[57]			CLAIM		

The ornamental design for a combined flexible light strip and connectors therefor, as shown and described.

DESCRIPTION

FIG. 1 is a top, front perspective view of the combined flexible light strip and connectors therefor showing my new

design, the connectors being separated from the light strip for purpose of disclosure;

FIG. 2 is a top plan view of the flexible light strip, the connectors being omitted for purpose of disclosure;

FIG. 3 is a left side view thereof;

FIG. 4 is a front view thereof;

FIG. 5 is a right side view thereof;

FIG. 6 is a bottom plan view thereof;

FIG. 7 is a rear elevational view thereof;

FIG. 8 is a top plan view of the left plug, the bottom being a mirror image, and the light strip and right plug being omitted for convenience of illustration and purpose of disclosure;

FIG. 9 is a right side view thereof, the left side being a mirror image;

FIG. 10 is a front view thereof, the rear being a mirror image;

FIG. 11 is a left side view thereof;

FIG. 12 is a plan view of the right plug, the bottom being a mirror image, and the light strip and left plug being omttted for convenience of illustration and purpose of disclosure;

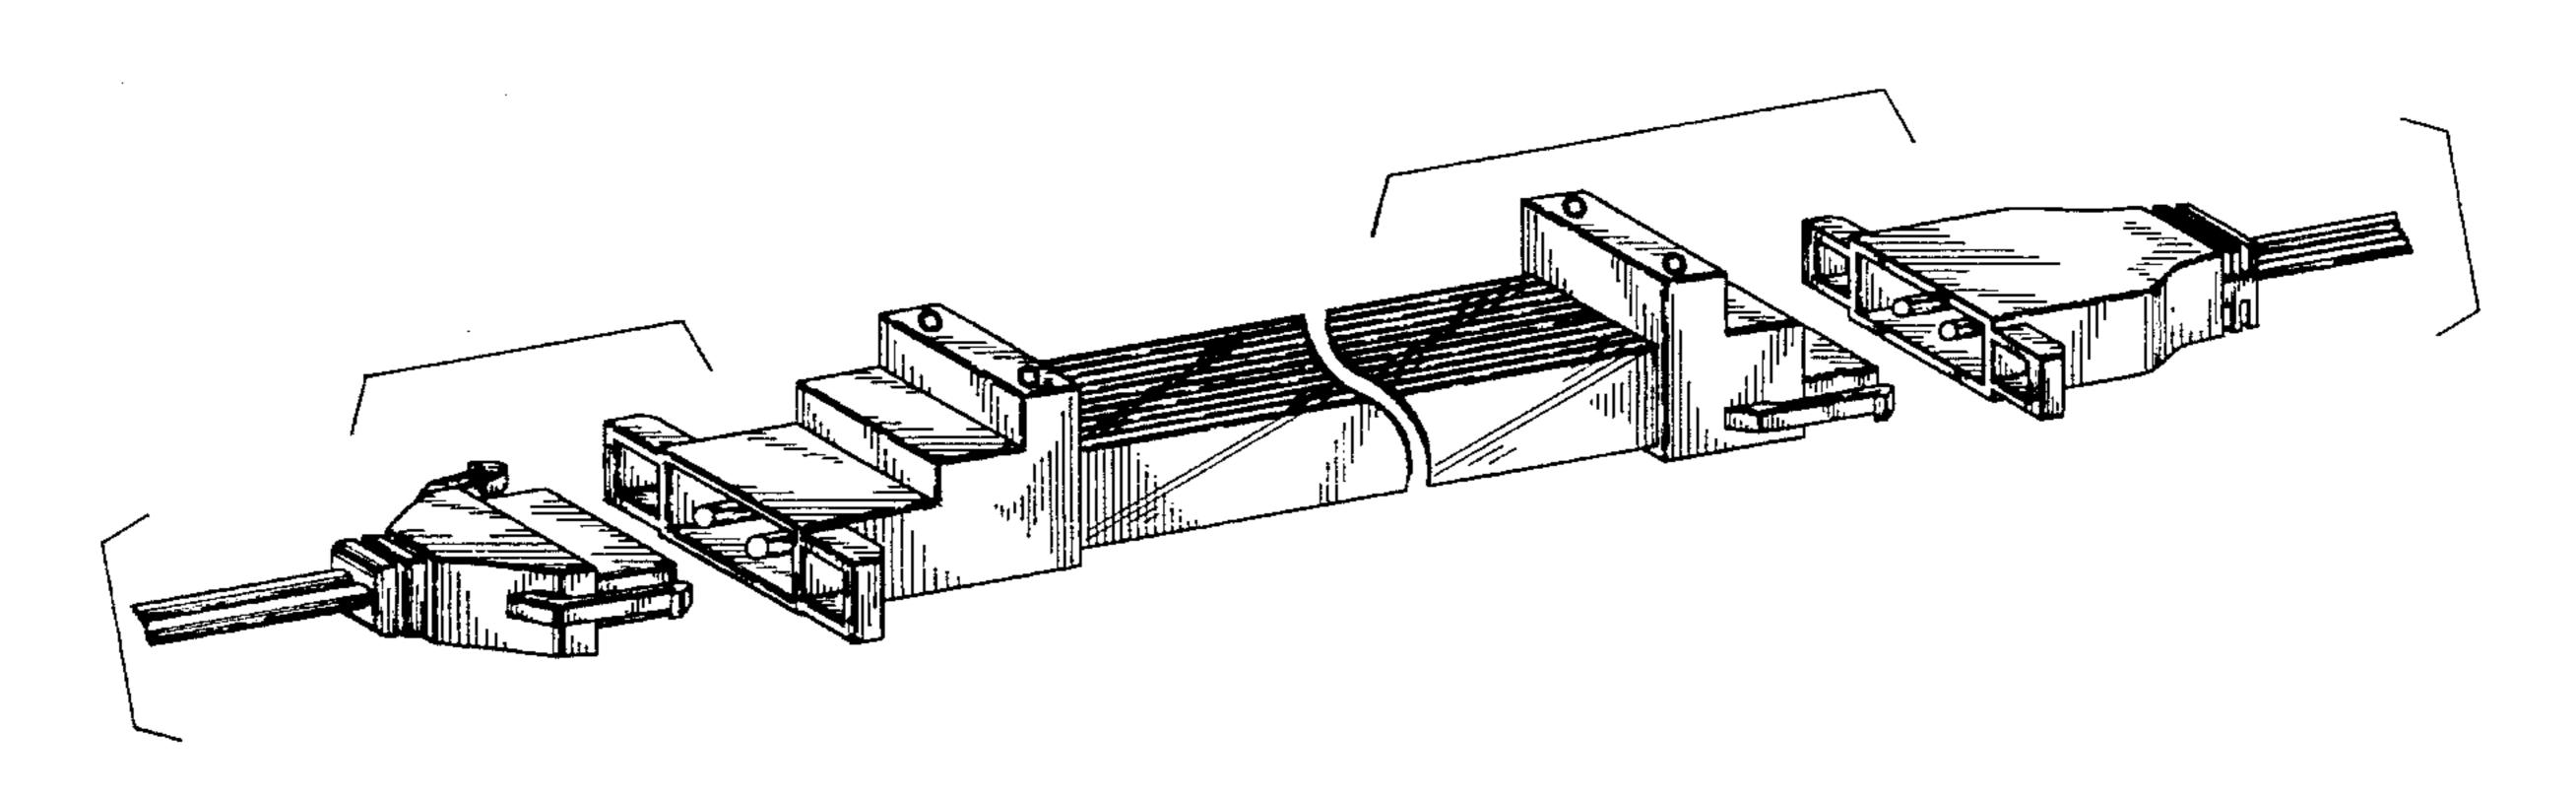

FIG. 13 is a right side view thereof;

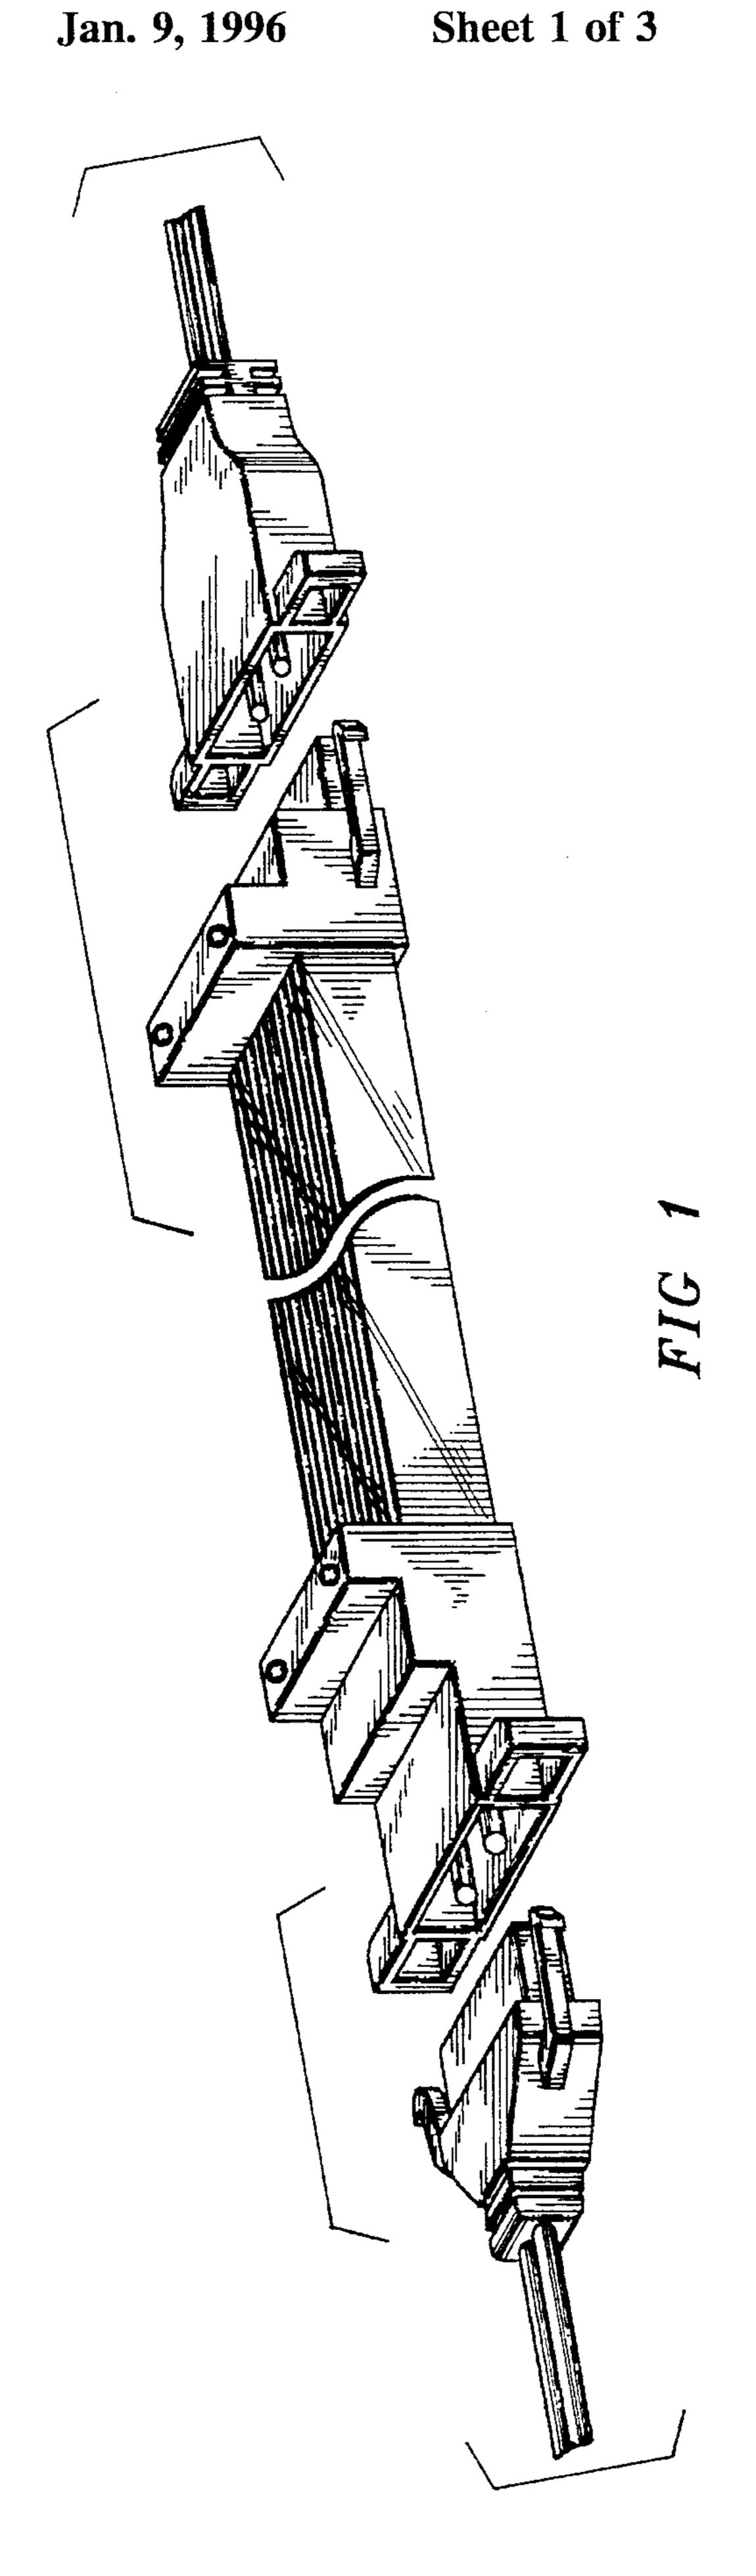

FIG. 14 is a front view thereof, the rear being a mirror image; and,

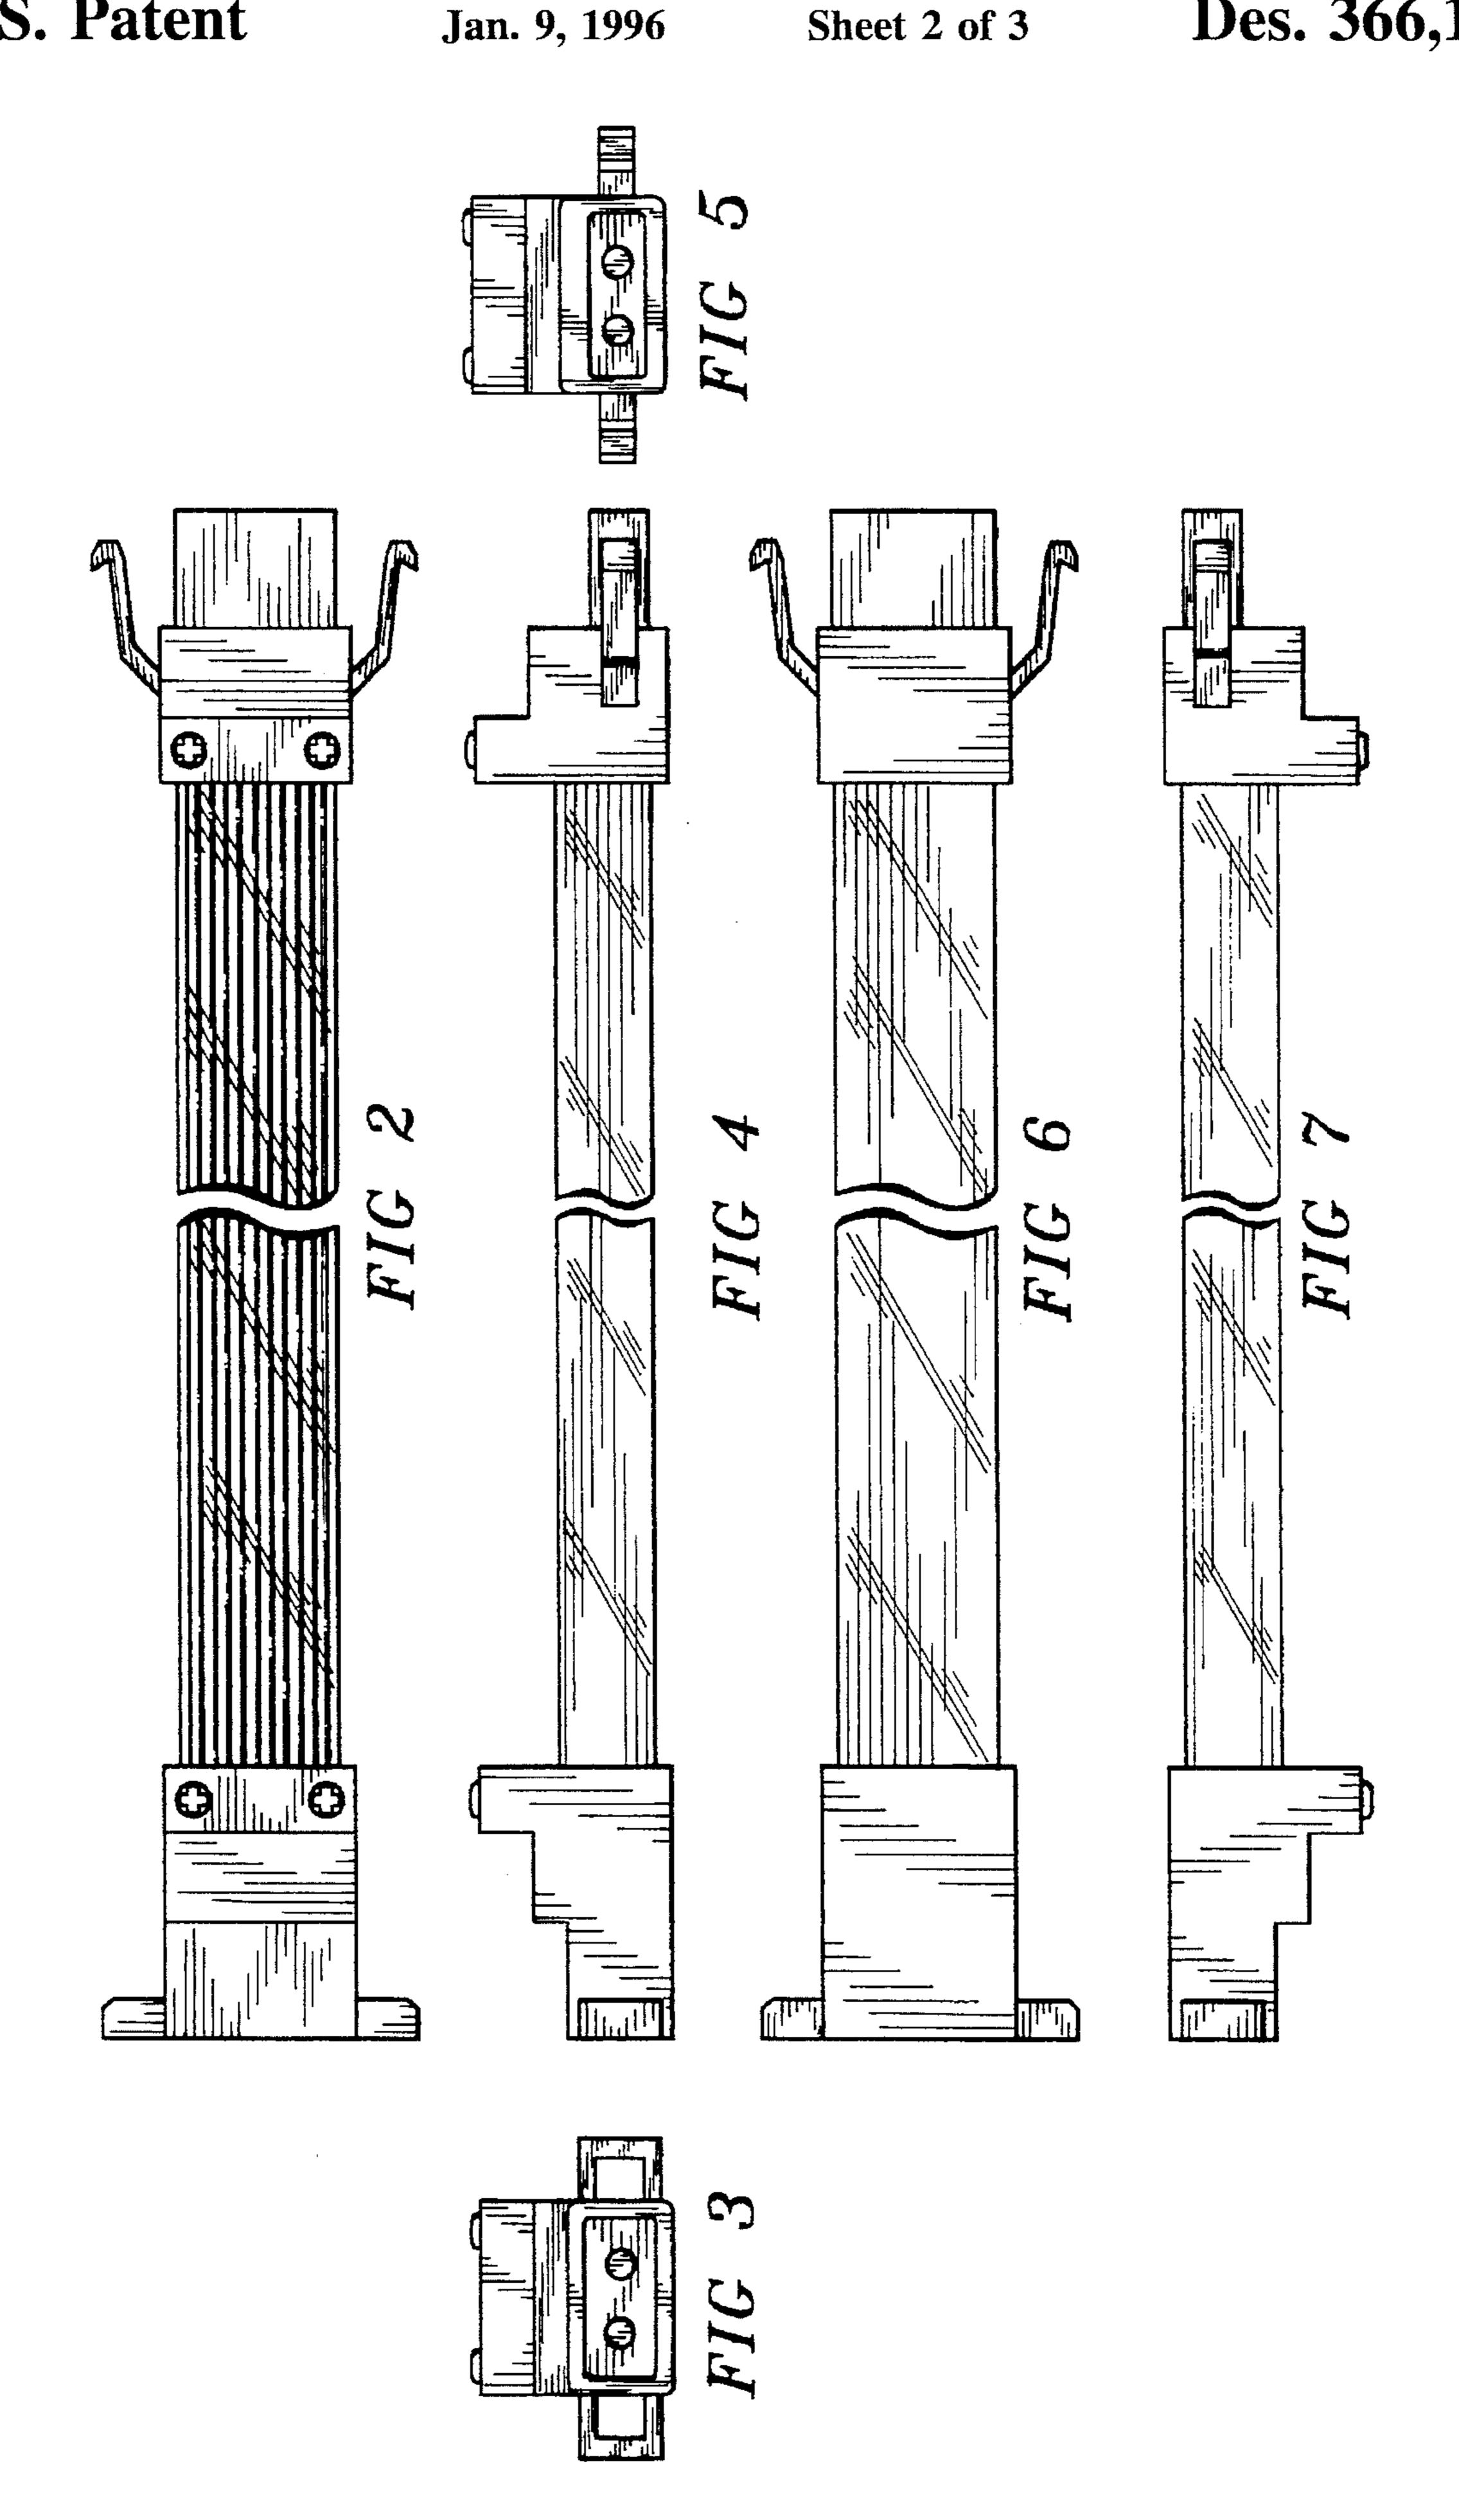

FIG. 15 is a left side view thereof.

The light strip is broken away to indicate indeterminate length.
