[57] **CLAIM**

The ornamental design for a thermostat housing, as shown and described.

DESCRIPTION

FIG. 1 is a top front, left side perspective view of a thermostat housing;

FIG. 2 is a front elevation view of the housing;

FIG. 3 is a right side elevation view of the housing;

FIG. 4 is a bottom elevation view of the housing; and,

FIG. 5 is a detail view of the lower right corner of FIG. 2.

The invention is a thermostat housing having in its front surface an asymmetrically located, slightly recessed flat panel in which is a display window for showing time and temperature. A unique arrangement of push buttons for controlling operation of the thermostat is located in the flat panel below the display window.

The rear of the thermostat housing does not comprise any portion of the invention, and hence is not shown in the drawings.
