[57] CLAIM

The ornamental design for a faucet, as shown and described.

DESCRIPTION

FIG. 1 is a perspective view taken from the front, right side and bottom of an embodiment of our new design;

FIG. 2 is a front elevational view of the embodiment thereof;

FIG. 3 is a right side elevational view thereof;

FIG. 4 is a rear elevational view thereof;

FIG. 5 is a top plan view thereof;

FIG. 6 is a left side elevational view thereof;

FIG. 7 is a bottom plan view thereof;

FIG. 8 is a front elevational view of a second embodiment of our new design which is the same as the embodiment of FIG. 1 except that the handle and control valve housing are on the left rather than the right side;

FIG. 9 is a perspective view taken from the front, left side and bottom of a faucet embodying a third embodiment of our new design;

FIG. 10 is a front elevational view of the embodiment of FIG. 9;

FIG. 11 is a top plan view thereof;

FIG. 12 is a left side elevational view, the right side being the mirror image of the left side;

FIG. 13 is a rear elevational view thereof; and,

FIG. 14 is a bottom plan view thereof.

The fragmentary broken line representations of a sink top in FIGS. 1 and 9 are for the purpose of illustration only and form no part of the claimed design.
