[57] **CLAIM**

The ornamental design for an electronic display panel for a selective call receiver, as shown and described.

**DESCRIPTION**

FIG. 1 is a front elevational view of an electronic display panel for a selective call receiver showing our new design in a non-energized condition;

FIG. 2 is a front elevational view thereof showing the display panel in an energized condition representative of typical game situation information received by the selective call receiver;

FIG. 3 is a front elevational view thereof showing the display panel in an energized condition indicating the game schedule information received by the selective call receiver;

FIG. 4 is a front elevational view thereof showing the display panel in an energized condition indicating rain delay information received by the selective call receiver; and,

FIG. 5 is a front elevational view thereof showing the display panel in an energized condition indicating one of a many menu display screens of the selective call receiver; and,

FIG. 6 is a side view of the electronic display panel.
