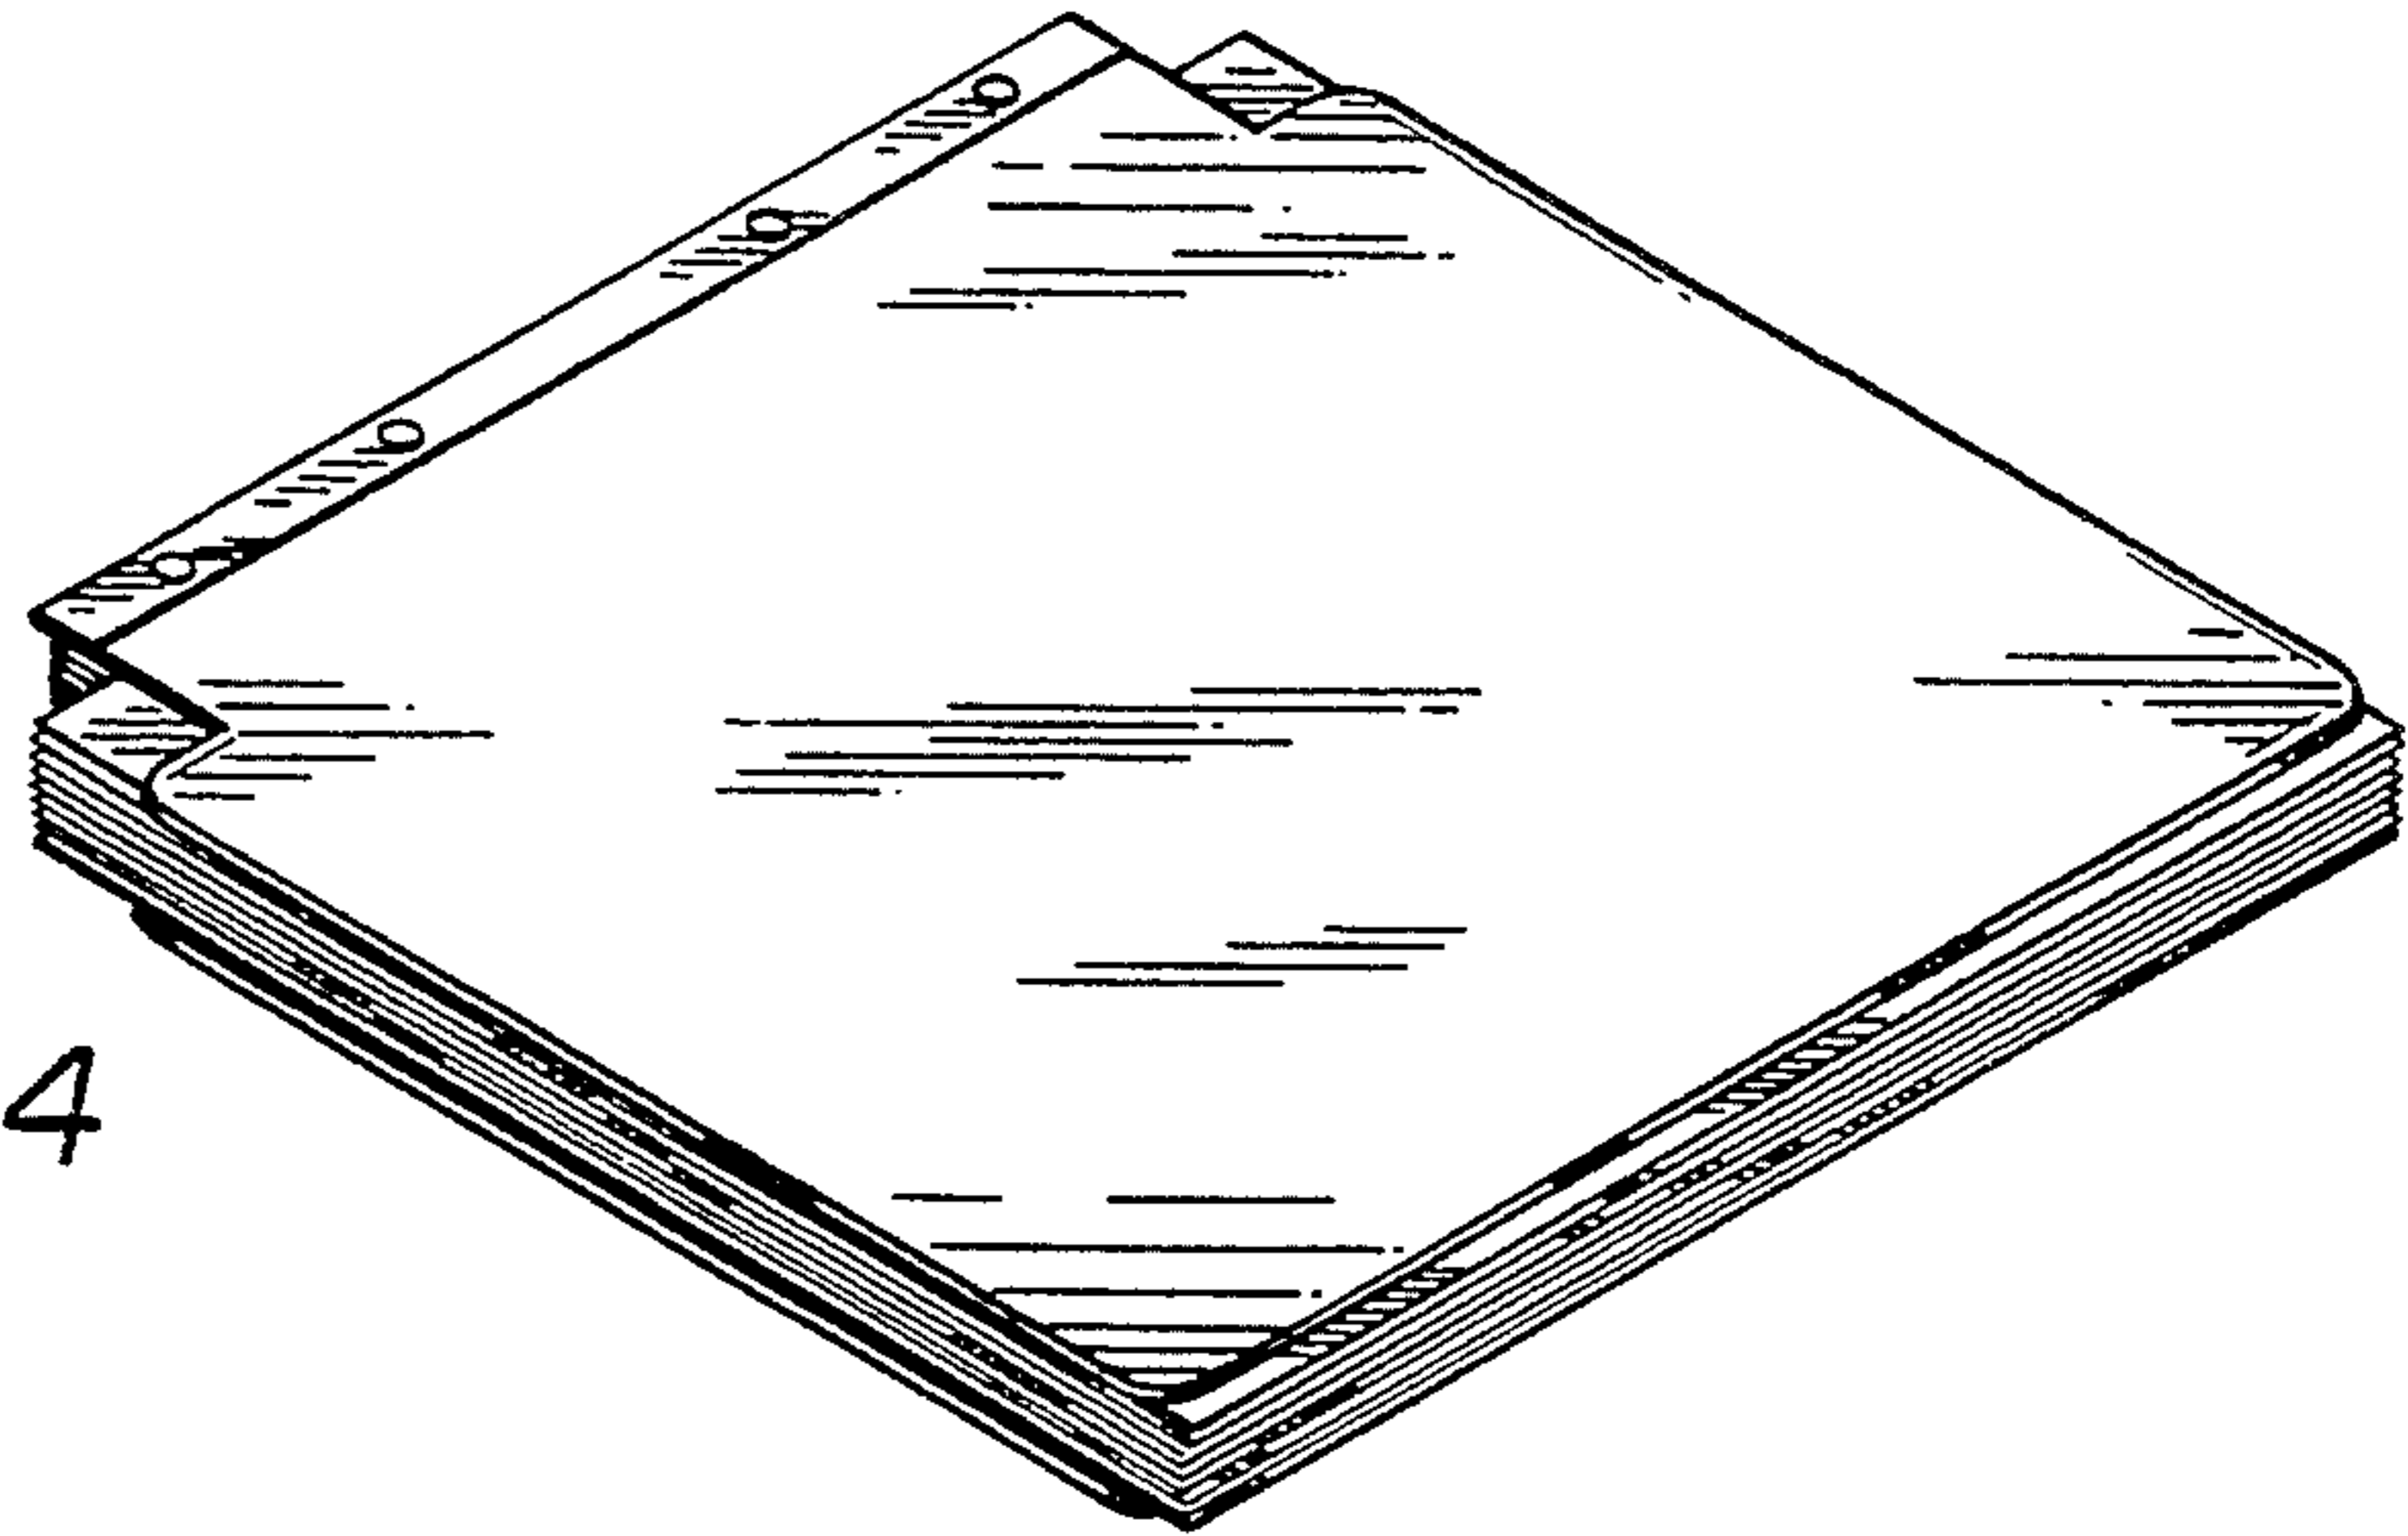

FIG. 4

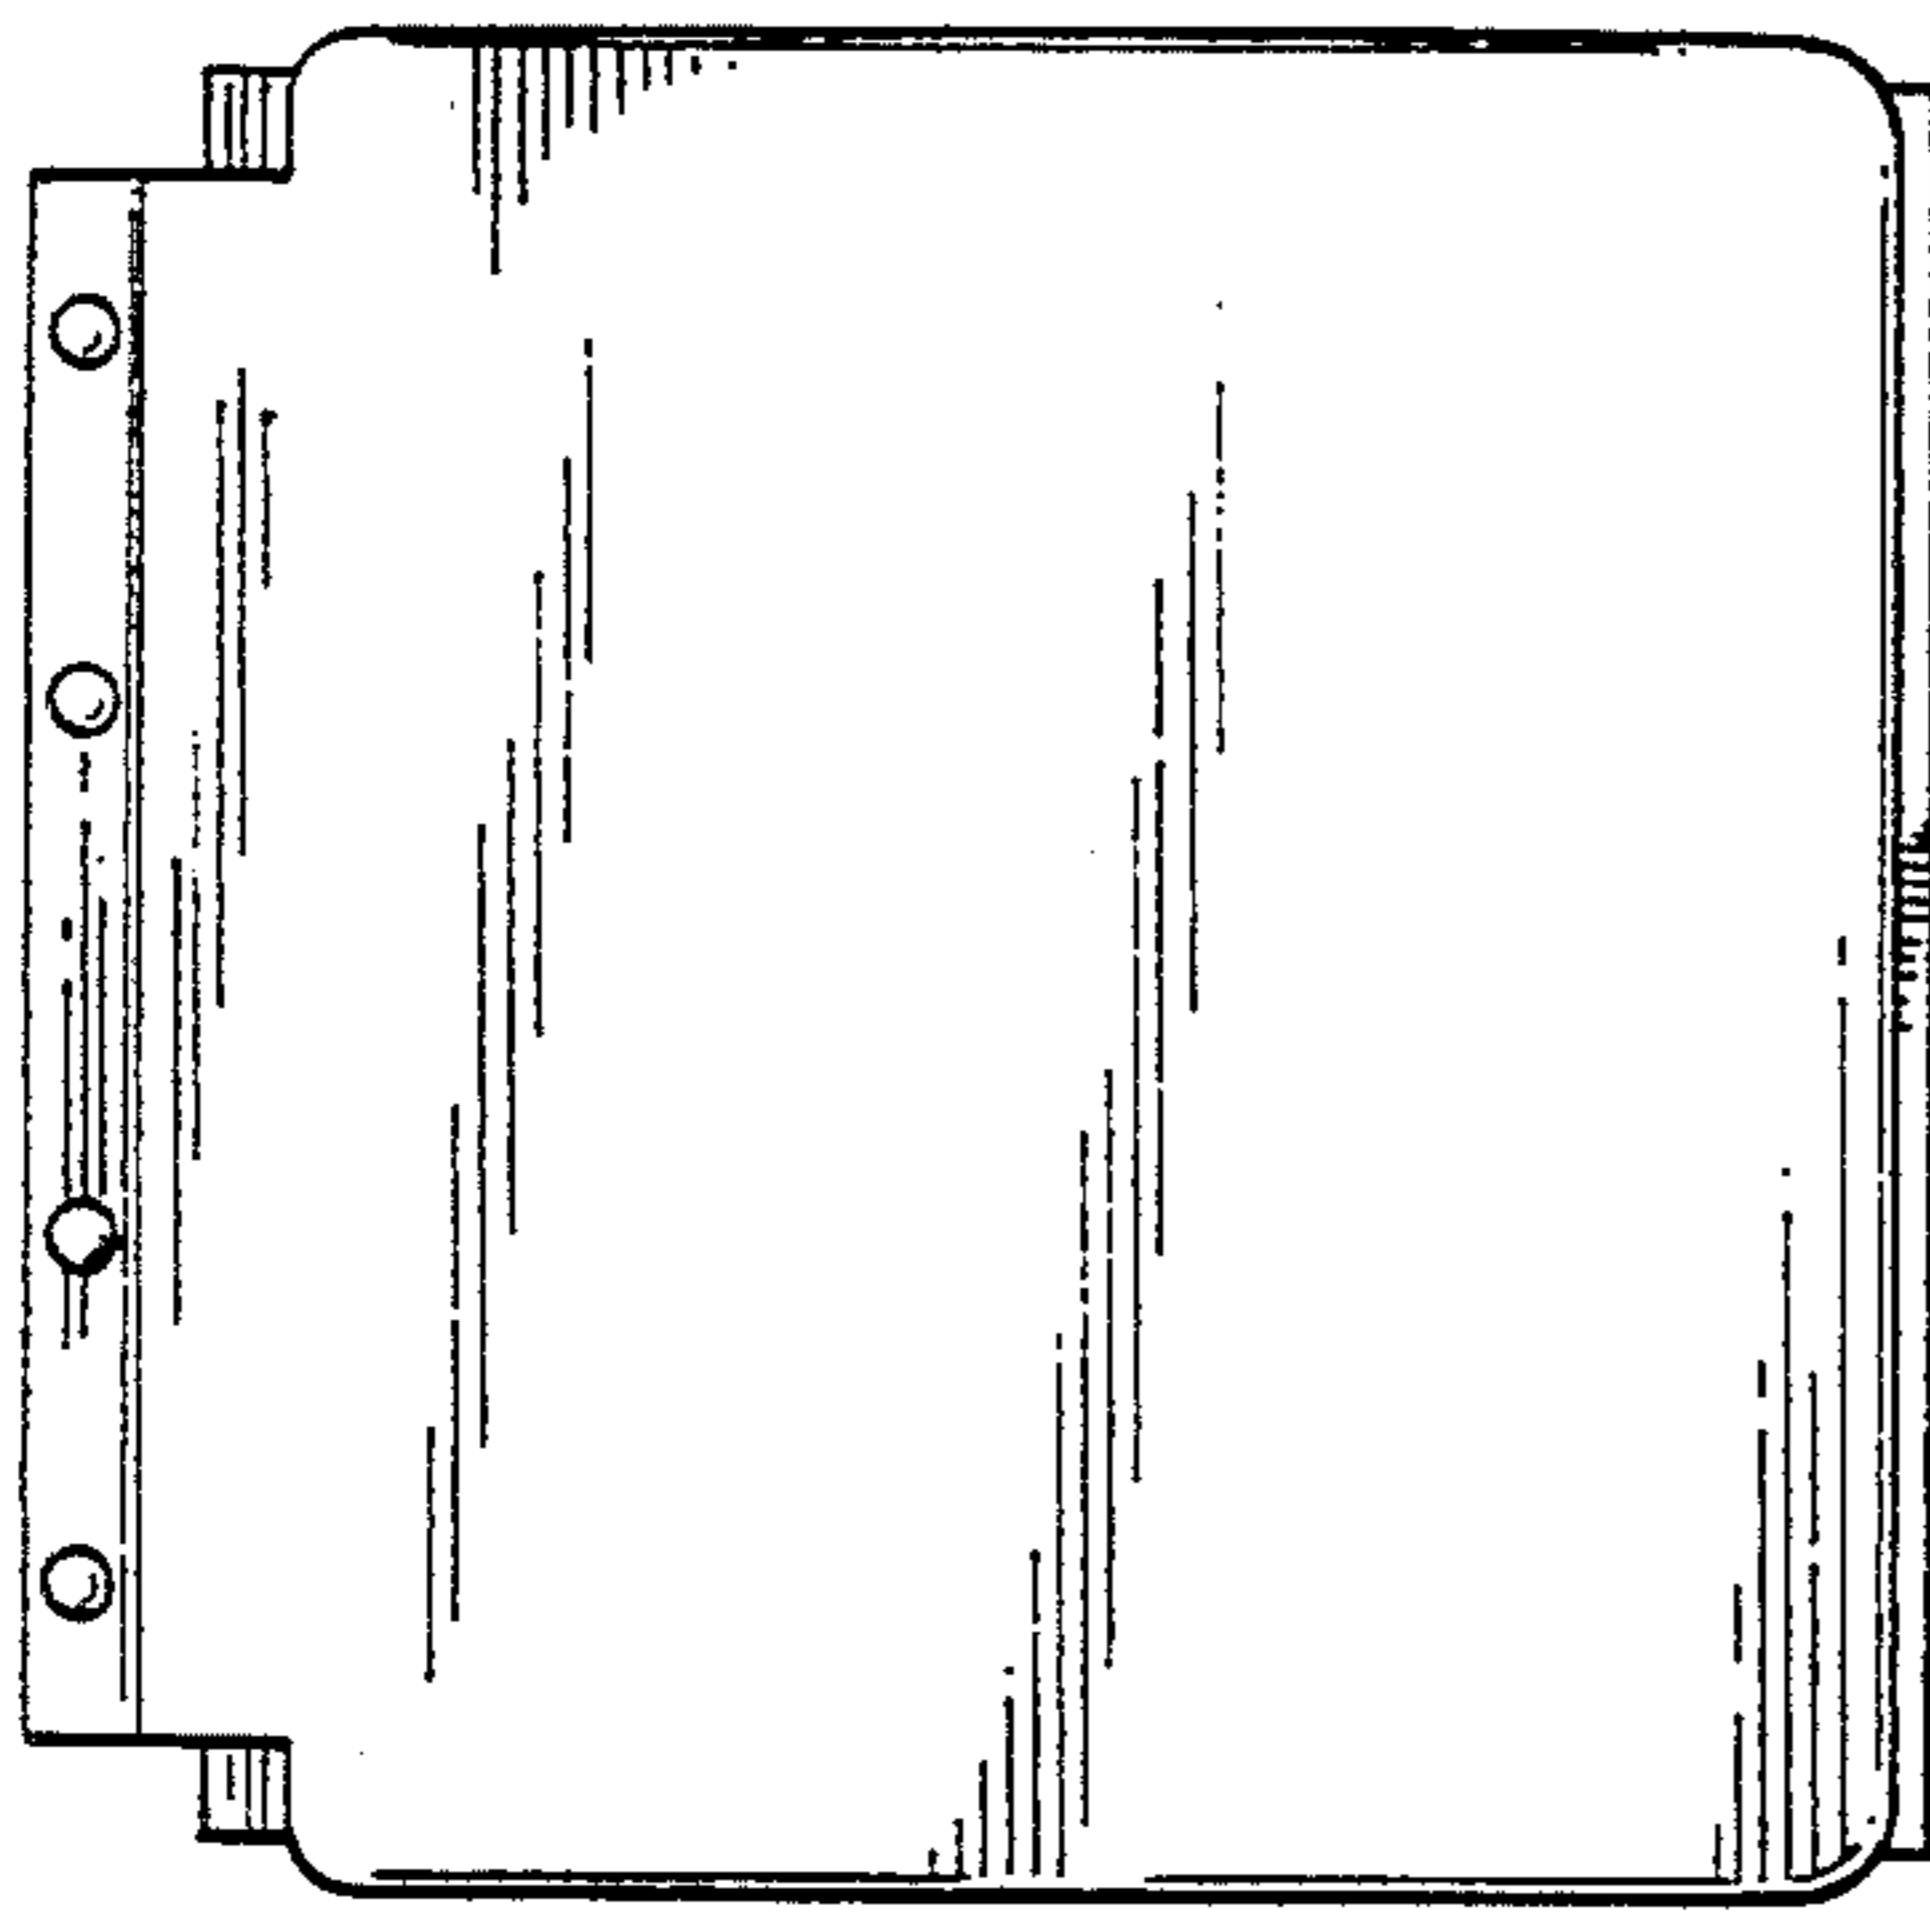

FIG. 5

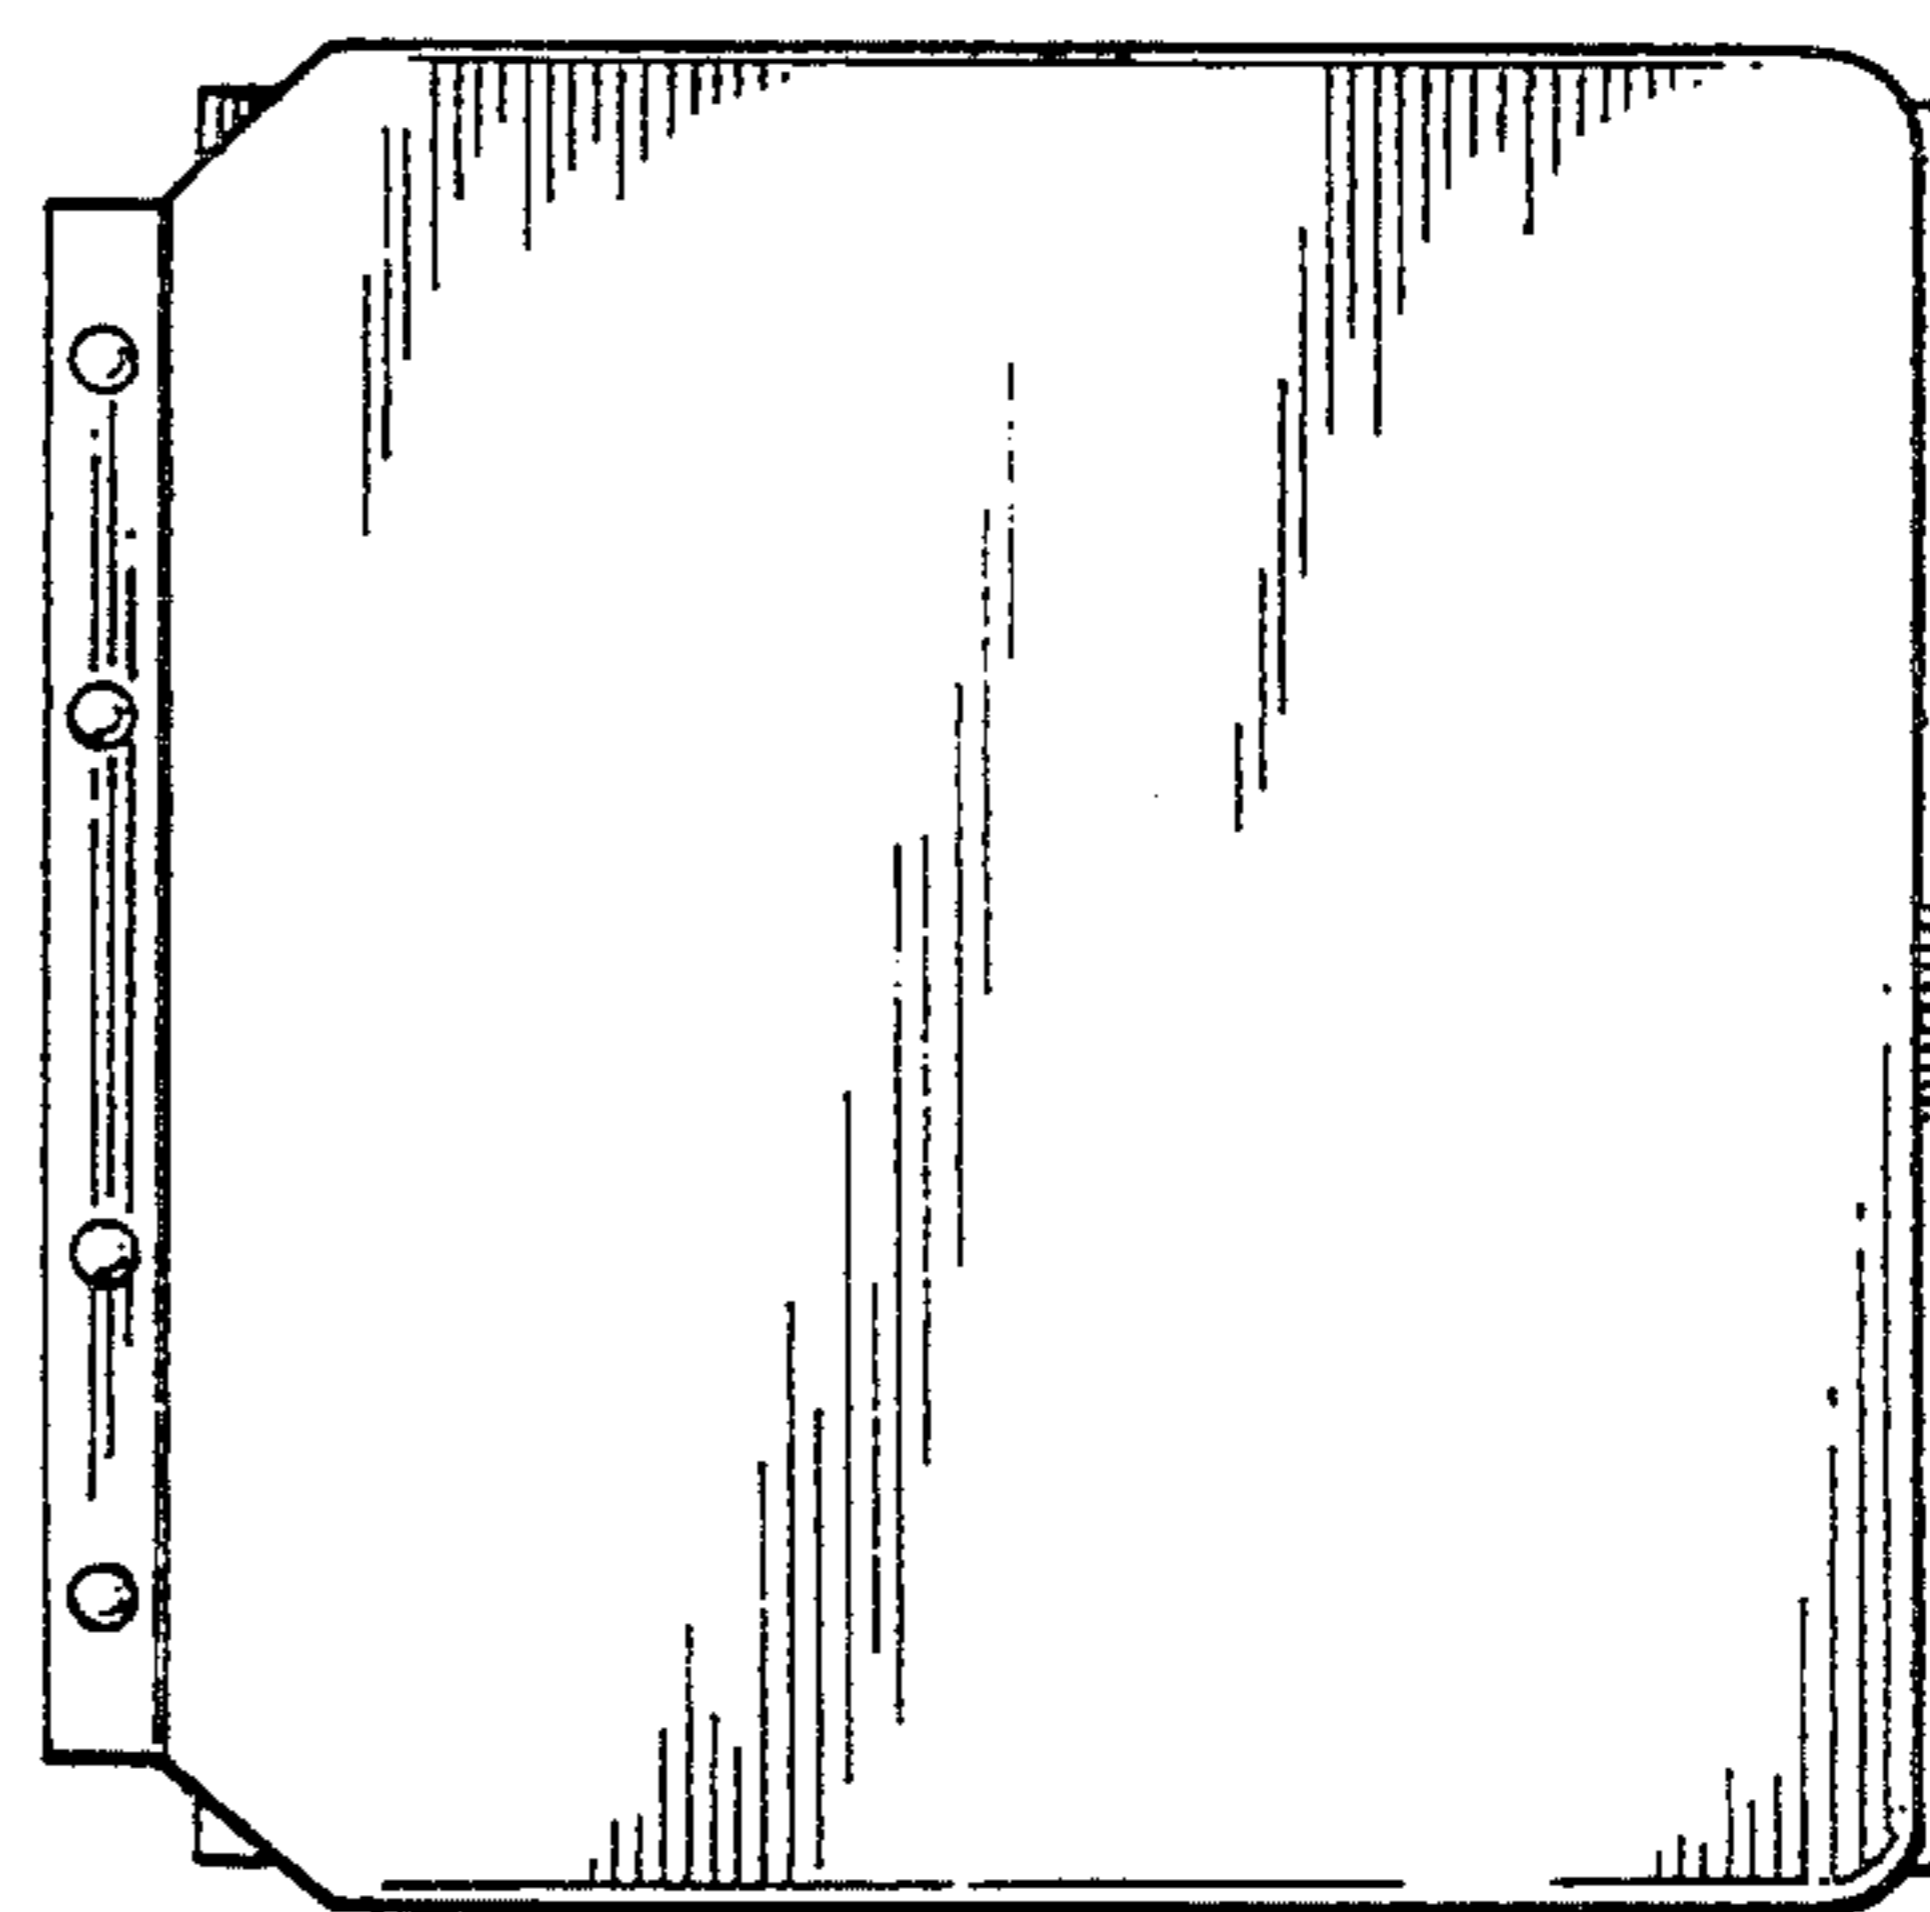

FIG. 6

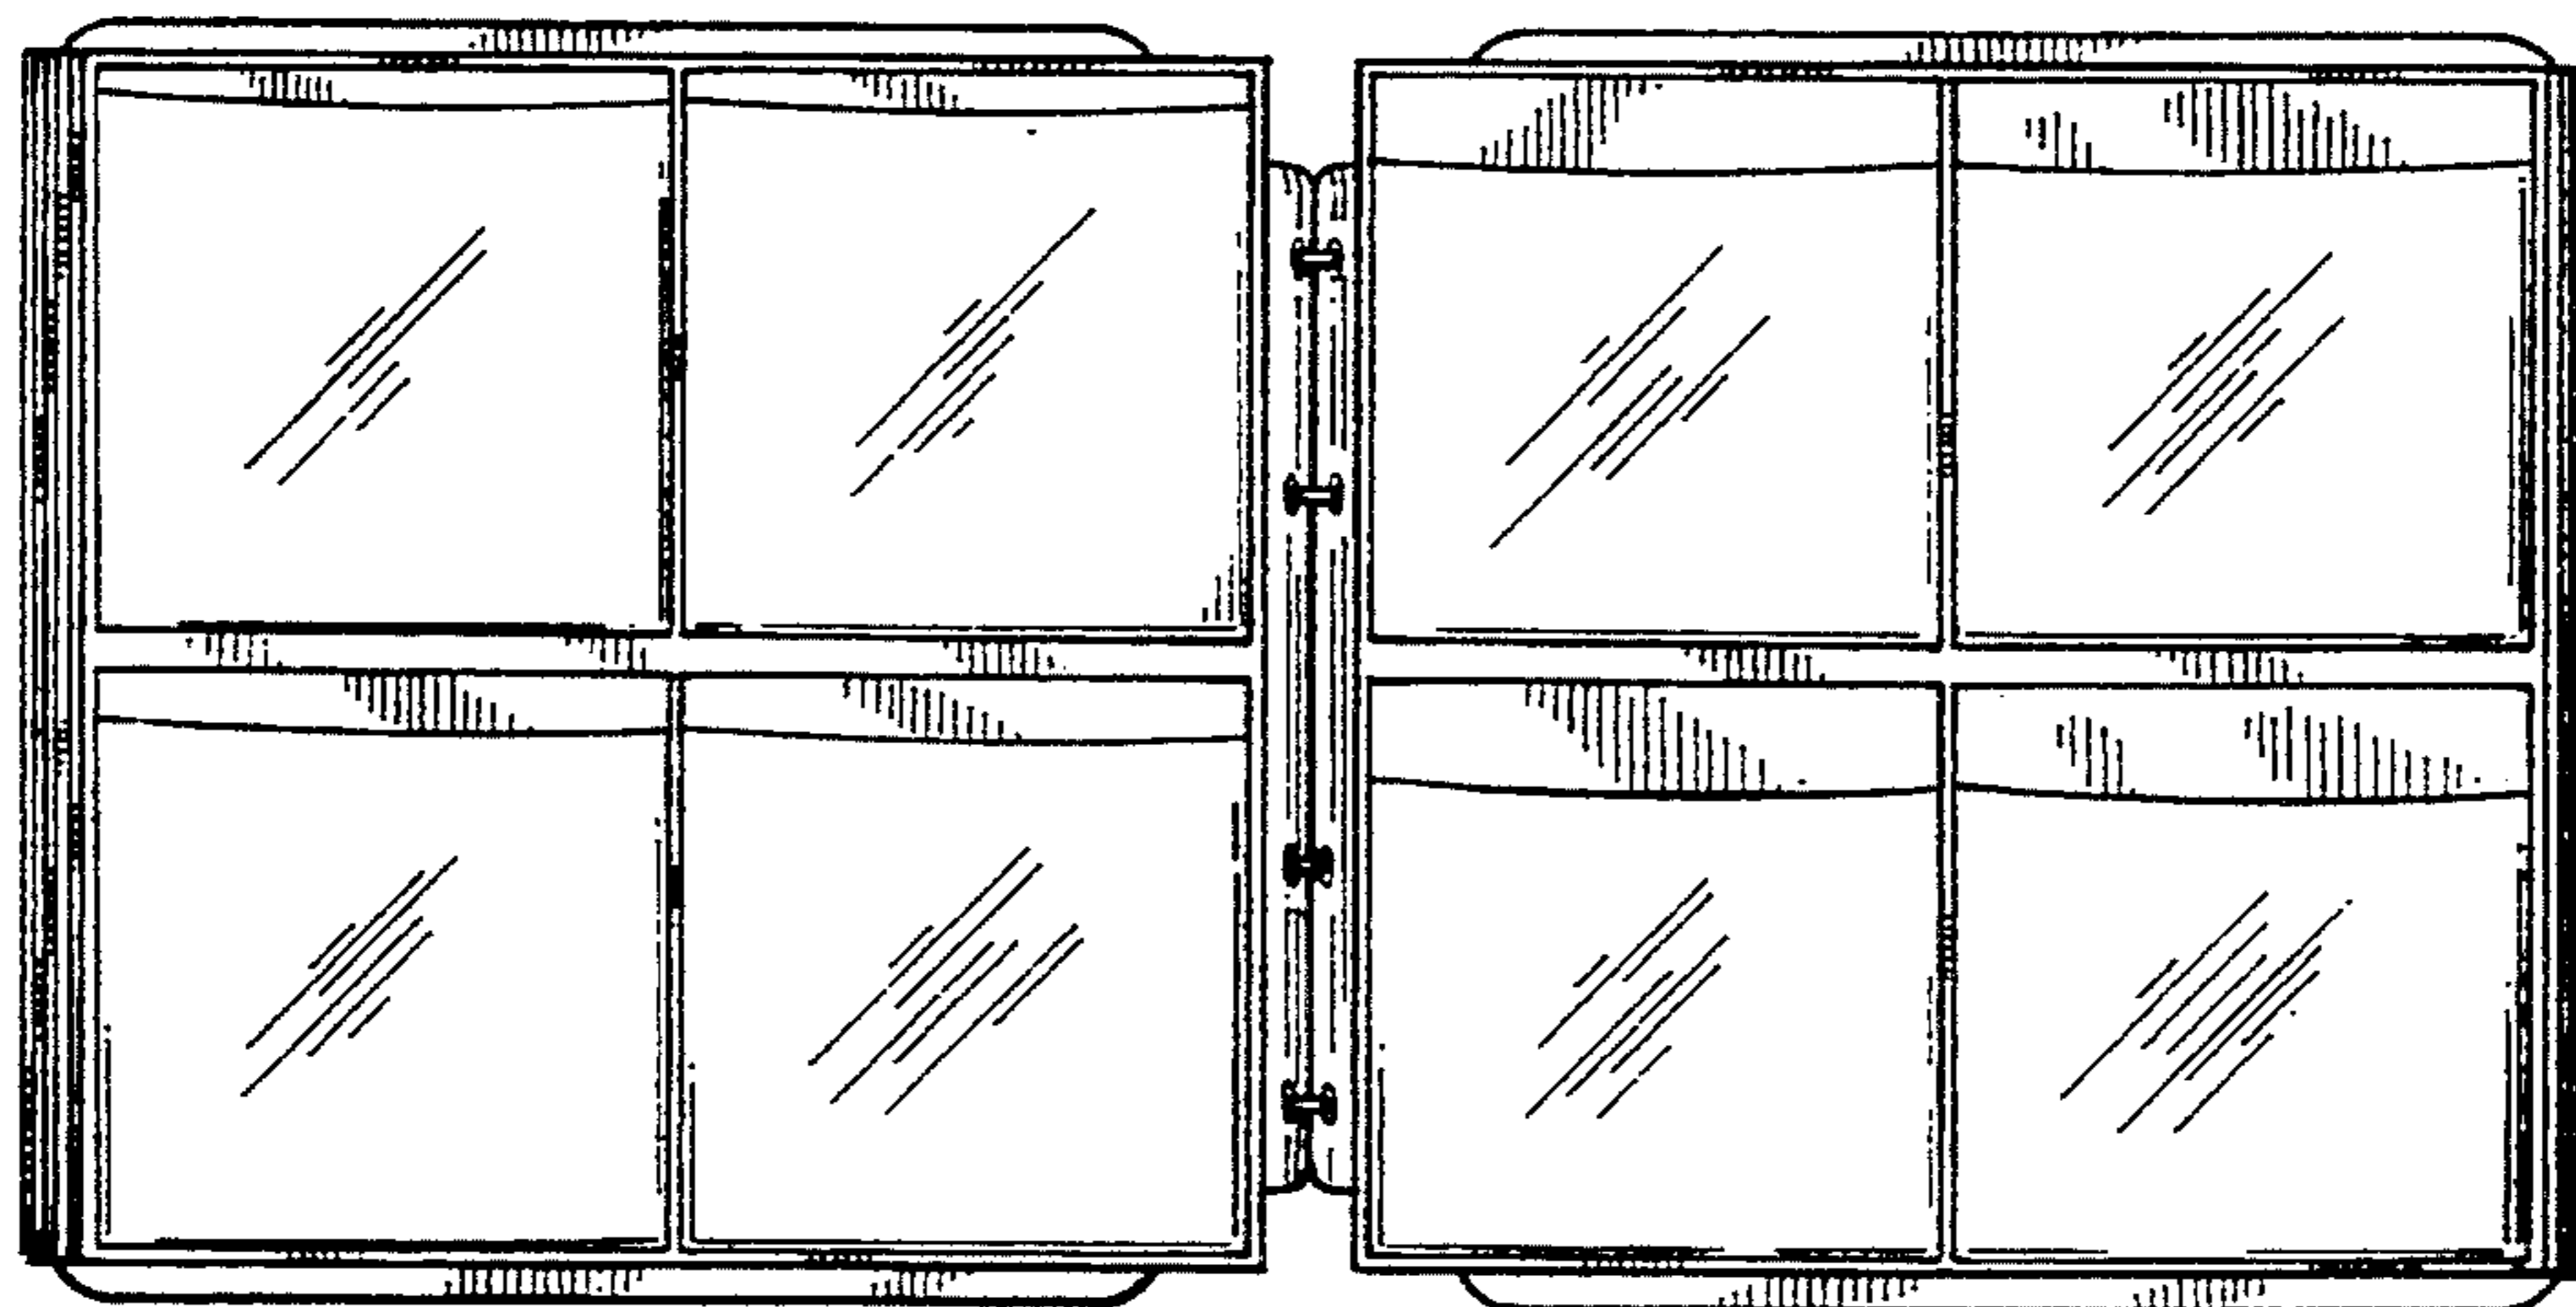

FIG. 7
