[57] CLAIM

The ornamental design for a handle operated draw latch assembly with lockable safety catch, as shown and described.

DESCRIPTION

FIG. 1 is a top, front, and left side perspective view of a handle operated draw latch assembly with lockable safety catch showing our new design;

FIG. 2 is a front elevational view thereof;

FIG. 3 is a rear elevational view thereof;

FIG. 4 is a top plan view thereof;

FIG. 5 is a bottom plan view thereof;

FIG. 6 is a left side elevational view thereof;

FIG. 7 is a right side elevational view thereof;

FIG. 8 is a front elevational view thereof, showing the latch pivoted to an operable position;

FIG. 9 is a front elevational view thereof, shown in a latched position;

FIG. 10 is a top plan view thereof, shown in a latched position;

FIG. 11 is a top, front, and left side perspective view of a handle operated draw latch assembly with lockable safety catch showing an alternate embodiment of our new design;

FIG. 12 is a front elevational view thereof, the rear being a mirror image of that shown; and,

FIG. 13 is a top plan view thereof.

The broken-line disclosure of a post element in the views is for illustrative purposes only and forms no part of the claimed design.
