[57] CLAIM

The ornamental design for a tire, as shown and described.

DESCRIPTION

FIG. 1 is a perspective view of a tire showing an embodiment of a new tread design. It is understood that the tread pattern, as shown in FIG. 1, is repeated over the outer circumference of the tire and the tread shoulder. The side of the tire opposite the portion of the tire shown in FIG. 1 is substantially the same as that shown; and,

FIG. 2 is an enlarged fragmentary plan view of a portion of the tread of said embodiment shown in FIG. 1.
