The ornamental design for a safety paper, as shown and described.

DESCRIPTION

FIG. 1 is a front elevational view of safety paper showing our new design, this view being common to embodiments 1 and 3;

FIG. 2 is an enlarged fragmentary view thereof, taken from the top left corner of FIG. 1; and,

FIG. 3 is a front elevational view common to embodiments 2 and 4.

The rear surface of the first and second embodiments is identical to the front surface as disclosed in FIGS. 1, 2 and 3.

The rear surface of the third and fourth embodiments is plain.

It is understood that the claimed article is of no appreciable thickness.
